SUPPLEMENTARY INFORMATION:

I. Abstract

The Single Audit Act Amendments of 1996 and OMB Circular A-133 require state and local governments and non-profit organizations expending \$300,000

or more in Federal financial aid to have an annual audit of their financial operations. OMB has designated the Census Bureau as the Federal Audit Clearinghouse for these audits. We use the Single Audit Questionnaire to contact those entities that have not sent in their audit reports to request that they forward the report or clarify their reporting status.

Under the Single Audit Act Amendments of 1996 and OMB Circular A-133, both state and local governments and non-profit institutions are subject to the same requirements. Therefore, it is no longer necessary to maintain two separate forms. [We are dropping the SAC-2, previously sent only to non-profit institutions, and are revising upward our estimate of the time necessary to complete form SAC-1 based on the expanded usage of the form.]

Under the higher \$300,000 reporting threshold imposed by the Single Audit Act Amendments of 1996, fewer entities will be required to submit Single Audits, thus the estimated number of respondents has decreased since the Single Audit Questionnaire was last approved by OMB.

II. Method of Collection

The SAC-1 Single Audit Questionnaire is mailed to panels of state and local governments and non-profit organizations throughout the year based on fiscal year ending dates.

Periodically, we update information for the Federal Inspector General's offices on governmental and non-profit audits which have been completed or are delinquent. A report listing governments delinquent in providing audits to the Federal Audit Clearinghouse is provided to the OMB in April as required under the Single Audit Act Amendments of 1996.

III. Data

OMB Number: 0607-0518.

Form Number: SAC-1.

Type of Review: Regular.

Affected Public: States, Local Governments, Indian Tribes, and non-profit organizations.

Estimated Number of Respondents: 12,500.

Estimated Time Per Response: 20 minutes.

Estimated Total Annual Burden

Hours: 4,166 hours.

Estimated Total Annual Cost: We do not expect respondents to incur any costs other than that of their time to respond.

Respondent's Obligation: Voluntary.

Legal Authority: The Single Audit Act Amendments of 1996 (Pub. L. 104-156) and Revised OMB Circular No. A-133.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: July 3, 1997.

Departmental Forms Clearance Officer, Office of Management and Organization.

Circular Welded Non-Alloy Steel Pipe and Tube From Mexico: Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of final results of antidumping duty administrative Review.

SUMMARY: On December 30, 1996, the Department of Commerce (the Department) published the preliminary results of its administrative reviews of the antidumping duty order on circular welded non-alloy steel pipe from Mexico covering exports of this merchandise to the United States by certain manufacturers. Based on our preliminary review of these exports during the period November 1, 1994 through October 31, 1995, we found margins for all reviewed companies. We invited interested parties to comment on the preliminary results. We received comments and rebuttals from petitioners and from TUNA and Hylsa (respondents). We have now completed our final results of review and

determine that the results have changed with respect to one respondent.

EFFECTIVE DATE: July 10, 1997.

Applicable Statute

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended (the Act) are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act (URAA). In addition, unless otherwise indicated, all references to the Department's regulations are to Part 353 of 19 CFR (1997).

Background

The Department published an antidumping duty order on circular welded non-alloy steel pipe and tube from Mexico on November 2, 1992 (57 FR 49453). The Department published a notice of "Opportunity to Request an Administrative Review" of the antidumping duty order for the 1994/95 review period on November 1, 1995 (60 FR 55541). On November 29, 1995, respondent Hylsa S.A. de C.V. ("Hylsa") requested that the Department conduct an administrative review of the antidumping duty order on circular welded non-alloy steel pipe and tube from Mexico. On November 30, 1995, respondent Tuberia Nacional S.A. de C.V. ("TUNA") requested that the Department conduct an administrative review of this order. We initiated this review on December 8, 1995. See 60 FR 44414 (September 15, 1995).

Under section 751(a)(3)(A) of the Act, the Department may extend the deadline for completion of administrative reviews if it determines that it is not practicable to complete the review within the statutory time limit of 365 days. On July 19, 1996, the Department extended the time limits for preliminary and final results in this case. See *Extension of Time Limit for Antidumping Duty Administrative Reviews*, 61 FR 40603 (August 5, 1996).

The Department is conducting this administrative review in accordance with section 751 of the Act.

Scope of the Review

The review of "circular welded non-alloy steel pipe and tube" covers products of circular cross-section, not more than 406.4 millimeters (16 inches) in outside diameter, regardless of wall thickness, surface finish (black, galvanized, or painted), or end finish (plain end, beveled end, threaded, or threaded and coupled). These pipes and tubes are generally known as standard pipe, though they may also be called structural or mechanical tubing in certain applications. Standard pipes and tubes are intended for the low pressure conveyance of water, steam, natural gas, air and other liquids and gases in plumbing and heating systems, air conditioning units, automatic sprinkler systems, and other related uses. Standard pipe may also be used for light load-bearing and mechanical applications, such as for fence tubing, and for protection of electrical wiring, such as conduit shells.

The scope is not limited to standard pipe and fence tubing, or those types of mechanical and structural pipe that are used in standard pipe applications. All carbon steel pipes and tubes within the physical description outlined above are included within the scope of this review, except line pipe, oil country tubular goods, boiler tubing, cold-drawn or cold-rolled mechanical tubing, pipe and tube hollows for redraws, finished scaffolding, and finished rigid conduit. In accordance with the Final Negative Determination of Scope Inquiry (56 FR 11608, March 21, 1996), pipe certified to the API 5L line pipe specification, or pipe certified to both the API 5L line pipe specifications and the less-stringent ASTM A-53 standard pipe specifications, which fall within the physical parameters as outlined above, and entered as line pipe of a kind used for oil and gas pipelines, are outside of the scope of the antidumping duty order.

Imports of these products are currently classifiable under the following Harmonized Tariff Schedule (HTS) subheadings: 7306.3010.00, 7306.30.50.25, 7306.30.50.32, 7306.30.50.40, 7306.30.50.55, 7306.30.50.85, and 7306.30.50.90. These HTS item numbers are provided for convenience and customs purposes. The written descriptions remain dispositive.

Analysis of Comments Received

We invited interested parties to comment on our preliminary results of the reviews. We received both comments and rebuttals from petitioners, TUNA, and Hylsa. The
