

EPA for FY-96 under section 105(c) of the CAA.

DATES: Comments and/or requests for a public hearing must be received by EPA at the address stated below by May 2, 1997.

ADDRESSES: All comments and/or requests for a public hearing should be mailed to: Sara Bartholomew, Grants and Program Integration Office (AIR-8), Air Division, U.S. EPA Region 9, 75 Hawthorne Street, San Francisco, California 94105-3901; FAX (415) 744-1076.

FOR FURTHER INFORMATION CONTACT: Sara Bartholomew, Grants and Program Integration Office (AIR-8), Air Division, U.S. EPA Region 9, 75 Hawthorne Street, San Francisco, California 94105-3901 at (415) 744-1250.

SUPPLEMENTARY INFORMATION: Under the authority of Section 105 of the CAA, EPA provides financial assistance (grants) to the MBUAPCD to aid in the operation of its air pollution control programs. In FY-95 EPA awarded the MBUAPCD \$292,856, which represented approximately 8% of the District's budget. In FY-96, EPA awarded the MBUAPCD \$272,869, which represented approximately 7% of the District's budget.

Section 105(c)(1) of the CAA, 42 U.S.C. 7405(c)(1), provides that "[n]o agency shall receive any grant under this section during any fiscal year when its expenditures of non-Federal funds for recurrent expenditures for air pollution control programs will be less than its expenditures were for such programs during the preceding fiscal year. In order for [EPA] to award grants under this section in a timely manner each fiscal year, [EPA] shall compare an agency's prospective expenditure level to that of its second preceding year." EPA may still award financial assistance to an agency not meeting this requirement, however, if EPA, "after notice and opportunity for public hearing, determines that a reduction in expenditures is attributable to a non-selective reduction in the expenditures in the programs of all Executive branch agencies of the applicable unit of Government." CAA section 105(c)(2). These statutory requirements are repeated in EPA's implementing regulations at 40 CFR 35.210(a).

In its FY-96 section 105 application, which EPA reviewed in early 1996, the MBUAPCD projected expenditures of non-Federal funds for recurrent expenditures (or its maintenance of effort (MOE)) of \$2,873,212. This MOE would have been sufficient to meet the MOE requirements of the CAA because it was not lower than the FY-95 MOE

of \$2,828,502. In November of 1996, however, the MBUAPCD submitted to EPA documentation which shows that its actual FY-96 MOE was \$2,701,629. This amount represents a shortfall of \$126,873 from the MOE for FY-95. In order for the District to be eligible to keep its FY-96 grant, EPA must make a determination under § 105(c)(2).

The MBUAPCD is a single-purpose agency whose primary source of funding is permit fee revenue. Fees associated with permits issued by the MBUAPCD go directly to the district to fund its operations. It is the "unit of Government" for section 105(c)(2) purposes. The MBUAPCD submitted documentation to EPA which shows that in 1995 and 1996 air permit fee revenues decreased because of declining economic conditions which caused the business community to curtail operations, resulting in fewer permits issued and fees collected. As a result, the MBUAPCD's overall budget and its MOE decreased. The MBUAPCD also submitted documentation to EPA which shows that over the past four years the District instituted a number of cost cutting measures, including reductions in hiring, equipment purchases, and contract costs.

In summary, the MBUAPCD's MOE reductions resulted from budget cuts stemming from a loss of fee revenues due to circumstances beyond the District's control. EPA proposes to determine that the MBUAPCD's lower FY-96 MOE level meets the section 105(c)(2) criteria as resulting from a non-selective reduction of expenditures. Pursuant to 40 C.F.R. 35.210, this determination will allow the MBUAPCD to keep the funds received from EPA for FY-96.

This notice constitutes a request for public comment and an opportunity for public hearing as required by the Clean Air Act. All written comments received by May 2, 1997 on this proposal will be considered. EPA will conduct a public hearing on this proposal only if a written request for such is received by EPA at the address above by May 2, 1997.

If no written request for a hearing is received, EPA will proceed to the final determination. While notice of the final determination will not be published in the **Federal Register**, copies of the determination can be obtained by sending a written request to Sara Bartholomew at the above address.

Dated: March 19, 1997.

Rohm and Haas Company; Approval of Pesticide Product Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces Agency approval of applications submitted by Rohm and Haas Co., to conditionally register the pesticide products Thiazopyr Technical Herbicide and Visor 2E Herbicide containing a new active ingredient not included in any previously registered products pursuant to the provisions of section 3(c)(7)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended.

