

particularly for privately-owned sites where the landowners objected to the boundaries as proposed. The proposed action for overall park management remains unchanged.

**SUPPLEMENTARY INFORMATION:** This Final Environmental Impact Statement for the General Management Plan presents a proposal and two alternative strategies parkwide and site-specific, for guiding future management of the national historical park. The major subject areas are natural and cultural resources, public use, nonfederal lands, and park management and operations. Many overall actions would be designed to unify park sites, upgrade interpretation, and help visitors recognize the connection between the park's individual sites. Nez Perce life ways would be respected. Plans would be developed to manage resources and vegetation, eliminate exotic and noxious plants, and reintroduce native species. The park would continue to work with local governments on issues that could affect park resources. Nez Perce people would be encouraged to participate in decisions about park planning,

management, and operation. Alternative 1 is a continuation of current management practices, often referred to as a "no action" alternative. Alternative 2 is a minimum requirement in terms of lower cost improvements and minimum protection and safety actions. Alternative 3 goes beyond the minimum requirements alternative, building on the initiatives of alternative 2. The proposed actions for overall management would retain the general management direction of the park, but appropriate individual management techniques would be applied in certain cases. Incremental steps would be taken to improve visitor services and operations. More cooperative agreements and other partnership mechanisms would be developed as needed to protect resources, include Nez Perce people in park management, and improve interpretation. Some facilities would be rehabilitated or expanded, modest developments would be added at some sites to meet requirements, and some historic structures would be adaptively used. The site-by-site proposed action varies with the site. The DEIS evaluated the potential environmental impacts associated with the strategies comprising the three alternatives. The official responsible for a decision on the proposed action is the Regional Director, Pacific West Region, National Park Service.

Dated: August 11, 1997.

#### Revision of National Environmental Policy Act Procedures; Request for Comments

**AGENCY:** National Park Service, Interior.

**ACTION:** Revision of National Environmental Policy Act Procedures, Request for Comments.

**SUMMARY:** The National Park Service (NPS) is requesting comments from agencies and the public concerning its revisions to its procedures under the National Environmental Policy Act (NEPA). Once final these policies would apply to the activities of the National Park Service in administering units of the National Park System as well as other activities. The policies available for review consist of a draft Director's Order which broadly describes the authorization of and responsibility for the development of the policies and a

draft handbook that describes how the NPS will carry out its responsibilities under the National Environmental Policy Act and related laws. A field guide will be developed in the future that will supply additional guidance for writing documents and carrying out analysis under NEPA.

**DATES:** Comments must be submitted by October 3, 1997.

**ADDRESSES:** Documents can be requested from and comments should be sent to: National Park Service Environmental Quality Division, Room 2749, 1849 C Street, N.W., Washington, D.C. 20240. Comments can also be sent electronically to the following internet address: jacob\_hoogland@nps.gov. Electronic copies of the draft documents can be downloaded from the internet at the NPS's web page at <http://www.nps.gov>.
