**SUPPLEMENTARY INFORMATION:****I. Abstract**

The Census Bureau plans to request clearance for the collection of data concerning the School Enrollment Supplement to be conducted in conjunction with the October 1997 CPS. The Bureau of the Census and the Bureau of Labor Statistics (BLS) sponsor the basic annual school enrollment questions, which have been collected annually in the CPS for over 25 years. The National Center for Education Statistics (NCES) sponsors the inclusion of the additional questions on summer school enrollment.

This survey provides information on public/private elementary and secondary school enrollment, and characteristics of private school students and their families, which is used for tracking historical trends and for policy planning and support. This year we will also ask questions about computer usage. The last time we asked questions about computer usage during the October supplement was 1993. The questions are modified from those asked in October 1993. This survey is the only source of national data on the age distribution and family characteristics

of college students, and the only source of demographic data on preprimary school enrollment. As part of the Federal Government's efforts to collect data and provide timely information to local governments for policymaking decisions, the survey provides national trends in enrollment and progress in school.

**II. Method of Collection**

#### Certain Carbon Steel Butt-Weld Pipe Fittings From Thailand; Preliminary Results of Antidumping Duty Administrative Review

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of preliminary results of antidumping duty administrative review.

**SUMMARY:** In response to a request by Tube Forgings of America, Inc., and Mills Iron Works, Inc., (hereafter petitioner) who were the members of the petitioning group of companies in the less-than-fair-value (LTFV) investigation, the Department of Commerce (the Department) is conducting an administrative review of the antidumping duty order on certain carbon steel butt-weld pipe fittings from Thailand. This review covers TTU Industrial Corp., Ltd. (TTU), a manufacturer/exporter of this merchandise to the United States, and the period July 1, 1995, through June 30, 1996. The firm failed to submit a response to our questionnaire. As a result, we have preliminarily determined to sue the facts otherwise available for cash deposit and appraisement purposes.

Interested parties are invited to comment on these preliminary results. Parties who submit arguments in this proceeding are requested to submit with the arguments: (1) A statement of the issues and (2) a brief summary of the arguments.

**EFFECTIVE DATE:** April 7, 1997.

#### SUPPLEMENTARY INFORMATION:

##### Applicable Statute

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 (the Act) by the Uruguay Round Agreements Act (URAA).

##### Background

On July 30, 1996, the petitioner requested, in accordance with section 353.22(a) of the Department's regulations (19 CFR 353.22(a)), an administrative review of the antidumping duty order (57 FR 29702, July 6, 1992) on certain carbon steel butt-weld pipe fittings from Thailand, with respect to TTU, a manufacturer/exporter of this merchandise to the United States, and covering the period July 1, 1995, through June 30, 1996. We published a notice of initiation of the review on August 15, 1996 (61 FR 42416). On September 19, 1996, the Department sent an antidumping questionnaire to TTU. The response to the questionnaire was due on November 3, 1996. To date, we have not received any response from TTU. The Department is now conducting this review in accordance with section 751 of the Act.

##### Scope of the Review

The product covered by this order is certain carbon steel but-weld pipe fitting, having an inside diameter of less than 14 inches, imported in either finished or unfinished form. These formed or forged pipe fittings are used to join sections in piping systems where conditions require permanent, welded connections, as distinguished from fittings based on other fastening methods (e.g., threaded, grooved, or bolted fittings). Carbon steel butt-weld pipe fittings are currently classified under subheading 7307.93.30 of the harmonized tariff schedule (HTS). Although the HTS subheadings are provided for convenience and customs purposes, our written description of the scope of this proceeding is dispositive.

The review covers TTU and the period July 1, 1995, through June 30, 1996 (POR).

##### Use of Facts Otherwise Available

We preliminarily determine, in accordance with section 776(a) of the Act, that the use of facts available (FA) is appropriate for TTU because it did not respond to our antidumping questionnaire. We find that this firm has withheld "information that has been requested by the administering
