

DEPARTMENT OF JUSTICE**Antitrust Division****Notice Pursuant to the National Cooperative Research and Production Act of 1993—Geothermal Power Organization**

Notice is hereby given that, on May 29, 1997, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. § 4301 *et seq.* ("the Act"), the Geothermal Power Organization ("GPO") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of the parties and (2) the nature and objectives of the venture. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Pursuant to Section 6(b) of the Act, the identities of the parties are: Pacific Gas and Electric Company, San Francisco, CA; CE Hold Company, Omaha, NE; Barber-Nichols, Inc., Arvada, CO; Douglas Energy Company, Inc., Placentia, CA; Material Integrity Solutions, Inc., Berkeley, CA; and Two-Phase Engineering and Research, Inc., Santa Rosa, CA.

The purpose of this venture will be to foster cooperation among industry, academia, and government for research and development of geothermal energy conversion technology. The objectives of this venture will be achieved by providing a forum for evaluating proposals for industry projects related to geothermal energy conversion technology; for providing the Department of Energy ("DOE") with information on geothermal energy conversion technology; for advising the geothermal industry, academic organizations, national labs, and other research-oriented groups on issues related to geothermal energy conversion technology; and for facilitating the industrial development of laboratory and research results related to geothermal energy conversion technology.

Participation in this joint venture will remain open to qualified entities. The GPO intends to file additional written notifications disclosing all changes in membership. Information regarding membership in the GPO may be obtained from Carl Pacquin, Pacific Gas

and Electric Company, 2302 Camino Ramon, San Ramon, CA 94583.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. H-372]

RIN: 1218-AB58

Standards Advisory Committee on Metalworking Fluids

AGENCY: Occupational Safety and Health Administration (OSHA), U.S. Department of Labor.

ACTION: Notice of establishment and appointment of members to the Metalworking Fluids Standards Advisory Committee.

SUMMARY: The Secretary of Labor has established a committee to advise the Assistant Secretary for the Occupational Safety and Health Administration (OSHA) on the appropriate action(s) to take to protect workers from the hazards associated with occupational exposure to metalworking fluids. This standards advisory committee will provide collective expertise not otherwise available to the Secretary to address the complex and sensitive issues involved. Those chosen to serve on this committee have been drawn from industry, labor, professional organizations, academia and government agencies. The committee members represent those interested in, or significantly affected by, any action the Agency may take as a result of this inquiry.

ADDRESSES: Any written comments in response to this notice should be sent to the following address: U.S. Department of Labor, OSHA, Directorate of Health Standards Programs, Metalworking Fluids Advisory Committee, Room N-3718, 200 Constitution Avenue, NW, Washington, D.C. 20210. Phone: (202) 219-7111.

FOR FURTHER INFORMATION CONTACT: Dr. Peter Infante, Directorate of Health Standards Programs, Office of Standards Review, OSHA, (202) 219-7111.

SUPPLEMENTARY INFORMATION: In December 1993, the International Union, United Automobile, Aerospace & Agricultural Implement Workers of America (UAW) petitioned OSHA to

take emergency regulatory action to protect workers from the risks of occupational cancers and respiratory illnesses associated with exposure to metalworking fluids. Occupational exposure to metalworking fluids was identified by the Agency and its stakeholders as an issue worthy of Agency action during OSHA's Priority Planning Process in 1994. Subsequently, the National Advisory Committee on Occupational Safety and Health (NACOSH) recommended that OSHA form a Standards Advisory Committee (SAC) to address the health risks caused by occupational exposure to metalworking fluids. The Assistant Secretary accepted the recommendation of NACOSH. On August 29, 1996 OSHA published a **Federal Register** notice of intent to form a Standards Advisory Committee for Metalworking Fluids and asked the public for recommendations of individuals with suitable experience or expertise to serve on this advisory committee (61 FR 45459).

Section 7(b) of the Occupational Safety and Health Act requires that advisory committees have a balanced membership, including individuals appointed to represent the interests of affected employers and employees, as well as Federal and State safety and health organizations and professional organizations.
