SUPPLEMENTARY INFORMATION:

History

On March 11, 1997, the FAA proposed to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) by establishing Class E airspace at South New Castle, PA (62 FR 11121). This action would provide adequate Class E airspace for IFR operations to Jameson Memorial Hospital Heliport, and St. Francis Hospital Heliport.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposed to the FAA. No comments objecting to the proposal were received.

Class E airspace areas designations are published in paragraph 6005 of FAA Order 7400.9D, dated September 4, 1996, and effective September 16, 1996, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to Part 71 of the Federal Aviation Regulations (14 CFR Part 71) establishes Class E airspace area at South New Castle, PA, to accommodate a GPS SIAP Point In Space Approach and for IFR operations to Jameson Memorial Hospital Heliport, and St. Francis Hospital Heliport.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significantly rule" under DOT Regulatory Policies and Procedures (44 FR 10034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation it is certified that this rule will not have significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
