

Management will be preparing a supplemental EIS on the impacts of oil and gas development in the Glenwood Springs Resource Area.

**DATES:** Comments will be accepted until May 21, 1997.

**ADDRESSES:** Comments should be sent to the Area Manager, Glenwood Springs Resource Area, Bureau of Land Management, P.O. Box 1009, Glenwood Springs, CO 81602, ATTN: Oil and Gas EIS.

**FOR FURTHER INFORMATION CONTACT:** Steve Moore, (970) 947-2813.

**SUPPLEMENTARY INFORMATION:** Oil and gas leasing and development in the Glenwood Springs Resource Area (GSRA) was considered in the Colorado Oil and Gas Leasing and Development EIS (COGEIS, January, 1991). The assumptions about the level of development made in the original EIS are no longer valid and a modification is required to reflect new information about the level of development. The original EIS assumed construction of 90 wells over 20 years, at an average spacing of 160 to 320 acres per well; since publication of the EIS it has become apparent that actual development in the GSRA will exceed the level evaluated in that document and that, in some locales, the density will be greater than 160 acres per well. The supplemental document will evaluate a higher level of development and higher densities.

Mitigation measures for oil and gas development were developed in the GSRA Resource Management Plan (RMP) and in the COGEIS. The supplement will evaluate expanded development in the context of those measures and will also consider new mitigation measures. Other areas of evaluation will include: the effectiveness of additional lease stipulations in mitigating impacts; the success achieved in reclaiming areas disturbed by development; the impacts on wildlife.

Additionally, the GSRA may acquire all or portions of Naval Oil Shale Reserves (NOSR) 1 and 3 during the supplemental EIS process. The transfer of these lands from the Department of Energy to the Bureau of Land Management is currently being considered by Congress. Should the transfer occur during preparation of the supplemental EIS, the GSRA will consider the possibility of including in the analysis up to 6,000 acres of NOSR 3 which is already experiencing oil and gas development. This portion of NOSR 3 is immediately adjacent to those BLM lands being developed for oil and gas, is similar in character to the BLM lands

and would likely be subject to the same types of stipulations.

The supplemental EIS process will take place during the spring and summer, 1997. A draft EIS is planned for August, 1997.

Scoping will include a news release announcing the beginning of the supplemental process and letters to all participants in the original EIS process and additional interested parties. A question and answer sheet which further describes the reasons for the supplement and some of the issues to be addressed is available upon request.

**Michael S. Mottice,**

*Area Manager.*

### Bureau of Land Management

[NV-030-1430-01; NVN 61131]

#### Notice of Realty Action; Recreation and Public Purposes Act Classification; Mineral County, NV

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice.

**SUMMARY:** The following described land, comprising 15.00 acres, has been examined and is determined to be suitable for classification for lease or conveyance pursuant to the authority in the Recreation and Public Purposes Act, as amended (43 U.S.C. 869 et seq.):

**Mt. Diablo Meridian, Nevada**

T. 7 N., R. 34 E.

Sec. 24, SE $\frac{1}{4}$ NE $\frac{1}{4}$ SW $\frac{1}{4}$ SW $\frac{1}{4}$ ,  
NE $\frac{1}{4}$ SE $\frac{1}{4}$ SW $\frac{1}{4}$ SW $\frac{1}{4}$ ,  
S $\frac{1}{2}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$ SW $\frac{1}{4}$ ,  
N $\frac{1}{2}$ SW $\frac{1}{4}$ SE $\frac{1}{4}$ SW $\frac{1}{4}$ .

**SUPPLEMENTARY INFORMATION:** The public land is located northwest of Mina in Mineral County. The land is not needed for Federal purposes. Lease or conveyance is consistent with current BLM land use planning and would be in the public interest. Mineral County has expressed an interest in constructing a solid waste transfer station on the site.

The patent, when issued will be subject to the provisions of the Recreation and Public Purposes Act and to all applicable regulations of the Secretary of the Interior, and the following reservations to the United States:

1. A right-of-way thereon for ditches and canals constructed by the authority of the United States. Act of August 30, 1890 (43 U.S.C. 945).

2. All mineral deposits in the land so patented, and to it, or persons

authorized by it, the right to prospect for, mine and remove such deposits from the same under applicable law and regulations to be established by the Secretary of the Interior.

Upon publication of this notice in the **Federal Register**, the lands will be segregated from all other forms of appropriation under the public land laws, including the general mining laws but not the mineral leasing laws, the material disposal laws, or the Geothermal Steam Act. The segregation shall terminate upon issuance of a conveyance document or publication in the Federal Register of an order specifying the date and time of opening.

**DATES:** On or before June 5, 1997, interested parties may submit comments.

**ADDRESSES:** Written comments should be sent to: Carson City District Office, Bureau of Land Management, 1535 Hot Springs Drive, Carson City, NV 89706-0638. Any adverse comments will be reviewed by the State Director. In the absence of any adverse comments, the classification will become effective 60 days from the date of publication of this notice in the **Federal Register**.

