December 20, 1996.

**SUMMARY:** The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden, invites the general public and other federal agencies to take this opportunity to comment on the following emergency information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. The Commission is seeking emergency approval for this information collection by January 10, 1997 under the provisions of 5 CFR 1320.13.

**SUPPLEMENTARY INFORMATION:**

*OMB Approval Number:* New Collection.  
*Title:* FCC Auctions Customer Survey.  
*Type of Review:* Emergency Collection.  
*Respondents:* Businesses or other for-profit entities.  
*Number of Respondents:* 1,500.  
*Estimated Time for Response:* .25 hours.  
*Total Annual Burden:* 375 hours (.25 × 1,500 responses).  
*Total Cost to Respondents:* 0.  
*Needs and Uses:* Section 309(j)(3) of the Communications Act requires the Commission to establish a competitive bidding methodology for each class of licenses or permits that the Commission grants through the use of a competitive bidding system. The Commission is further directed to test alternative methodologies under appropriate circumstances in order to promote, among other things, "the development and rapid deployment of new technologies, products, and services for the benefit of the public, including those residing in rural areas, without administrative or judicial delays." The Commission is directed likewise to promote "economic opportunity and competition and ensuring that new and innovative technologies are readily accessible to the American people by avoiding excess concentration of licenses and by disseminating licenses among a wide variety of applicants, including small businesses, rural telephone companies and businesses owned by members of minority groups and women," and by encouraging "efficient and intensive use of the electromagnetic spectrum." In addition, Section 309(j)(12) requires the Commission to evaluate the methodologies established by the Commission for conducting competitive bidding, comparing the advantages and disadvantages of such methodologies in terms of attaining these objectives.

The FCC Auctions Customer Survey is an important step in meeting these congressional requirements. By seeking input from auction participants, the Commission expects to gather information to evaluate the effectiveness of competitive bidding methodologies

used to date, and to improve the competitive bidding methodologies used in future auctions. Finally, the FCC Auctions Customer Survey will provide useful feedback in determining the extent to which the Commission is meeting its goal of providing participants in competitive bidding with the highest level of customer satisfaction through information dissemination and the responsiveness of the Commission staff to customer inquiries.
