Science Advisory Board Notification of Public Advisory Committee Meeting; Open Meeting

Pursuant to the Federal Advisory Committee Act, Public Law 92–463, notice is hereby given that the **Integrated Human Exposure Committee** (IHEC) of the Science Advisory Board (SAB) will meet on July 21-22, 1997, at the Environmental Protection Agency's Waterside Mall Complex, 401 M Street, SW, Washington, DC 20460 in Room 2103. For convenient access, members of the public should use the public entrance to the Waterside Mall commercial area on "M" street side of the complex, adjacent to the Safeway. The meeting will begin at 9:00 a.m. and end no later than 5:00 p.m. on each day. All times noted are Eastern Time. The meeting is open to the public. Due to limited space, seating will be on a firstcome basis.

The main purpose of the meeting is to review the Source Ranking Database (SRD), developed under the U.S. EPA Indoor Air Source Characterization Project (IASCP), and to consult with the Office of Indoor Air on the development of a strategy to address indoor air issues.

The SRD provides a mechanism for a systematic screening-level review of a large number of indoor sources to identify high-priority product and material categories for further evaluation. It produces risk-based rankings by multiplying an indoor-air concentration by a hazard score for each chemical in a given product or material, for each environment in which the product/material is used. The SAB has been asked to review the assumptions and methodologies used in scoring product/material categories in order to rank them for further characterization and possible risk management attention. Documentation for the SRD is not available from the SAB. Requests for documentation and technical questions should be directed to Mr. James Darr. Economics, Exposure, and Technology Division (7406), US EPA, 401 M St SW,

Washington, DC 20460. Mr. Darr may be contacted by telephone at 202–260–3441; by fax at 202–260–0981; and by Email at darr.james@epamail.epa.gov.

EPA's Office of Air and Radiation (OAR) is developing an intra-agency strategy and action plan which addresses the protection of human health indoors in the 21st century. The SAB has been asked to consult with the OAR on the appropriate direction for the strategy and action plan, especially regarding the importance of addressing human health indoors, the methods that should be used to set priorities for activities and research, gaps in knowledge in this area, and the need to integrate research activities across the Agency.

Documentation for background materials for the consultation are not available from the SAB. Requests for documentation and technical questions about the indoor air strategy should be directed to Ms. Renelle Rae, Indoor Environments Division (6604J), 401 M St., SW, Washington, DC 20460. Ms. Rae may be contacted by telephone at 202–233–9435, by fax at 202–233–9652; and by e-mail at:

Rae.Renelle@epamail.epa.gov

Members of the public desiring additional information about the meeting, including an agenda, should contact Ms. Dorothy Clark, Staff Secretary, Science Advisory Board (1400), US EPA, 401 M Street, SW, Washington DC 20460, by telephone at (202) 260–8414; by fax at (202) 260–7118; or by e-mail at: Clark.Dorothy@epamail.epa.gov

Anyone wishing to make an oral presentation at the meeting must contact Mr. Samuel Rondberg, Designated Federal Official for the IHEC in writing no later than 4:00 p.m., July 14, 1997, by fax at (202) 260–7118, or via the INTERNET at

Rondberg.Sam@epamail.epa.gov. The request should identify the name of the individual who will make the presentation and an outline of the issues to be addressed.

At least 35 copies of any written comments to the Committee are to be given to Mr. Rondberg no later than the time of the presentation for distribution to the Committee and the interested public.

Dated: June 18, 1997.

Staff Director, Science Advisory Board.
