Title: National Directory of New Hires.

OMB No.: New.

Description: Public Law 104-193, the "Personal Responsibility and Work Opportunity Reconciliation Act of 1996," requires the Office of Child Support Enforcement (OCSE) to develop a National Directory of New Hires (NDNH) to improve the ability of State child support agencies to locate noncustodial parents and collect child support across State lines.

The NDNH will contain employment, earning and employment compensation data on all employees within the United States. The law requires States and

territories to periodically transmit new hire data received from employers to the NDNH, and to transmit quarterly wage and unemployment compensation claims data to the NDNH on a quarterly basis.

Employers must report specified information (based on information reported on the IRS W-4 Form) on all new hires to State agencies for transmittal to the NDNH. States will transmit all data to the NDNH electronically. The purpose of the NDNH is to develop a repository of information on newly-hired employees, and on the earnings and unemployment compensation claims data on all employees, to provide the necessary information to locate child support obligors, and to establish and enforce child support orders.

Please refer below to the Supplemental Specifications in addition to the Record Layouts and field descriptions for input to the National Directory of New Hire (NDNH).

Respondents: States and Employers.

ANNUAL BURDEN ESTIMATES

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hour
New Hire: Employers Not Currently Required to Report (manual reporting)*	3,372,250	3.484	.0417	489,930
New Hire: Employers Not Currently Required to Report (electronically)*	740,250	37,037	.00028	7,677
New Hire: Multistate Employers' Registration Form	375,000	1	.050	18,750
New Hire: States Not Currently Requiring New Hire Reporting	29	83,333	266,668	644,445
New Hire: States Currently Requiring New Hire Reporting	25	83,333	70.741	147,376
Quarterly Wage & Unemployment Compensation	54	4	.033	7.13

* *Estimated Total Annual Burden Hours: 1,308,185.*

Footnotes

The above numbers are based on the following: Twenty-five States already had a new hire reporting system in place before PRWORA was passed. Within those 25 States, on average, it is estimated that 75% of employers already report new hire data (based on the fact that some States require all employers to report, some require only targeted industries to report, and some are voluntary reporting programs). It is estimated that these employers represent the same proportional number of new hire reports (75% of 25/54).

These estimates include the 25% remaining employers who do not report

within those 25 States, in addition to all of the employers within the remaining 29 States.

* Eighteen percent of all employers will report manually and 82% will report electronically (based on SSA's experience). The number of employers is based on the following calculation: the total number of employers (6,300,000) multiplied by 29/54 (the proportion of States that do not have new hire programs) plus the total number of employers multiplied by the number of employers not already reporting in the States that do have new

hire programs (25% of 25/54). The result (4,122,500) is then broken down into two categories: those who report manually and those who report electronically.

** For the "Employers" tiers, "response" is defined as the number of new hire reports. Thirty percent of all new hire reports will be reported manually and 70% will be reported electronically (based on SSA's experience).

*** Based on the assumption that employers reporting new hires electronically will most likely transmit
