#### SUPPLEMENTARY INFORMATION:

##### Background

On August 8, 1996, the Department initiated an administrative review of the antidumping duty order on furfuryl alcohol from the RSA, covering the period December 16, 1994, through May 31, 1996 (61 FR 41374). In our notice of initiation, we stated that we intended to issue the final results of this review no later than June 30, 1997.

##### Postponement of Preliminary Results of Review

Section 751(a)(3)(A) of the Act requires the Department to make a preliminary determination within 245 days after the last day of the anniversary month of an order for which a review is requested. However, if it is not practicable to issue the preliminary results in 245 days, section 751(a)(3)(A) allows the Department to extend this time period to 365 days.

We determine that it is not practicable to issue the preliminary results within

245 days because there are complex legal and methodological issues to address, such as duty reimbursement and fictitious market allegations, in this first review of this antidumping duty order under the new law.

Accordingly, the deadline for issuing the preliminary results of this review is now no later than June 30, 1997. The deadline for issuing the final results of this review will be 120 days from the publication of the preliminary results.

This extension is in accordance with section 751(a)(3)(A) of the Act.

Dated: January 14, 1997.

*Deputy Assistant Secretary, Import Administration*

##### Large Power Transformers From Italy; Final Results of Antidumping Finding Administrative Review and Revocation of Antidumping Finding in Part

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of final results of antidumping finding administrative review and revocation of antidumping finding in part.

**SUMMARY:** On August 6, 1996, the Department of Commerce (the

Department) published the preliminary results of the administrative review of the antidumping finding on large power transformers (LPTs) from Italy (61 FR 40815). This review covers exports of subject merchandise by Tamini Costruzioni Elettromeccaniche S.r.l. (Tamini) to the United States during the period from June 1, 1994, through May 31, 1995.

We gave interested parties an opportunity to comment on the preliminary results. We received no comments from interested parties. We have determined a weighted-average margin of zero percent for Tamini, which remains unchanged from the preliminary results. We have also determined that Tamini has met the requirements for revocation.

**EFFECTIVE DATE:** January 24, 1997.

#### SUPPLEMENTARY INFORMATION:

The Applicable Statute and Regulations

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended (the Act), are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act (URAA). In addition, unless otherwise indicated, all citations to the Department's regulations are to the current regulations, as amended by the interim regulations published in the Federal Register on May 11, 1995 (60 FR 25130).

## Background

On June 6, 1995, the Department published a notice of "Opportunity to Request Administrative Review" (60 FR 29821) of the antidumping finding on LPTs from Italy (37 FR 11772, June 14, 1972.) Petitioner, ABB Power T&D Co., Inc. (ABB), and Tamini both requested an administrative review on June 30, 1995. Tamini also requested, pursuant to 19 CFR 353.25(b), revocation of the order with respect to its sales of the subject merchandise and submitted the certification required by 19 CFR 353.25(b)(1). Tamini was not required to provide the certification required by 19 CFR 353.25(b)(2) (a statement in writing agreeing to its immediate reinstatement in the order if the Department concludes, subsequent to revocation, that the respondent sold merchandise at less than normal value) because the Department has not previously determined that Tamini sold subject merchandise in the United States at less than normal value. We published a notice of initiation of the review on August 16, 1995 (60 FR 42500), covering the period June 1, 1994 through May 31, 1995. Based on the preliminary results in this review and the two preceding reviews (see *Large Power Transformers from Italy; Final Results of Antidumping Duty Administrative Review*, 59 FR 48851 (September 23, 1994), and *Large Power Transformers from Italy; Final Results of Antidumping Duty Administrative Review*, 61 FR 37443 (July 18, 1996), we preliminarily determined that Tamini has demonstrated three consecutive years of sales at not less than normal value and, therefore, qualifies for revocation. We published, on August 6, 1996, the preliminary results of administrative review of the antidumping finding on LPTs from Italy and the intent to revoke the finding in part (61 FR 40815). The Department is conducting this review in accordance with section 751 of the Act.

## Scope of the Review

Imports covered by the review are shipments of large power transformers (LPTs); that is, all types of transformers rated 10,000 kVA (kilovolt-amperes) or above, by whatever name designated, used in the generation, transmission, distribution and utilization of electric power. The term "transformers" includes, but is not limited to, shunt reactors, autotransformers, rectifier transformers, and power rectifier transformers. Not included are combination units, commonly known as rectiformers, if the entire integrated assembly is imported in the same shipment and entered on the same entry

and the assembly has been ordered and invoiced as a unit, without a separate price for the transformer portion of the assembly. This merchandise is currently classifiable under the Harmonized Tariff Schedule (HTS) item numbers 8504.22.00, 8504.23.00, 8504.34.33, 8504.40.00, and 8504.50.00. The HTS item numbers are provided for convenience and Customs purposes. The written description remains dispositive.

The review covers shipments of transformers by Tamini during the period June 1, 1994, through May 31, 1995.

## Analysis of Comments Received

We invited interested parties to comment on our preliminary results and preliminary notice of intent to revoke the finding in part. We did not receive any comments from interested parties, and we did not make any adjustments to our calculations for these final results. Accordingly, the weighted-average margin for these final results remains zero percent.

## Final Results of Review

We determine that, for the period June 1, 1994, through May 31, 1995, Tamini had a weighted-average antidumping duty margin of zero percent. We further determine that Tamini has demonstrated three consecutive review periods of sales at not less than normal value. Our record presents no evidence that Tamini has sold the subject merchandise at less than normal value in the past, and we received no comments from any interested parties contesting the revocation. On the basis of no sales at less than normal value for three consecutive years and the lack of any indication that such sales are likely in the future, we have concluded that it is not likely that Tamini will in the future sell the subject merchandise at less than normal value. Accordingly, we are revoking the order on large power transformers from Italy with respect to Tamini in accordance with section 751(d) of the Act and 19 CFR 353.25(a).

This revocation applies to all entries of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after June 1, 1995. The Department will order the suspension of liquidation ended for all such entries and will instruct the Customs Service to release any cash deposit or bonds. The Department will further instruct Customs to refund with interest any cash deposits on post-June 1, 1994 entries.

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 353.26 to

file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 353.34(d). Failure to comply is a violation of the APO.

This administrative review, revocation, and notice are in accordance with sections 751(a)(1) of the Act (19 U.S.C. 1675(a)(1)) and 19 C.F.R. 353.22(c)(5) and 353.25(a).

Dated: January 14, 1997.

Robert S. LaRussa,  
Acting Assistant Secretary for Import Administration.
