

Clean Air Act, as amended in 1990 (CAA). Arizona's fuel requirement is not preempted by federal fuels requirements because EPA is proposing to find that the control measure is necessary for the Maricopa area to attain the national ambient air quality standards (NAAQS) for ozone and is proposing to approve the measure into the Arizona SIP.

In the final rules section of this **Federal Register**, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision and anticipates no adverse comments. A detailed rationale for this approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this action should do so at this time.

DATES: Comments on this proposed rule must be received in writing by July 11, 1997.

ADDRESSES: Written comments should be sent to the Region IX contact listed below. Copies of the SIP revision are available in the docket (#AZ-RVP-97) for this rulemaking, which is open for public inspection at the addresses below. A copy of this notice is also available on EPA, Region IX's website at <http://www.epa.gov/region09>.

requirement to limit RVP gasoline to 7.0 psi). This revision was submitted by the ADEQ to EPA on April 29, 1997.

On May 8, 1997, EPA found the April 29, 1997, SIP revision conformed to EPA's completeness criteria in 40 CFR Part 51, Appendix V and the **Federal Register** on August 26, 1991 (56 FR 42216). SUPPLEMENTARY INFORMATION:

In response to a request from several companies involved in a large volume of research and development activities, the EPA is extending the public comment period from June 11, 1997, to July 11, 1997, on the Advanced Notice of Proposed Rulemaking for listing research and development facilities on the source category list. The EPA agrees that an extension of the comment period will provide for more meaningful, constructive comments on the ANPR. Having extended the comment period, the EPA nonetheless encourages commenters to submit as many of their comments as possible before July 11, this would assist the EPA in its considerations of the issues raised. Due to the unique nature of R&D activities and the EPA's request in the ANPR for specific information and recommendations on how to list R&D facilities, the extension to the comment period will provide the EPA with more detailed comments that will result in future time savings on the project.

Summary of the Public Notice

Wireless Telecommunications Bureau Seeks Comment on Broadband PCS C and F Block Installment Payment Issues

June 2, 1997.

Comment Due Date: June 23, 1997

Reply Comment Due Date: July 8, 1997

1. The Wireless Telecommunications Bureau ("Bureau") has received a request from several broadband Personal Communications Services ("PCS") licensees requesting that the Commission modify the payment

frequency for broadband PCS C and F block licensees from quarterly to annual installments. See Letter from Thomas Gutierrez, Esq., et al. to Michele C. Farquhar, Esq., Chief, Wireless Telecommunications Bureau (March 13, 1997) ("Gutierrez Letter"). Petitioners include Alpine PCS, Inc.; DCR PCS, Inc.; Eldorado Communications, L.L.C.; Indus, Inc.; KMTel L.L.C.; Mercury PCS, L.L.C.; Microcom Associates; NextWave Communications, Inc.; and R&S PCS, Inc. As a result of the pendency of this request and other issues regarding certain debt functions, the Bureau released an *Order* which suspended the deadline for broadband PCS C block installment payments. See *Order*, In the Matter of Installment Payments for PCS Licenses, DA 97-649 (released: March 31, 1997). PCS F block installment payments were later suspended as well. See Public Notice, "FCC Announces Grant of Broadband Personal Communications Services D, E, and F Block Licenses," DA 97-883 (released: April 28, 1997) at p. 2.

2. The Bureau subsequently received several letters that propose alternative financing arrangements for broadband PCS C and F block licensees. See Letter from Leonard S. Sawicki, Director, FCC Affairs, MCI Telecommunications Corporation, to Mr. William F. Caton, Secretary, Federal Communications Commission (May 1, 1997) ("Sawicki Letter"). In this proposal, MCI requests that the Commission allow C block licensees to defer payment and accrue interest for the first five years of the license term. MCI also suggests that the Commission modify the PCS ownership and attribution rules to encourage additional investment in C block licensees. Finally, MCI suggests that such changes be available to all broadband PCS C block licensees. See also Letter from James H. Barker and Michael S. Wroblewski, Counsel to Fortunet Communications, L.P., to Mr. William F. Caton, Secretary, Federal Communications Commission (May 9, 1997) ("Barker Letter"). In its proposal, Fortunet requests that the Commission (1) suspend interest payments until year five of the license term; (2) extend the license term to 20 years; (3) modify the C block control group rules; (4) allow the transfer of C block licenses before the expiration of the five year holding period with modified unjust enrichment payments; and, (5) increase the level of foreign equity permitted. The Bureau also recently received a petition for rulemaking regarding the issue of broadband PCS C and F block payments. See Cook Inlet Region, Inc., Petition for Rulemaking, filed May 7, 1997 (RM-
