

subject of the Special Review. [CFR 166.24 (a)(5)].

The Agency initiated a Special Review of the ethylene bisdithiocarbamate (EBDC) fungicides on July 17, 1987, which includes mancozeb. A notice of final determination was issued March 2, 1992. The Agency took this action based on an assessment of the risks from exposure to ethylenethiourea (ETU) present in, or formed as a result of metabolic conversion from, pesticide products containing the active ingredient mancozeb. ETU, a potential human carcinogen, teratogen, and thyroid toxicant, is present as a contaminant, degradation product, and metabolite of all the EBDC pesticides. The Agency concluded that the estimated cumulative risk of 10^{-5} from all current 55 food uses was unacceptable and, therefore, canceled the following 11 food uses: apricots, carrots, celery, collards mustard greens, nectarines, peaches, rhubarb, spinach succulent beans and turnips. These cancellations reduce estimated lifetime dietary risk to 1.6×10^{-6} which the Agency has determined does not outweigh the benefits of the 44 retained uses.

The regulations also require the Agency to publish a notice of receipt in the Federal Register and solicit public comment on an application for a specific exemption if an emergency exemption has been requested or granted for that use in any 3 previous years, and a complete application for registration of that use has not been submitted to the Agency [40 CFR 166.24(a)(6)]. Exemptions for the use of mancozeb on ginseng have been requested for the past 9 years (1987 – 1996). The registrant, Rohm and Haas, has indicated that they intend to pursue a registration in cooperation with IR-4 this year. However, an application for registration of this use has not been submitted to the Agency.

A record has been established for this notice under docket number [OPP-180994] (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI is available for inspection from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The public record is located in Room 1132 of the Public Response and Program Resource Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

Electronic comments can be sent directly to EPA at:

opp-docket@epamail.epa.gov
Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption.

The official record for this notice, as well as the public version, as described above will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into printed, paper form as they are received and will place the paper copies in the official record which will also include all comments submitted directly in writing. The official record is the paper record maintained at the address in "ADDRESSES" at the beginning of this document. Accordingly, interested persons may submit written views on this subject to the Field Operations Division at the address above.

The Agency, accordingly, will review and consider all comments received during the comment period in determining whether to issue the emergency exemption requested by the Wisconsin Department of Agriculture, Trade, and Consumer Protection.

Metolachlor; Receipt of Application for Emergency Exemption, Solicitation of Public Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has received a specific exemption requests from the Wisconsin Department of Agriculture, Trade and Consumer Protection and the Virginia Department of Agriculture and Consumer Services (hereafter referred to as the "Applicants") to use the pesticide metolachlor to treat up to 160 acres in Jefferson, Marquette and Waushara counties in Wisconsin and 1,000 acres in Virginia of spinach to control grasses and weeds. The Applicants propose the use of an emergency exemption which has been requested for the previous 3 years. A complete application for registration of this use and a tolerance

petition has not been submitted to the Agency. Therefore, in accordance with 40 CFR 166.24, EPA is soliciting public comment before making the decision whether or not to grant the exemption.

DATES: Comments must be received on or before March 21, 1996.

ADDRESSES: Three copies of written comments, bearing the identification notation "OPP-180995," should be submitted by mail to: Public Response and Program Resource Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, bring comments to: Rm. 1132, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

Comments and data may also be submitted electronically by sending electronic mail (e-mail) to: opp-docket@epamail.epa.gov. Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comments and data will also be accepted on disks in WordPerfect in 5.1 file format or ASCII file format. All comments and data in electronic form must be identified by the docket number [OPP-180995]. No Confidential Business Information (CBI) should be submitted through e-mail. Electronic comments on this notice may be filed online at many Federal Depository Libraries. Additional information on electronic submissions can be found below in this document.

Information submitted in any comment concerning this notice may be claimed confidential by marking any part or all of that information as (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be provided by the submitter for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice. All written comments filed pursuant to this notice will be available for public inspection in Rm. 1132, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA, from 8 a.m. to 4:30 p.m., Monday through Friday, except legal holidays. **FOR FURTHER INFORMATION CONTACT:** By mail: Margarita Collantes, Registration Division (7505W), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Floor 6, Crystal Station #1, 2800 Jefferson Davis Highway, Arlington, VA, (703) 308-8347; e-mail: collantes.margarita@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: Pursuant to Section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136p), the Administrator may, at her discretion, exempt a state agency from any registration provision of FIFRA if she determines that emergency conditions exist which require such exemption. The Applicants have requested the Administrator to issue specific exemptions for the use of metolachlor on spinach to control grasses and weeds. Information in accordance with 40 CFR part 166 was submitted as part of this request.