FOR FURTHER INFORMATION CONTACT: By mail: JoAnne I. Miller, Product Manager (PM) 23, Registration Division (7505C), Office of Pesticide Programs, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. 237, CM #2, Environmental Protection Agency, 1921 Jefferson Davis Hwy, Arlington, VA 22202, 703-305-7830; e-mail: miller.joanne@epamail.epa.gov.

SUPPLEMENTARY INFORMATION:

Electronic Availability: Electronic copies of this document and the Fact Sheet are available from the EPA home page at the Environmental Sub-Set entry for this document under "Regulations" (<http://www.epa.gov/fedrgstr/>).

EPA issued a notice, published in the **Federal Register** of June 10, 1993 (58 FR 32533; FRL-4582-6), which announced that Monsanto Company, Suite 1100, 700 14th St., NW, Washington, DC 20005, had submitted applications to register the pesticide products MON 13211-A Citrus Herbicide and Thiazopyr Technical (MON 13200) (EPA File Symbols 524-UAG and 524-UAE), containing the active ingredient Thiazopyr [3-pyridinecarboxylic acid, 2-(difluoromethyl)-5-(4,5-dihydro-2-thiazolyl)-4-(methylpropyl)-6-(trifluoromethyl)-methyl ester at 22.3 and 93 percent respectively, an active ingredient not included in any previously registered products.

These applications to register these products under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended were transferred to Rohm and Haas Company on January 31, 1995. The chemical was revised to reflect Chemical Abstract nomenclature.

The applications were approved on February 20, 1997, as Thiazopyr Technical Herbicide and Visor 2E Herbicide to control annual grasses and broadleaf weeds in grapefruit and oranges (EPA Registration Numbers 707-250 and 707-251 respectively).

A conditional registration may be granted under section 3(c)(7)(C) of FIFRA for a new active ingredient where certain data are lacking, on condition that such data are received by the end of the conditional registration period and do not meet or exceed the risk criteria set forth in 40 CFR 154.7; that use of the pesticide during the conditional registration period will not cause unreasonable adverse effects; and that use of the pesticide is in the public interest.

The Agency has considered the available data on the risks associated with the proposed use of thiazopyr, and information on social, economic, and environmental benefits to be derived from such use. Specifically, the Agency

has considered the nature and its pattern of use, application methods and rates, and level and extent of potential exposure. Based on these reviews, the Agency was able to make basic health and safety determinations which show that use of thiazopyr during the period of conditional registration will not cause any unreasonable adverse effect on the environment, and that use of the pesticide is, in the public interest.

These products are conditionally registered in accordance with FIFRA section 3(c)(7)(C). The conditions must comply with all the terms as stated in the correspondence dated February 18, 1997 from Rohm and Haas Co. concerning additional data requirements for thiazopyr. These conditions must be fulfilled by February 20, 2001. Rohm and Haas will submit the following Environmental Fate and Ecotox data:

1. Aerobic aquatic metabolism study.
2. Available water balance data to further assess field dissipation studies.

This would include pan evaporation data, daily rainfall, and irrigation data. Additional dissipation studies may be required if after further review current dissipation studies are found unacceptable.

3. Aquatic plant study.

Consistent with section 3(c)(7)(C), the Agency has determined that these conditional registrations are in the public interest. Use of the pesticides are of significance to the user community, and appropriate labeling, use directions, and other measures have been taken to ensure that use of the pesticides will not result in unreasonable adverse effects to man and the environment.

More detailed information on this conditional registration is contained in an EPA Pesticide Fact Sheet on thiazopyr.

A copy of this fact sheet, which provides a summary description of the chemical, use patterns and formulations, science findings, and the Agency's regulatory position and rationale, may be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161.

In accordance with section 3(c)(2) of FIFRA, a copy of the approved label, the list of data references, the data and other scientific information used to support registration, except for material specifically protected by section 10 of FIFRA, are available for public inspection in the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 1132, CM #2, Arlington, VA 22202 (703-305-5805). Requests for data must be made in

accordance with the provisions of the Freedom of Information Act and must be addressed to the Freedom of Information Office (A-101), 401 M St., SW., Washington, D.C. 20460. Such requests should: (1) Identify the product name and registration number and (2) specify the data or information desired.

Authority: 7 U.S.C. 136.
