[Docket No. 960726208-7142-02]

Approval of Withdrawal of Thirty-Three Federal Information Processing Standards Publications

AGENCY: National Institute of Standards and Technology (NIST), Commerce.

ACTION: Notice.

SUMMARY: The purpose of this notice is to announce that the Secretary of

Commerce has approved the withdrawal of thirty-three Federal Information Processing Standards (FIPS) Publications.

On September 3, 1996, notice was published in the **Federal Register** (61 FR 46444-46445) proposing withdrawal of thirty-two Federal Information Processing Standards (FIPS) Publications. Thirty-one of the thirty-two FIPS proposed for withdrawal are being withdrawn by this notice.

In addition, FIPS 147, Group 3 Facsimile Apparatus for Document Transmission, and 174, Federal Building Telecommunications Wiring Standard, are withdrawn by this notice. These standards were proposed for revision in the **Federal Register** (61 FR 10986-10992 dated March 18, 1996, and 61 FR 15783-15785 dated April 9, 1996), but are being withdrawn instead.

These thirty-three FIPS are being withdrawn because they are obsolete, or have not been updated to adopt current voluntary industry standards. Federal agencies and departments are directed by the National Technology Transfer and Advancement Act of 1995, Public Law 104-113, to use technical standards that are developed in voluntary consensus standards bodies.

Consequently, there no longer is a need for FIPS that duplicate voluntary industry standards.

The written comments submitted by interested parties and other material available to the Department relevant to these publications were reviewed by NIST. On the basis of this review, NIST recommended that the Secretary approve the withdrawal of the thirty-three FIPS Publications, and prepared a detailed justification document for the Secretary's review in support of that recommendation.

The detailed justification document which was presented to the Secretary is part of the public record and is available for inspection and copying in the Department's Central Reference and Records Inspection Facility, Room 6020, Herbert C. Hoover Building, 14th Street between Pennsylvania and Constitution Avenues, NW., Washington, DC 20230.

This notice provides only the FIPS publication number, title, and the technical specifications number for each of the thirty-three FIPS Publications being withdrawn:
