SUMMARY: The Department of the Interior has submitted to the Office of Management and Budget (OMB) for approval under the provisions of the Paperwork Reduction Act of 1995 (Act) the collection of information discussed below. The Act requires that OMB provide interested Federal agencies and the public an opportunity to comment on information collection requests. SUPPLEMENTARY INFORMATION:

Title: 30 CFR 250, Subpart O, Training of Lessee and Contractor Employees Engaged in Oil and Gas and Sulphur Operations in the OCS.

OMB Number: 1010-0078.

Abstract: Respondents provide information and maintain records on the training of certain employees working in the Outer Continental Shelf (OCS). Training organizations submit training programs for initial accreditation and subsequent renewal; request exceptions to training requirements; submit course schedules and letters with course rosters; and maintain records of training programs and trainees. Lessees may request approval of alternative training programs, and they must provide training drills to new employees and record the results. The MMS uses the information to ensure that certain workers in the OCS are properly trained in the use of equipment and procedures in drilling, well-completion, well-workover, and well-servicing well control operations and production safety system operations. The information is necessary to verify personnel training compliance with the requirements. Responses to this collection of information are mandatory. The information collected is required in the final rule published in the **Federal Register** on February 5, 1997 (62 FR 5320, as corrected in 62 FR 7298 on February 18, 1997), amending 30 CFR part 250, subpart O. The rule became effective on March 5, 1997.

Description of Respondents: Federal OCS oil and gas and sulfur lessee and training organizations.

Estimated Number of Respondents: 185.

Frequency: The reporting and recordkeeping requirements and number of responses vary for each section and are mostly on occasion or annual (see chart below).

Footnotes:

¹ The revised subpart O rule eliminates the refresher training requirement and the 60-day "window" time element, including the window for basic training. Under the old regulations, MMS received approximately 150 requests each year for exceptions, most of which were for departures to the "window." We anticipate that there will be very few requests for exceptions to the training requirement now that there is no "window" and only basic training is mandated.

² In 1996 training organizations submitted 4,498 rosters to MMS. The revised subpart O eliminates the requirement for refresher training and changes the timing for basic training. This will result in an estimated 30–40% reduction in mandatory training depending upon the training category with a corresponding reduction in reporting.

³ Rounded.

Estimated Annual Burden on Respondents: Reporting burden of 2,961 hours.
