

Second Revised Volume No. 1 customers and to interested state commissions.

Any person desiring to be heard or to protest this filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington D.C., 20426, in accordance with Sections 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

[Docket No. RP97-360-000]

ANR Pipeline Company; Notice of Annual System Cashout Report

May 5, 1997.

Take notice that on May 1, 1997, ANR Pipeline Company (ANR) tendered for filing its annual report of the net revenues attributable to the operation of its cashout program.

ANR states that this filing covers the period January 1, 1996 to December 31, 1996. The Net Cashout Activity for the twelve month period ending December 31, 1996 is (\$3,537,246). As provided in Section 15.5(b) of the General Terms and Conditions of ANR's FERC Gas Tariff, Second Revised Volume No. 1, this amount will be carried forward and applied to the next succeeding redetermination of Net Cashout Activity for the calendar year ended December 31, 1997.

Any person desiring to be heard or to protest this filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed on or before May 12, 1997. Protests will be considered by the Commission

in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

[Docket No. RP97-356-000]

Arkansas Western Pipeline Company; Notice of Petition of Arkansas Western Pipeline Company for One-Year Waiver of or Exemption From GISB Standard 4.3.6

May 5, 1997.

Take notice that on May 1, 1997, Arkansas Western Pipeline Company (AWP), filed a petition pursuant to Rule 207 of the Commission's Rules of Practice and Procedure for waiver or exemption of the requirements concerning the establishment of a HTML page accessible via the Internet's World Wide Web, as more fully set forth in the petition of file with the Commission and open to public inspection.

AWP states that the establishment of a HTML page is not necessary on the AWP system in order to achieve the Commission's goals. AWP states that the expense of compliance with the HTML page requirement, prior to the establishment or use of an Internet server model and web browser model and the ability to perform EDI transactions is significant to AWP, and the benefits to AWP's customers are nonexistent given the nature of the AWP system.

Any person desiring to be heard or to protest this petition should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, DC 20426, in accordance with Sections 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to

become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

[Docket No. ER97-1676-000]

Black Brook Energy Co.; Notice of Issuance of Order

May 6, 1997.

Black Brook Energy Co. (Black Brook) submitted for filing a rate schedule under which Black Brook will engage in wholesale electric power and energy transactions as a marketer. Black Brook also requested waiver of various Commission regulations. In particular, Black Brook requested that the Commission grant blanket approval under 18 CFR Part 34 of all future issuances of securities and assumptions of liability by Black Brook.

On April 18, 1997, pursuant to delegated authority, the Director, Division of Applications, Office of Electric Power Regulation, granted requests for blanket approval under Part 34, subject to the following:

Within thirty days of the date of the order, any person desiring to be heard or to protest the blanket approval of issuances of securities or assumptions of liability by Black Brook should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214).

Absent a request for hearing within this period, Black Brook is authorized to issue securities and assume obligations or liabilities as a guarantor, endorser, surety, or otherwise in respect of any security of another person; provided that such issuance or assumption is for some lawful object within the corporate purposes of the applicant, and compatible with the public interest, and is reasonably necessary or appropriate for such purposes.

The Commission reserves the right to require a further showing that neither public nor private interests will be adversely affected by continued approval of Black Brook's issuances of securities or assumptions of liability.

Notice is hereby given that the deadline for filing motions to intervene or protests, as set forth above, is May 19, 1997.

Copies of the full text of the orders are available from the Commission's Public Reference Branch, 888 First Street, N.E. Washington, D.C. 20426.

Lois D. Cashell,

Secretary.

[Docket No. ER97-2622-000]

Cinergy Services, Inc.; Notice of Filing

May 5, 1997.

Take notice that on April 16, 1997, Cinergy Services, Inc. (Cinergy) tendered for filing a service agreement under Cinergy's Open Access Transmission Service Tariff (the Tariff) entered into between Cinergy and Western Resources (Western).

Cinergy and Western are requesting an effective date of April 15, 1997.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before May 16, 1997. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. OA97-576-000]

Cleveland Electric Illuminating Company; Notice of Filing

May 5, 1997.

Take notice that on April 14, 1997, The Cleveland Electric Illuminating Company filed pursuant to Section 205 of the Federal Power Act and the Commission's regulations thereunder an original and six copies of an amendment to the interconnection agreement (Agreement) between CEI and the City of Cleveland (City). This filing is being made for the purpose of complying with the Commission's unbundling requirements without raising rates or charges to the City. CEI states that it has mailed a copy of its filing upon the City. The proposed effective date under the Service Agreements is January 1, 1997.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 18 CFR 385.214). All such motions or protests should be filed on or before May 13, 1997. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Federal Energy Regulatory Commission

[Docket No. CP97-420-000]

CNG Transmission Corporation; Notice of Request Under Blanket Authorization

May 5, 1997.

Take notice that on April 30, 1997, CNG Transmission Corporation (CNG), 445 West Main Street, Clarksburg, West Virginia 26301, filed in the above docket, a request pursuant to Sections 157.205, and 157.208 of the

Commission's Regulations under the Natural Gas Act (18 CFR 157.205 and 157.208) for authorization to convert four (4) observation wells to storage wells. This work will include the installation of 4 new storage pipelines and appurtenant facilities to be located at the Oakford Station located in Westmoreland County, Pennsylvania. CNG jointly owns the Oakford Station with Texas Eastern Transmission Corporation, however, CNG is the operator of the Oakford Station. The facilities will allow CNG and Texas Eastern to recover gas that has migrated from the Oakford storage pool, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

CNG requests authorization to convert four existing observation wells, JW-253, JW-283, JW-284, and JW-285, to storage withdrawal wells. CNG states that the connection of these wells for withdrawal purposes only, will allow for CNG to more effectively and efficiently operate the reservoir by the recycling of migrated gas from currently isolated areas of the reservoir in which these wells are located. CNG states that the recycling of this gas will allow CNG to maintain the certificated capacity and deliverability of the Oakford storage pool. The maximum daily design capacity from construction of the pipelines to the observation wells is 85 MMcf per day. The maximum operating pressures for each of the pipelines is 555 PSIG. The proposed facilities and service are not prohibited by CNG's existing tariff.

CNG states that this project will require the construction of the following pipelines to connect the observation wells to existing gathering lines:

1. 1,643' of 6" pipe (0.280 wall) to be known as Line JP-298 for the conversion of well number JW-284,
2. 263' of 6" pipe (0.280 wall) to be known as Line JP-299 for the conversion of well number JW-283,
3. 1,200' of 6" pipe (0.280 wall) to be known as Line JP-301 for the conversion of well number JW-253, and
4. 1,524' of 8" pipe (0.280 wall) to be known as Line JP-300 for the conversion of well number JW-285.

CNG states that the approximate cost of the facilities is \$292,000. CNG indicates that it will continue to operate the Oakford storage pool. CNG further states that there will be no appreciable impact on its current system rates. The proposed facilities and service are not prohibited by CNG's existing tariff.

CNG states that the effect on its peak and annual delivery obligations is minimal; this project will pose no detriment to its firm service to any other
