[Investigation No. 332-237]

Production Sharing: Use of U.S. Components and Materials in Foreign Assembly Operations, 1993-96 (U.S. Imports Under Production-Sharing Provisions of Harmonized Tariff Schedule Heading 9802)

AGENCY: United States International Trade Commission.

EFFECTIVE DATE: July 17, 1997.

ACTION: Opportunity to submit written statements in connection with the report which covers developments in 1996.

SUMMARY: The Commission has prepared and published annual reports on production sharing under this series since 1986. The Commission plans to publish the next report in December 1997, which will cover U.S. import data on production sharing for 1993-96.

Alternative collection methods for production-sharing trade data are being considered by various government entities to improve this statistical review, as noted in the recently published report. Comments and suggestions regarding this issue are welcome in written submissions as specified below. The latest report for the period 1992-1995 (USITC Publication 3032, April 1997) may be obtained from the ITC's Internet server (<http://www.usitc.gov> or <ftp://ftp.usitc.gov>). A printed report may be requested by contacting the Office of the Secretary at 202-205-2000, or by fax at 202-205-2104.

FOR FURTHER INFORMATION CONTACT: Questions about the production-sharing

report may be directed to Ralph J. Watkins, Office of Industries (202-205-3492). For information on legal aspects, please contact Mr. William W. Gearhart, Office of General Counsel (202-205-3091). Hearing impaired individuals are advised that information on this matter can be obtained by contacting the TDD terminal on (202-205-1810).

Background: The initial notice of institution of this investigation was published in the **Federal Register** of September 4, 1986 (51 F.R. 31729). The report has been published in the current series under investigation No. 332-237 annually since December 1986. The report, originally entitled "Imports Under Items 806.30 and 807.00 of the Tariff Schedules of the United States, 1982-85," has undergone a number of changes in the title to reflect the adoption of the Harmonized Tariff Schedule (HTS) and modifications to the applicable provisions of that schedule.

As in past years, the report will provide an analysis of developments in U.S. imports under the production-sharing provisions of the HTS, focusing on shifts in trade and product mix as well as trends by principal country sources and industry groups. The report will also assess U.S. production generated as a result of foreign assembly, the use of production sharing by foreign manufacturers, the effect of the North American Free Trade Agreement (NAFTA) on U.S. parts producers, and developments in the global integration of specific industries. The report will also contain a special section on the use of maquiladoras in Mexico by Canadian companies and their relationship with parts producers in the United States.

Written Submissions: No public hearing is planned. However interested persons are invited to submit written comments on developments in production-sharing trade. Commercial or financial information that a submitter desires the Commission to treat as confidential must be provided on separate sheets of paper, each clearly marked "Confidential Business Information" at the top. All submissions requesting confidential treatment must conform with the requirements of section 201.6 of the Commission's Rules of Practice and Procedure (19 C.F.R. 201.6). All written submissions, except for confidential business information, will be made available in the Office of the Secretary of the Commission for inspection by interested persons. Commission, written statements relating to the Commission's report should be submitted to the Commission at the earliest practical date and should be received no later than the close of business on September 2, 1997. United States v. Raytheon Company and Texas Instruments Inc.; Proposed Final Judgment and Competitive Impact Statement

Notice is hereby given pursuant to the Antitrust Procedures and Penalties Act, 15 U.S.C. 16(b)-(h), that a proposed Final Judgment, Stipulation and Order, Hold Separate and Partition Plan Stipulation and Order and Competitive Impact Statement have been filed with the United States District Court in the District of Columbia, Civil No. 1:97CV01515.

On July 2, 1997, the United States filed a Complaint alleging that the proposed acquisition by Raytheon Company of the Defense Systems and Electronics Unit of Texas Instruments Inc. ("DS&E") would violate Section 7 of the Clayton Act, 15 U.S.C. § 18. The complaint further alleges that the acquisition by Raytheon of DS&E would lead to a monopoly in X-band high power amplifier monolithic microwave integrated circuits ("MMICs"). The proposed Final Judgment, filed the same time as the Complaint, requires Raytheon to divest the MMICs business of DS&E.

Public comment is invited within the statutory 60-day comment period. Such comments and responses thereto will be published in the **Federal Register** and filed with the Court.