According to the Applicants, the discontinued production of diethatyl ethyl (Antor) by Nor-Am Chemical Company has left spinach growers without an efficacious registered alternative. Spinach is grown entirely on drained muck soil in Wisconsin. These high organic matter soils render the registered alternative, Roneet 6E ineffective as a pre-emergent treatment to control grasses and weeds. Roneet does not control the pineapple weed nor galinsoga weeds of Virginia. These weeds contaminate the spinach and cannot be economically removed by hand on cleaning belts in packing houses. Without the use of metolachlor, spinach growers could suffer significant economic losses.

Under the proposed exemptions, a maximum of one ground application at the rate of 2.00 pounds of active ingredient per acre will be used on 160 acres of spinach in Jefferson, Marquette, and Waushara counties in Wisconsin. A maximum of one pre-emergence application per crop (three harvest periods) at a rate of 0.75 to 1.0 pounds of active ingredient per acre by ground or air equipment will be made on 1,000 acres in Virginia.

This notice does not constitute a decision by EPA on the application itself. The regulations governing section 18 require publication of a notice of receipt of an application for a specific exemption proposing use of an emergency exemption which has been requested in any 3 previous years, and a complete application for registration of the use and/or a tolerance petition has not been submitted to the Agency [40 CFR 166.24 (a)(6)]. This is the fourth year this use has been requested under section 18 of FIFRA and no tolerance petition has yet to be submitted.

According to applicants, IR-4 is planning to prepare a petition package in late 1996. Such notice provides for opportunity for public comment on the application.

A record has been established for this notice under docket number [OPP-180995] (including comments and data

submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI is available for inspection from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The public record is located in Room 1132 of the Public Response and Program Resource Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

Electronic comments can be sent directly to EPA at:

opp-docket@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption.

The official record for this notice, as well as the public version, as described above will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into printed, paper form as they are received and will place the paper copies in the official record which will also include all comments submitted directly in writing. The official record is the paper record maintained at the address in "ADDRESSES" at the beginning of this document. Accordingly, interested persons may submit written views on this subject to the Field Operations Division at the address above.

The Agency, accordingly, will review and consider all comments received during the comment period in determining whether to issue the emergency exemption requested by the Wisconsin Department of Agriculture, Trade, and Consumer Protection and the Virginia Department of Agriculture and Consumer Services.

FARM CREDIT ADMINISTRATION

Sunshine Act Meeting; Proposed Related Services; Real Estate Brokerage, Farm Management, and Minerals Management

AGENCY: Farm Credit Administration.

ACTION: Public notice.

SUMMARY: On July 17, 1995, the Farm Credit Administration (FCA or Agency), published a request for public comments regarding an inquiry by a Farm Credit System (System or FCS) institution for approval to offer Real Estate Brokerage, Farm Management, and Minerals Management service programs as authorized "Related Services." The public comment period closed on September 15, 1995. Subsequently, the request for approval by the FCS institution was withdrawn, and the Agency is no longer considering the request.

FOR FURTHER INFORMATION CONTACT:

Linda C. Sherman, Policy Analyst, Regulation Development, Office of Examination, Farm Credit Administration, McLean, VA 22102-5090, (703) 883-4498, TDD (703) 883-4444,

or

Gary K. Van Meter, Senior Attorney, Regulatory Operations Division, Office of General Counsel, Farm Credit Administration, McLean, VA 22102-5090, (703) 883-4020, TDD (703) 883-4444.

SUPPLEMENTARY INFORMATION: On July 17, 1995, the FCA requested public comment (60 FR 36415) on the following related services that were being contemplated under § 618.8000: Real Estate Brokerage Services, Farm Management Services, and Minerals Management Services.

The regulation at § 618.8000 requires a prior determination that any new services, not previously authorized and placed on the Related Services List (RS List), are legally authorized and do not present excessive risk to the requesting institution or the System as a whole. Because of the complex nature of these proposed services, the FCA solicited public comment prior to acting on the request, in accordance with the guidelines recently adopted in § 618.8010(b)(3).

Many comments were received from FCS institutions, real estate brokers, auctioneers, commercial bankers, and Members of Congress. However, before the Agency completed its deliberations, the FCS institution that had originally requested approval of real estate brokerage, farm management, and minerals management services withdrew its request. Because the request was withdrawn, approval of the three services and their addition to the RS List is no longer under consideration by the Agency.
