

Objectives To Be Met by the Matching Program

The matching program will allow USDA access to a system which permits prescreening of applicants for loans or loans guaranteed by the Federal Government to ascertain if the applicant is delinquent in paying a debt owed to or insured by the Government. In addition, HUD will be provided access to USDA debtor data for prescreening purposes.

Records To Be Matched

HUD will utilize its system of records entitled HUD/DEPT-2; *Accounting Records*. The debtor files for HUD programs involved are included in this system of records. HUD's debtor files contain information on borrowers and co-borrowers who are currently in default (at least 90 days delinquent on their loans); or who have any outstanding claims paid during the last three years on Title insured or guaranteed home mortgage loans; or individuals who have defaulted on Section 312 rehabilitation loans; or individual who have had a claim paid in the last three years on a Title I loan. For the CAIVRS match, HUD/DEPT-2, System of Records, receives its program inputs from HUD/DEPT-28, property Improvement and Manufactured (Mobile) Home Loans—Default; HUD/DEPT-32, Delinquent/ Default/Assigned Temporary Mortgage Assistance Payments (TMAP) Program; and HUD/CPD-1, Rehabilitation Loans-Delinquent/Default. The USDA will provide HUD with debtor files contained in its system of records entitled, Applicant/Borrower or Grantee File (USDA/FmHA-1). HUD is maintaining USDA's records only as a ministerial action on behalf of USDA, not as part of HUD's HUD/DEPT-2 system of records. USDA's data contain information on individuals who have defaulted on their guaranteed loans. The USDA will retain ownership and responsibility for their system of records that they place with HUD. HUD serves only as a record location and routine use recipient for USDA's data.

Notice Procedures

HUD and the USDA will notify individuals at the time of application (ensuring that routine use appears on the application form) for guaranteed or direct loans that their records will be matched to determine whether they are delinquent or in default on a Federal debt. HUD and the USDA will also publish notices concerning routine use disclosures in the **Federal Register** to inform individuals that a computer match may be performed to determine a

loan applicant's credit status with the Federal Government.

Categories of Records/Individuals Involved

The debtor records include these data elements: SSN, claim number, program code, and indication of indebtedness. Categories of records include: Records of claims and defaults, repayment agreements, credit reports, financial statements, and records of foreclosures.

Categories of individuals include:

Former mortgagors and purchasers of HUD-owned properties, manufactured (mobile) home and home improvement loan debtors who are delinquent or in default on their loans, and rehabilitation loan debtors who are delinquent or in default on their loans.

Period of the Match

Matching is expected to begin 40 days after the date copies of the signed (by both Data Integrity Boards) computer matching agreement are sent to both Houses of Congress or 30 days from the date this Notice is published in the **Federal Register**, or 40 days from the date this notice is approved, whichever is later, providing no comments are received which would result in a contrary determination.

National Park Service

60-Day Notice of Intention To Renew Request for Clearance of Information Collection, Backcountry Use Permit, Opportunity for Public Comment

AGENCY: National Park Service, Department of the Interior.

ACTION: Notice and request for comments.

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. 3507) and 5 CFR Part 1320, Reporting and Recordkeeping Requirements, the National Park Service (NPS) invites public comments on a request for renewal of approval for the information collection requirements associated with permits implementing provisions of agency regulations, pertaining to the use of public lands (OMB Control 11024-0022). Standard Form 10-404, Backcountry Use Permit, is the primary form used to implement a backcountry reservation system and provide access into backcountry zones where limits are imposed in accordance with regulations. Such permitting enhances hazard warnings, search and rescue efforts and resource protection.

DATES: Public comments will be accepted until May 27, 1997.

ADDRESSES: Send comments to Dennis Burnett, Ranger Activities, National Park Service, P.O. Box 37127, 18th and C Streets, Washington, D.C., 20013-7127. All responses to this notice will be summarized and included in the request for Office of Management and Budget (OMB) approval. All comments will become a matter of public record.

FOR FURTHER INFORMATION CONTACT: Dennis Burnett at 202-208-7675

SUPPLEMENTARY INFORMATION: The objectives of the backcountry use permit system is to provide campers desiring access to backcountry areas of national parks with continuing opportunities for solitude, while enhancing resource protection and providing a means of disseminating public safety messages regarding backcountry travel. In 1976, the NPS initiated a backcountry registration system in accordance with regulations found at 36 CFR 1.5, 1.6 and 2.10. This system assures campers of finding routes and campsites which are not crowded beyond their capacity. The quality of both the recreational experience and the physical setting thereby remain uncompromised.

NPS backcountry program managers, by designating access routes and overnight camping locations, can redistribute campers in response to user impact, high fire danger, flood or wind hazard, bear activity or other situations

that may temporarily close a portion of the backcountry. The NPS may also use the permit system as a means of ensuring that each backcountry user receives up-to-date information on backcountry sanitation procedures, food storage, wildlife activity, trail conditions and weather projections so that concerns for visitor safety are met.

The Backcountry Use Permit is an extension of the NPS statutory responsibilities to protect the park areas it administers and to manage the public use thereof (16 U.S.C. 1 & 3). NPS regulations codified in 36 CFR Parts 1 through 7, 12 and 13, are designed to implement statutory mandates that provide for resource protection and public enjoyment. Several regulations contain information collection requirements previously approved by the OMB (1024-0022).
