**SUPPLEMENTARY INFORMATION:** Section 1320.8(d), Title 5, Code of Federal Regulations requires that RSPA provide interested members of the public and affected agencies an opportunity to comment on information collection and recordkeeping requests. This information collection approval originally was published under Docket RSPA-97-2133 (HM-225), entitled Hazardous Materials: Cargo Tank Motor Vehicles in Liquefied Compressed Gas Service, on February 19, 1997 (62 FR 7638) with a 60-day comment period and was forwarded to OMB for emergency approval. Notice of Information Collection Approval, OMB No. 2137-0595, was published under RSPA Notice No. 97 on March 4, 1997 (62 FR 9819). RSPA is requesting an 18-month emergency renewal and extension for this information collection activity and, when approved by OMB, will publish notice of the approval in the **Federal Register**.

RSPA requests comments on the following information collection renewal and extension:

**Title:** Cargo Tank Motor Vehicles in Liquefied Compressed Gas Service.

**OMB Control Number:** 2137-0595.

**Abstract:** The reason for this information collection activity and burden is to ensure the safe operation of certain cargo tank motor vehicles used in the transportation of liquefied compressed gases. Based on information that emergency discharge shut-off features on these types of cargo tanks do not operate properly in emergency situations, RSPA requires that motor carrier and cargo tank operators develop emergency operating procedures for manually shutting off the flow of product in the event of an emergency and that a copy of the procedure be displayed in or on each cargo tank motor vehicle. The information collection and recordkeeping burdens are imposed on motor carriers and operators of these cargo tank motor vehicles.

**Respondents:** Each motor carrier using a cargo tank motor vehicle which

does not conform to 49 CFR 178.337-11(a)(1)(i) to carry liquefied compressed gas products.

**Annual Reporting and Recordkeeping:**

**Number of Respondents:** 6,800.

**Total Annual Responses:** 25,000.

**Total Annual Burden Hours:** 18,573.

**Frequency of collection:** Procedures are developed on a one-time basis and are maintained on a vehicle on a continuing basis while the vehicle is in use.

Issued in Washington, DC on August 13, 1997.

Environmental, historic preservation, public use, or trail use/rail banking conditions will be imposed, where appropriate, in a subsequent decision.

Pursuant to the provisions of 49 CFR 1152.29(e)(2), EDRC-II shall file a notice of consummation with the Board to signify that it has exercised the authority granted and fully abandoned the line. If consummation has not been effected by EDRC-II's filing of a notice of consummation by August 19, 1998, and there are no legal or regulatory barriers to consummation, the authority to abandon will automatically expire.
