**Grand River Dam Authority; Notice of Availability of Final Environmental Assessment**

August 11, 1997.

A final environmental assessment (EA) is available for public review. The final EA analyzes the environmental impacts of an application by Grand River Dam Authority (licensee) to grant a permit to Mr. Larry Herrelson of Patricia Island Estates. The permit would allow Mr. Herrelson to excavate about 25,880 cubic yards of sediment from 9 coves on project lands for future recreational access. Patricia Island Estates is a planned residential community being developed in the Patricia Island portion of Grand Lake, Delaware County, near the town of Grove, Oklahoma. The final EA finds that the application to grant the permit would not constitute a major federal action significantly affecting the quality of the human environment. The Pensacola Project is on the Grand River, in Craig, Delaware, Mayes, and Ottawa Counties, Oklahoma.

The final EA was written by staff in the Office of Hydropower Licensing, Federal Energy Regulatory Commission. Copies of the final EA can be obtained by calling the Commission's Public Reference Room at (202) 208-1371.