**FOR FURTHER INFORMATION CONTACT:** Charles J. Kihm, Carson City District Realty Specialist, Bureau of Land Management, 1535 Hot Springs Road, Carson City, Nevada 89706-0638; (702) 885-6000.

Dated: April 11, 1997.

#### Notice of User Fees in the Yakima River Canyon

**AGENCY:** Spokane District Office, Wenatchee Resource Area, Bureau of Land Management,

**ACTION:** Notice of intent to charge user fees at two Bureau of Land Management (BLM) recreation sites in the Yakima River Canyon, Washington.

**SUMMARY:** Effective May 15, 1997, the Bureau of Land Management will begin charging a site use fee at its Roza and Squaw Creek recreation sites in the Yakima River Canyon.

This fee will cover all approved activities at both sites, including

camping at designated sites on a first come, first served basis.

The site use fee will be charged from May 15 through October 15 of each year and is valid at both Squaw Creek and Roza Recreation Sites. Fees are \$2.00 per vehicle per day, and a seasonal use permit is also available for a fee of \$15.00 per vehicle.

**EFFECTIVE DATE:** Charging fees at both recreation sites are effective May 15, 1997.

**FOR FURTHER INFORMATION CONTACT:** Seasonal permits may be obtained at the Bureau of Land Management, Wenatchee Resource Area Office, Attention: Seasons Pass, 915 Walla Walla, Wenatchee, Washington 98801-1521; (509) 665-2100.

**SUPPLEMENTARY INFORMATION:** The authority for charging user fees is provided in the Land and Water Conservation Fund Act (LWCF) of 1965, and subsequent regulations contained in Title 36 CFR part 71.

Dated: April 14, 1997.

### Minerals Management Service

#### Agency Information Collection Activities: Proposed Collection; Comment Request

**AGENCY:** Minerals Management Service (MMS), Interior.

**ACTION:** Notice of extension of a currently approved information collection.

**SUMMARY:** As part of its continuing effort to reduce paperwork and respondent burden, MMS invites the public and other Federal agencies to comment on a proposal to extend the currently approved collection of information discussed below. The Paperwork Reduction Act of 1995 (PRA) provides that an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number.

**DATES:** Submit written comments by June 20, 1997.

**ADDRESSES:** Direct all written comments to the Rules Processing Team, Minerals Management Service, Mail Stop 4700, 381 Elden Street, Herndon, Virginia 20170-4817.

**FOR FURTHER INFORMATION CONTACT:** Alexis London, Rules Processing Team, telephone (703) 787-1600. You may also contact Alexis London to obtain a copy of this collection of information.

#### SUPPLEMENTARY INFORMATION:

*Title:* 30 CFR 250, Subpart A, General. *OMB Control Number:* 1010-0030.

*Abstract:* The Outer Continental Shelf Lands Act (OCSLA), at 43 U.S.C. 1331 *et seq.*, requires the Secretary of the Interior (Secretary) to preserve, protect, and develop oil and gas resources in the OCS; make such resources available to meet the Nation's energy needs as rapidly as possible; balance orderly energy resource development with protection of the human, marine, and coastal environment; ensure the public a fair and equitable return on the resources offshore; and preserve and maintain free enterprise competition. To carry out these responsibilities, MMS has issued regulations as described in 30 CFR Part 250. Subpart A, General, of that part contains general requirements and procedures for oil and gas or sulfur operations in the OCS.

The MMS uses the information collected under subpart A to ensure that operations in the OCS are carried out in a manner that is safe and pollution free.

If respondents submit proprietary information, it will be protected under

30 CFR 250.18, Data and information to be made available to the public. No items of a sensitive nature are collected. The requirement to respond is mandatory.

*Description of Respondents:* Federal OCS oil and gas or sulphur lessees.

*Frequency:* On occasion, varies by section.

*Estimated Number of Respondents:* 130.

*Estimated Annual Burden:* 13,343 burden hours. Based on \$35 per hour, the cost to respondents is \$467,005.

*Estimated Other Annual Costs to Respondents:* MMS has identified no other cost burdens on respondents for providing this information.

*Comments:* The MMS will summarize written responses to this notice and address them in its submission for OMB approval. All comments will become a matter of public record. We will also consult with a representative sample of respondents. The estimates shown above are those currently approved by OMB for this collection of information. As a result of the consultations and comments we receive, we will make any necessary adjustments for our submission to OMB. In calculating the burden, MMS may have assumed that respondents perform many of the requirements and maintain records in the normal course of their activities. MMS considers these to be usual and customary. Commenters are invited to provide information if they disagree with this assumption and they should tell us what the burden hours and costs imposed by this collection of information are.

(1) The MMS specifically solicits comments on the following questions:

(a) Is the proposed collection of information necessary for the proper performance of MMS's functions, and will it be useful?

(b) Are the estimates of the burden hours of the proposed collection reasonable?

(c) Do you have any suggestions that would enhance the quality, clarity, or usefulness of the information to be collected?

(d) Is there a way to minimize the information collection burden on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other forms of information technology?

(2) In addition, the PRA requires agencies to estimate the total annual cost burden to respondents or recordkeepers resulting from the collection of information. The MMS needs your comments on this item. Your response should split the cost estimate into two components:
