

that was not originally manufactured to conform to all applicable Federal motor vehicle safety standards shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under 49 U.S.C. § 30115 (formerly section 114 of the Act), and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable Federal motor vehicle safety standards.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR Part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the Federal Register of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the Federal Register.

Wallace Environmental Testing Laboratories, Inc. of Houston, Texas ("Wallace") (Registered Importer 90-005) has petitioned NHTSA to decide whether 1972 Ford Mustang passenger cars manufactured for the Mexican market are eligible for importation into the United States. The vehicle which Wallace believes is substantially similar is the 1972 Ford Mustang that was manufactured for sale in the United States and certified by its manufacturer, Ford Motor Company, as conforming to all applicable Federal motor vehicle safety standards.

The petitioner claims that it carefully compared the non-U.S. certified 1972 Ford Mustang to its U.S. certified counterpart, and found the two vehicles to be substantially similar with respect to compliance with most Federal motor vehicle safety standards.

Wallace submitted information with its petition intended to demonstrate that the non-U.S. certified 1972 Ford Mustang, as originally manufactured, conforms to many Federal motor vehicle safety standards in the same manner as its U.S. certified counterpart, or is capable of being readily altered to conform to those standards.

Specifically, the petitioner claims that the non-U.S. certified 1972 Ford Mustang is identical to its U.S. certified counterpart with respect to compliance with Standards Nos. 101 *Controls and Displays*, 102 *Transmission Shift Lever*

*Sequence * * **, 103 *Defrosting and Defogging Systems*, 104 *Windshield Wiping and Washing Systems*, 105 *Hydraulic Brake Systems*, 106 *Brake Hoses*, 107 *Reflecting Surfaces*, 109 *New Pneumatic Tires*, 111 *Rearview Mirror*, 113 *Hood Latch Systems*, 115 *Vehicle Identification Number*, 116 *Brake Fluid*, 210 *Occupant Protection in Interior Impact*, 202 *Head Restraints*, 203 *Impact Protection for the Driver From the Steering Control System*, 204 *Steering Control Rearward Displacement*, 205 *Gazing Materials*, 206 *Door Locks and Door Retention Components*, 207 *Seating Systems*, 209 *Seat Belts Assemblies*, 211 *Wheel Nuts, Wheel Discs and Hubcaps*, 212 *Windshield Retention*, and 302 *Flammability of Interior Materials*.

Petitioner also contends that the vehicle is capable of being readily altered to meet the following standards, in the manner indicated:

Standard No. 108 *Lamps, Reflective Devices and Associated Equipment*: Installation of a white license plate lamp.

Standard No. 110 *Tire Selection and Rims*: Installation of a tire information placard.

Standard No. 114 *Theft Protection*: Installation of a warning buzzer microswitch in the ignition switch a warning buzzer.

Standard No. 208 *Occupant Crash Protection*: (a) Installation in both front outboard seating positions of lap and upper torso restraints adjustable by means of an automatic-locking retractor, and with a latch mechanism capable of releasing both belts simultaneously; (b) installation Type 1 lap belts in both rear outboard seating positions.

Standard No. 301 *Fuel System Integrity*: Installation of a rollover valve in the fuel tank vent line between the fuel tank and the evaporative emissions collection canister.

Interested persons are invited to submit comments on the petition described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5109, 400 Seventh Street, SW., Washington, DC 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on the closing date indicated above will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. Notice of final action on the petition

will be published in the Federal Register pursuant to the authority indicated below.

Authority: 49 U.S.C. 30141 (a)(1)(A) and (b)(1); 49 CFR 593.8; delegations of authority at 49 CFR 1.50 and 501.8.

Issued on: February 14, 1996.

Marilynne Jacobs,
Director Office of Vehicle Safety Compliance.

UNITED STATES INFORMATION AGENCY

Notice of Meeting of the Cultural Property Advisory Committee

SUMMARY: The Cultural Property Advisory Committee will meet on Wednesday, February 28, 1996, from approximately 9 a.m. to 5 p.m., and on Thursday, February 29, 1996, from approximately 8 a.m. to 12 noon, at USIA headquarters, 301 4th Street SW., Washington, DC. The agenda will include deliberation of a cultural property request from the Government

of Nicaragua to the United States Government seeking protection of certain pre-Hispanic archaeological resources. This request, submitted under Article 9 of the 1970 UNESCO Convention, will be considered in accordance with the provisions of the Convention on Cultural Property Implementation Act (19 U.S.C. 2601 et seq., P.L. 97-446).

The Committee will also review and discuss internal operating procedures. Since discussion of these matters will involve information the premature disclosure of which would be likely to significantly frustrate implementation of proposed actions, this portion of the meeting will be closed pursuant to 5 U.S.C. 552b(c)(9)(B) and 19 U.S.C. 2605(h).

Dated: February 15, 1996.

Penn Kemble,

Acting Director, United States Information Agency.
