

Theresa Berry no later than June 20 at the address above. ACCSH will meet on June 25 from 9:00 a.m. to 4:30 p.m. in Room N-5437A-C and June 26 from 9:00 a.m. to 1:00 p.m. in Room N-3437A-D.

Various ACCSH Work Groups will meet on June 25, 26, and 27. On June 24, 1997, the Training Work Group will meet in Room S-3215A-B from 9:00 a.m. to 4:30 p.m. and the Confined Space Work Group will meet in Room N-3637 from 11:00 a.m. to 3:00 p.m. On June 26, the Safety and Health Program Management Standard Work Group will meet in Room N-3437A-D from 2:00-4:00 p.m. On June 27, the Training Work Group will meet from 9:00 a.m. to 12:00 p.m. in Room S-3215A-B.

On June 25, ACCSH and OSHA will discuss:

- General activities of the Directorate of Construction (DOC), (focusing on inspection statistics, construction-related fatalities and DOC projects);
- Objectives for FY 1998;
- Rulemaking activity (specifically Safety and Health Programs, Confined Spaces, Fall Protection and Steel Erection);
- Multi-employer Worksite Policy;
- The use of settlement agreements to improve employee protection;
- Washing facilities on construction sites; and
- Allocation of OSHA liability between contractors. In addition, the Work Groups on Training, Confined Spaces and the Safety and Health Program Management Standard will report to the full Advisory Committee and the Committee will discuss those reports.

On June 26, NIOSH will brief the ACCSH on its construction-related activities. OSHA and ACCSH will discuss:

- OSHA reinvention;
- Compliance assistance and resources;
- Respirator standard;
- Decontamination practices and issues for such Substances as lead, asbestos and silica; and
- Training programs.

Interested persons may submit written data, views or comments, preferably with 20 copies, to Theresa Berry, at the address above. Those submissions received prior to the meeting will be provided to ACCSH and will be included in the record of the meeting.

Interested persons may also request to make an oral presentation by notifying Theresa Berry before the meeting. The request must state the amount of time desired, the interest that the person represents, and a brief outline of the presentation. ACCSH may grant

requests, as time permits, at the discretion of the Chair of ACCSH.

Signed at Washington, DC this 4th day of June, 1997.

Gregory R. Watchman,

Acting Assistant Secretary of Labor.

BILLING CODE 4510-26-M

FEDERAL MINE SAFETY AND HEALTH REVIEW COMMISSION

Sunshine Act Meeting

June 3, 1997.

TIME AND DATE: 10:00 a.m., Wednesday, June 11, 1997.

PLACE: Room 6005, 6th Floor, 1730 K Street, N.W., Washington, D.C.

STATUS: Open.

MATTERS TO BE CONSIDERED: The Commission will consider and act upon the following:

1. *Secretary of Labor v. Peabody Coal Co.*, Docket No. KENT 93-369 (Issues include whether substantial evidence supports the judge's determination that the operator's violation of 30 C.F.R. § 75.601 was not significant and substantial).

TIME AND DATE: 2:00 p.m., Wednesday, June 11, 1997.

PLACE: Room 6005, 6th Floor, 1730 K Street, N.W., Washington, D.C.

STATUS: Open.

MATTERS TO BE CONSIDERED: The Commission will consider and act upon the following:

1. *Secretary of Labor v. Topper Coal Co.*, Docket No. KENT 94-944-R (Issues include whether the judge correctly determined that the operator violated 30 U.S.C. § 813(a) by impeding a spot inspection for smoking materials, that the violation was significant and substantial and the result of high negligence, and that a civil penalty of \$5,000 was appropriate).

TIME AND DATE: 10:00 a.m., Wednesday, June 2, 1997.

PLACE: Room 6005, 6th Floor, 1730 K Street, N.W., Washington, D.C.

STATUS: Open.

MATTERS TO BE CONSIDERED: The Commission will consider and act upon the following:

1. *Secretary of Labor v. Consolidation Coal Co., et al.*, Docket No. WEVA 94-377 (Issues include whether substantial evidence supports the judge's conclusions that the operator's bleeder system met the requirements of 30 C.F.R. § 75.334(b)(1) and that the two

individual respondents were not liable under section 110(c) of the Mine Act for knowingly authorizing a violation of that regulation, and whether to remand for decision the issue of whether an allegedly incomplete cross-sectional reading violated 30 C.F.R. § 75.364(a)(2)).

TIME AND DATE: 10:00 a.m., Thursday, July 10, 1997.

PLACE: Room 6005, 6th Floor, 1730 K Street, N.W., Washington, D.C.

STATUS: Open.

MATTERS TO BE CONSIDERED: The Commission will consider and act upon the following:

1. *Secretary of Labor v. Thunder Basin Coal Co.*, Docket No. WEST 94-370 (Issues include whether the judge erred by failing to assess a separate penalty for the operator's violation of 30 C.F.R. § 40.4 and whether the judge correctly applied the penalty assessment criteria of section 110(i) of the Mine Act in assessing a daily penalty for the operator's failure to timely abate that violation).

Any person attending a meeting who requires special accessibility features and/or auxiliary aids, such as sign language interpreters, must inform the Commission in advance of those needs. Subject to 29 C.F.R. § 2706.150(a)(3) and § 2706.160(d).

CONTACT PERSON FOR MORE INFO: Jean Ellen, (202) 653-5629/(202) 708-9300 for TDD Relay/1-800-877-8339 for toll free.

