#### SUPPLEMENTARY INFORMATION:

##### I. Background

Based on OMB request approvals 1205-0375 and 1205-0376, the ETA issued TEGLs 6-96 and 7-96 to provide

guidance to the employment and training community and submittal of waivers. Because these waivers were granted under emergency procedures the period covered only extended to June 30. This period was subsequently extended until September 30. To permit States the opportunity to continue to submit such requests an extension of this authority is needed.

##### II. Current Actions

ETA is anticipating upwards of 600 waiver requests during the next several months. Only the waiver requests from Oregon have been approved thus far. The authority requested remains unchanged. It would permit States to submit general statutory waiver request covering Titles I-III of the JTPA and sections 8-10 of Wagner Peyser. The same exclusions would be retained under this request. Also it would permit submittal of work-flex applications if the full contingent of six States have not been approved based on the initial round of applications.

## DEPARTMENT OF LABOR

### Employment Standards Administration

#### Wage and Hour Division; Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor are issued in accordance with applicable law and are based on the information obtained by the Department of Labor from its study of local wage conditions and data made available from other sources. They specify the basic hourly wage rates and fringe benefits which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determinations in these decisions of prevailing rates and fringe benefits have been made in accordance with 29 CFR Part 1, by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR Part 1, Appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.
