AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces Agency approval of applications to conditionally register the pesticide products Finish and Cyclanilide Technical containing new active ingredients not included in any previously registered product pursuant to the provisions of section 3(c)(7)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended.

FOR FURTHER INFORMATION CONTACT: By mail: Cynthia Giles-Parker, Product Manager (PM) 22, Registration Division (7505C), Office of Pesticide Programs, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. 229, CM #2, Environmental Protection Agency, 1921 Jefferson Davis Hwy, Arlington, VA 22202, 703-305-7740; e-mail: giles-parker.cynthia@epamail.epa.gov.

SUPPLEMENTARY INFORMATION:

Electronic Availability: Electronic copies of this document and the Fact Sheet are available from the EPA home page at the Environmental Sub-Set entry for this document under "Regulations" (<http://www.epa.gov/fedrgstr/>).

EPA issued a notice, published in the **Federal Register** of June 14, 1996 (61 FR 30234; FRL-5373-7), which announced that Rhone-Poulenc AG Company, P.O. Box 12014, T.W. Alexander Drive, Research Triangle Park, NC 27709, had submitted applications to register the pesticide products Finish (EPA File Symbol 264-LAU), which contained the active ingredients ethephon (2-chloroethyl)phosphonic acid at 35.1 percent and cyclanilide 1-(2,4-dichlorophenylaminocarbonyl)-cyclopropane carboxylic acid at 4.3 percent and for Cyclanilide Technical (EPA File Symbol 264-LAL), containing the active ingredient cyclanilide 1-(2,4-dichlorophenylaminocarbonyl)-cyclopropane carboxylic acid at 98.5 percent, an active ingredient not included in any previously registered products.

The applications were approved on May 19, 1997, as Finish for use as a harvest aid on cotton (EPA Registration Number 264-564), and Cyclanilide Technical for manufacturing use only (EPA Registration Number 264-565).

A conditional registration may be granted under section 3(c)(7)(C) of FIFRA for a new active ingredient where certain data are lacking, on condition that such data are received by the end of the conditional registration period and do not meet or exceed the risk criteria set forth in 40 CFR 154.7; that use of the pesticide during the conditional registration period will not

cause unreasonable adverse effects; and that use of the pesticide is in the public interest.

The Agency has considered the available data on the risks associated with the proposed use of ethephon (2-chloroethyl)phosphonic acid and cyclanilide 1-(2,4-dichlorophenylaminocarbonyl)-cyclopropane carboxylic acid, and information on social, economic, and environmental benefits to be derived from such use. Specifically, the Agency has considered the nature and its pattern of use, application methods and rates, and level and extent of potential exposure. Based on these reviews, the Agency was able to make basic health and safety determinations which show that use of ethephon (2-chloroethyl)phosphonic acid and cyclanilide 1-(2,4-dichlorophenylaminocarbonyl)-cyclopropane carboxylic acid during the period of conditional registration will not cause any unreasonable adverse effect on the environment, and that use of the pesticide is, in the public interest.

These products are conditionally registered in accordance with FIFRA section 3(c)(7)(C). If the conditions are not complied with the registrations will be subject to cancellation in accordance with FIFRA section 6(e).

Consistent with section 3(c)(7)(C), the Agency has determined that these conditional registrations are in the public interest. Use of the pesticides are of significance to the user community, and appropriate labeling, use directions, and other measures have been taken to ensure that use of the pesticides will not result in unreasonable adverse effects to man and the environment.

More detailed information on these conditional registrations is contained in an EPA Pesticide Fact Sheet on cyclanilide 1-(2,4-dichlorophenylaminocarbonyl)-cyclopropane carboxylic acid.

A copy of this fact sheet, which provides a summary description of the chemical, use patterns and formulations, science findings, and the Agency's regulatory position and rationale, may be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161.

In accordance with section 3(c)(2) of FIFRA, a copy of the approved label, the list of data references, the data and other scientific information used to support registration, except for material specifically protected by section 10 of FIFRA, are available for public inspection in the Public Information and Records Integrity Branch, Information Resources and Services Division (7506C), Office of Pesticide

Programs, Environmental Protection Agency, Rm. 1132, CM #2, Arlington, VA 22202 (703-305-5805).