Jean H. Ellen,

Chief Docket Clerk.

BILLING CODE 6735-01-M

NATIONAL CREDIT UNION ADMINISTRATION

Notice of Meetings

TIME AND DATE: 10:00 a.m., Thursday, June 12, 1997.

PLACE: Board Room, 7th Floor, Room 7047, 1775 Duke Street, Alexandria, VA 22314-3428.

STATUS: Open.

Board Briefing

1. Insurance Fund Report.

Matters To Be Considered

1. Requests from Federal Credit Unions to Convert to a Community Charter.
2. Appeal from a Federal Credit Union of the Regional Director's Denial of a Charter Amendment.

3. Final Rule: Amendment to Part 703, NCUA's Rules and Regulations, Investment and Deposit Activities.

RECESS: 11:15 a.m.

TIME AND DATE: 11:30 a.m., Thursday, June 12, 1997.

PLACE: Board Room, 7th Floor, Room 7047, 1775 Duke Street, Alexandria, VA 22314-3428.

STATUS: Closed.

Matter To Be Considered

1. Administrative Actions under Part 747, NCUA's Rules and Regulations. Closed pursuant to exemptions (5) and (8).

FOR FURTHER INFORMATION CONTACT: Becky Baker, Secretary of the Board, Telephone 703-518-6304.

Becky Baker,

Secretary of the Board.

BILLING CODE 7535-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-344]

Portland General Electric Company, et al., Trojan Nuclear Plant; Environmental Assessment and Finding of no Significant Impact

The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of a license amendment to Possession-Only License No. NPF-1, issued to Portland General Electric Company (PGE or the licensee), for the Trojan Nuclear Plant, a permanently shut down plant, located in Columbia County, Oregon, on the west bank of the Columbia River.

Environmental Assessment

Identification of the Proposed Action

The proposed action would allow processing of fuel and debris in the Trojan Fuel Building as described in the licensee's October 23, 1996, letter containing the license change request and safety analysis. The processing will volatilize and eliminate organic material (polypropylene filter media) which is currently commingled with fuel pellets, pellet fragments, and small metal particles. The consolidated fuel can then be stored in canisters without the potential for radiolytic decomposition of organic material and resultant generation of combustible gases. The licensee has proposed to process the fuel pellets and debris in order to make them suitable for future storage in an Independent Spent Fuel Storage Installation (ISFSI).

The Need for the Proposed Action

The licensee intends to dismantle and decommission the Trojan facility in accordance with the NRC approved Trojan Decommissioning Plan and subsequently terminate the Part 50 license. In order to accomplish this goal the licensee must first place all of the spent fuel and Greater Than Class C (GTCC) radioactive waste in an ISFSI. Some fuel pellets, partial fuel, organic filter media, and metal fines have been commingled as a result of vacuuming of the reactor vessel. The organic material must be eliminated from the mixture to make it suitable for storage in the ISFSI. The Trojan Nuclear Plant license must be amended to authorize this activity.

Environmental Impacts of the Proposed Action

The proposed action does not involve any measurable environmental impacts, since the facility configuration or plant operations will not change. No changes will be made in the types or quantities of effluents that are authorized to be released offsite, and there would be no significant increase in the allowable individual or cumulative radiation exposure. The licensee's analysis indicates that any potential accidents would have consequences within the scope of those previously analyzed in the Shutdown Final Safety Analysis Report. The NRC staff, based on independent evaluation, agrees with the licensee analyses and concludes that the proposed activity is acceptable. Accordingly, the Commission concludes that this proposed action would result in no significant radiological environmental impact.

With regard to potential non-radiological impacts, the proposed action does not affect non-radiological plant effluents and has no other environmental impact. Therefore, the Commission concludes that there are no significant non-radiological environmental impacts associated with the proposed action.

Alternative to the Proposed Action

Since the Commission concluded that there are no significant environmental effects that would result from the proposed action, any alternative with equal or greater environmental impacts need not be evaluated.

The principal alternative would be to deny the action. This would not reduce environmental impacts of plant decommissioning and would not enhance the protection of the environment nor public health and safety.

Alternative Use of Resources

This action does not involve the use of any resources not previously considered in the Final Environmental Statement for the Trojan Nuclear Plant, dated August 1973.

Agencies and Persons Consulted

The NRC staff consulted with representatives of the State of Oregon Department of Energy regarding the environmental impact of the proposed action. The State representatives had no comment.

Finding of No Significant Impact

The Commission has determined not to prepare an environmental impact statement for the proposed license amendment.

Based upon the foregoing environmental assessment, the Commission concludes that the proposed action will not have a significant effect on the quality of the human environment.

For further details with respect to this action, see the license change application dated October 23, 1996, and supplemental information in letters dated December 12, 1996, March 31, 1997, and April 9, 1997; which are available for public inspection at the Commission's Public Document Room, Gelman Building, 2120 L Street, NW., Washington, DC 20555, and at the Local Public Document Room for the Trojan Nuclear Plant at the Branford Price Millar Library, Portland State University, Portland, Oregon 97207.

Dated at Rockville, Maryland, this 2nd day of June 1997.

For the Nuclear Regulatory Commission.

Marvin M. Mendonca,

Acting Director, Non-Power Reactors and Decommissioning Project Directorate, Division of Operating Reactor Support, Office of Nuclear Reactor Regulation.
