All timely comments will be considered, except those pertaining to standard provisions under 40 CFR 72.9 or issues not relevant to the permit or the permit modification.

Hearings. To request a public hearing, state the issues proposed to be raised in the hearing. EPA may schedule a hearing if EPA finds that it will contribute to the decision-making process by clarifying significant issues affecting a NO_x compliance plan.

If significant, adverse comments are timely received on any permit or permit modification, that permit or permit modification in the notice of permits and permit modifications will be withdrawn and public comment

received on that permit or permit modification based on this notice of draft permits and permit modifications will be addressed in a subsequent notice of permit or permit modification. Because the Agency will not institute a second comment period on this notice of draft permits and permit modifications, any parties interested in commenting should do so during this comment period.
