

*Estimated Annual Burden:* 448 annual hours; .166 hours per respondent; 2,700 respondents.

*Description:* Aviation Ground and Marine Coast Radio Station licensees are required to apply for renewal of their radio station authorization every five years. This form will be used for that purpose. The form is being revised to add spaces to collect the applicant's Internet or e-mail address and Taxpayer Identification Number (TIN) to comply with the Debt Collection Improvement Act of 1996. The Wireless Telecommunications Bureau has developed a generic renewal application for electronic filing, FCC Form 900. Once implemented, applicants for renewal of Aviation Ground and Marine Coast licenses will have the option to use FCC Form 452-R or electronically file for renewal using the FCC Form 900. The FCC staff will use the data to determine eligibility for a renewed radio station authorization, and to issue a radio station license. Data is also used by Compliance personnel in conjunction with field engineers for enforcement and interference resolution purposes.

*OMB Control No.:* 3060-0368.

*Expiration Date:* 8/31/2000.

*Title:* Question Pools Section 97.523.

*Form:* N/A.

*Estimated Annual Burden:* 480 total annual hours; average 3 hours per respondent; 160 responses.

*Description:* The recordkeeping requirement contained in Section 97.523 is necessary to permit question pools used in preparing amateur examinations to be maintained by Volunteer-Examiner Coordinators (VEC's). These question pools must be published and made available to the public before the questions are used in an examination. The information maintained by the VEC's is used to prepare amateur examinations. If this information was not maintained the amateur examination program would deteriorate and become outdated. These examinations would not adequately measure the qualifications of the applicants.

*OMB Control No.:* 3060-0068.

*Expiration Date:* 8/31/2000.

*Title:* Application for Consent to Assignment of Radio Station Construction Authorization or License for Stations in Services Other Than Broadcast.

*Form:* FCC 702.

*Estimated Annual Burden:* 13,220 total annual hours; average 5 hours per respondent; 2,644 responses.

*Description:* The FCC Form 702 is used to request Commission approval of

assignment of radio station construction authorization or license. The form was revised to increase the number of respondents and total annual burden hours as a result of the Third Report and Order, Redesignation of 27.5 GHz Frequency Band, Establishing Rules and Policies for Local Multipoint Distribution Service (LMDS). The Commission concluded that any LMDS licensee will be permitted to partition or disaggregate portions of its authorization. The fifth notice of Proposed Rulemaking proposes that this form will be used to complete the disaggregation and partitioning of LMDS. This form may also be used in the future disaggregation and partitioning for a variety of spectrum-based services licensed by the Commission. Specific rules will be adopted in Reports and Orders or by public notice for each service subject to disaggregation and partitioning.

The form has been revised to include a space for the applicant to provide an Internet or e-mail address is being added to the form as an alternative media for contacting the applicant with questions relating to the application. We are also requesting permission to collect the Taxpayer Identification Number (TIN) to comply with the Debt Collection Improvement Act of 1996. The drug certification question has been eliminated and text added to the certification block prior to signature in lieu of check a "yes/no" block. The application has been revised to include reference to Part 101 applicants. The data will be used by Commission staff to determine the financial, legal and technical qualifications of the applicant.

Federal Communications Commission.

## FEDERAL RESERVE SYSTEM

### Federal Open Market Committee; Domestic Policy Directive of August 19, 1997.

In accordance with § 271.5 of its rules regarding availability of information (12 CFR part 271), there is set forth below the domestic policy directive issued by the Federal Open Market Committee at its meeting held on August 19, 1997.<sup>1</sup>

<sup>1</sup> Copies of the Minutes of the Federal Open Market Committee meeting of August 19, 1997, which include the domestic policy directive issued at that meeting, are available upon request to the Board of Governors of the Federal Reserve System,

The directive was issued to the Federal Reserve Bank of New York as follows:

The information reviewed at this meeting suggests that the economic expansion slowed substantially in the second quarter after surging in late 1996 and earlier this year. Private nonfarm payroll employment increased at a reduced pace in May, but the civilian unemployment rate fell slightly further to 4.8 percent. Industrial production registered another sizable gain in May. Personal consumption expenditures, in real terms, rose substantially in May after having changed little over the preceding three months. Housing activity appears to have been well maintained in recent months. Available indicators point to further sizable gains in business fixed investment. The nominal deficit on U.S. trade in goods and services narrowed somewhat in April from its downward-revised average rate in the first quarter. Price inflation has remained subdued.

Market interest rates generally have declined somewhat since the day before the Committee meeting on May 20, 1997; share prices in equity markets have risen considerably further. In foreign exchange markets, the trade-weighted value of the dollar in terms of the other G-10 currencies was up slightly on balance over the intermeeting period.

Growth of M2 and M3 fluctuated sharply from April to May in association with a swing in household balances related to large tax payments; on balance, both aggregates expanded at a moderate pace over the two months, and available data pointed to further moderate growth in June. For the year through June, M2 expanded at a rate near the upper bound of its range for the year and M3 at a rate somewhat above the upper bound of its range. Total domestic nonfinancial debt has continued to expand in recent months and is near the middle of its range.

The Federal Open Market Committee seeks monetary and financial conditions that will foster price stability and promote sustainable growth in output. In furtherance of these objectives, the Committee reaffirmed at this meeting the ranges it had established in February for growth of M2 and M3 of 1 to 5 percent and 2 to 6 percent respectively, measured from the fourth quarter of 1996 to the fourth quarter of 1997. The range for growth of total domestic nonfinancial debt was maintained at 3 to 7 percent for the year. For 1988, the Committee agreed on tentative ranges

Washington, D.C. 20551. The minutes are published in the Federal Reserve Bulletin and in the Board's annual report.

for monetary growth, measured from the fourth quarter of 1997 to the fourth quarter of 1998, of 1 to 5 percent for M2 and 2 to 6 percent for M3. The Committee provisionally set the associated range for growth of total domestic nonfinancial debt at 3 to 7 percent for 1998. The behavior of the monetary aggregates will continue to be evaluated in the light of progress toward price level stability, movements in their velocities, and developments in the economy and financial markets.

In the implementation of policy for the immediate future, the Committee seeks to maintain the existing degree of pressure on reserve positions. In the context of the Committee's long-run objectives for price stability and sustainable economic growth, and giving careful consideration to economic, financial, and monetary developments, somewhat greater reserve restraint would or slightly lesser reserve restraint might be acceptable in the intermeeting period. The contemplated reserve conditions are expected to be consistent with moderate growth in M2 and M3 over coming months.

By order of the Federal Open Market Committee, August 22, 1997.
