## DEPARTMENT OF LABOR

### Employment and Training Administration

#### **Proposed Collection of the ETA 539, Weekly Claims and Extended Benefits Trigger Data and the ETA 538, Advance Weekly Initial and Continued Claims Report; Comment Request**

**ACTION:** Notice.

**SUMMARY:** The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment and Training Administration is soliciting comments concerning the proposed revision and extension of the collection of the ETA 538, Advance Weekly Initial and Continued Claims Report and the ETA 539, Weekly Claims and Extended Benefits Trigger. The proposed change is to the reported initial claims figure on the ETA 538. With the advent of increased direct telephone claims taking of interstate initial claims, to have the most accurate and timely data requires the interstate component of this item be changed to the sum of all agent and liable interstate claims taken directly by the State in the report. A copy of the proposed information collection request (ICR) can be obtained by contacting the office listed below in the addressee section of this notice.

**DATES:** Written comments must be submitted to the office listed in the addressee section below on or before February 25, 1997.

The Department of Labor is particularly interested in comments which:

- \* Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- \* Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- \* Enhance the quality, utility, and clarity of the information to be collected; and

- \* Minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

#### **SUPPLEMENTARY INFORMATION:**

##### **I. Background**

The ETA 538 and ETA 539 reports contain information on initial claims and continued weeks claimed. These figures are important economic indicators. The ETA 538 is a quick look that allows U.S. figures to be released to the public five days after the close of the period. The ETA 539 contains more refined economic indicators that are publishable on a State level as well as information of the Extended Benefits trigger level and the background data supporting it. Several States have begun using the telephone for interstate claimants to file directly with liable States, by-passing the agent State. This trend will continue. It is necessary to change what is being reported as initial claims on the ETA 538 so that claims are not double counted or missed entirely. Therefore the definition of interstate claims to be reported on the ETA 538 has been changed to all those claims received directly from the claimant by the reporting State, whether in an agent or liable capacity, during the report week.

##### **II. Current Actions**

The ETA 538 and ETA 539 reports continue to be needed to verify the
