

Interconnection and Operations and Maintenance Agreement with Sierra Pacific Power Company (SPPCo) and PacifiCorp to interconnect BPA's Malin-Warner 230-kilovolt (kV) line at the proposed SPPCo's Hilltop Substation. BPA also decided to sign a Construction Reimbursable Agreement with SPPCo to achieve the interconnection. Pursuant to such reimbursable agreement, BPA will construct a 2.81-kilometer (1.8-mile), 230-kV double circuit H-frame transmission line from BPA's existing line to the proposed SPPCo's Hilltop Substation. BPA will also build part of a 230-kV substation in SPPCo's proposed Hilltop Substation. BPA has prepared a Record of Decision describing these decisions in accordance with the National Environmental Policy Act (NEPA), Council on Environmental Quality regulations implementing NEPA (40 CFR 1500 et seq.), and Department of Energy regulations implementing the statute (10 CFR 1021). The Bureau of Land Management (BLM), Susanville, California, was the lead federal agency for the Environmental Impact Report/Environmental Impact Statement (EIR/EIS) preparation, and BPA was a cooperating agency. The BLM executed a separate ROD for their decisions on February 9, 1996. BPA adopted the Alturas Transmission Line Environmental Impact Statement (DOE/EIS-0256) and published an adoption notice in the Federal Register on February 2, 1996 (61 FR 3933, Feb. 2, 1996).

**ADDRESSES:** Copies of the ROD and EIS may be obtained by calling BPA's toll-free document request line: 1-800-622-4520.

## **Amendatory Agreement to the 1981 Power Sales Contracts**

**AGENCY:** Bonneville Power Administration (BPA), Department of Energy (DOE).

**ACTION:** Notice of Availability of Record of Decision (ROD).

**SUMMARY:** BPA has decided to provide certain of its Federal and public agency customers with an opportunity to amend their 1981 Power Sales Contracts. The Amendatory Agreement addresses changes in the electric power marketplace and the changing needs of BPA's customers. In offering the Amendatory Agreement, BPA will facilitate business relationships with its customers, improve the long-term attractiveness of BPA as a power supplier, enhance BPA's competitiveness, and provide public benefits. This decision is a direct application of BPA's earlier decision to use a market-driven approach for participation in the increasingly competitive electric power market.

This notice announces the availability of the ROD to offer the Amendatory Agreement to the 1981 Power Sales Contracts. This decision is consistent with BPA's Business Plan, the Business Plan Final Environmental Impact Statement (BP EIS) (DOE/EIS-0183, June 1995), and the Business Plan ROD (August 15, 1995).

**ADDRESSES:** Copies of this ROD, the BP EIS, and the Business Plan ROD may be obtained by calling BPA's toll-free document request line: 1-800-622-4520.

**[Docket No. CP96-179-000]**

**Pacific Gas Transmission Company; Notice of Request Under Blanket Authorization**

February 20, 1996.

Take notice that on February 8, 1996, Pacific Gas Transmission Company (PGT), 2100 Southwest River Parkway, Portland, Oregon 97201, filed in Docket No. CP96-179-000 a request pursuant to §§ 157.205 and 157.211 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205, 157.211) for authorization to install a new tap and meter set near Moyie Springs, Idaho for delivery of gas to The Washington Water Power Company (WWP), under PGT's blanket certificate issued in Docket No. CP82-530-000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in request on file with the Commission and open to public inspection.

According to PGT, WWP requested that a 2-inch tap and meter set with appurtenant facilities be constructed to allow WWP an additional supply point for its Bonners Ferry distribution system. These needed facilities will let

WWP provide more reliable service to the Moyie Springs and Bonners Ferry area which has been experiencing supply disruptions from flooding on the Kootenai River.

PGT states that the facilities will be located immediately adjacent to PGT's existing right-of-way near Moyie Springs on land owned by WWP. The station will consist of a fenced and graveled yard, an 8-by-16 foot building housing gas pressure regulation and metering facilities, approximately 150 feet of 2-inch buried pipe and a slab-mounted gas heater. Construction will be from April 1, 1996 to June 1, 1996. The proposed tap will have no impact on PGT's peak day or annual deliveries and there is sufficient capacity to accomplish deliveries without detriment or disadvantage to existing customers.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.
