Northern proposes to upgrade the Baldwin #1 TBS, an existing delivery point located in St. Croix County, Wisconsin, to accommodate increased natural gas deliveries to Wisconsin Gas Company (WGC) under Northern's currently effective throughput service agreement(s). Northern states that WGC requested that the Baldwin #1 TBS be upgraded due to a growth of natural gas requirements in that area. The proposed increase in volumes to be delivered to WGC at the Baldwin #1 TBS are 60 MMBtu on a peak day and 5,414 MMBtu on an annual basis. The total estimated upgrade is \$90,000 and all construction will be completed within the existing station yard with minimal ground disturbance.

Northern states that the proposed activity is not prohibited by its existing tariff, that it has sufficient capacity for deliveries without detriment or disadvantage to other customers and that the total volumes delivered will not exceed total volumes authorized prior to this request.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request.
