DEPARTMENT OF HEALTH AND HUMAN SERVICES

Indian Health Service

Proposed Information Collection; Indian Health Service, Community Health Representative Activity Reporting Sample

SUMMARY: In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, for opportunity for public comment on proposed information collection projects, the Indian Health Service (IHS) has submitted to the Office of Management and Budget (OMB) a request to review and approve the information collection

listed below. This proposed information collection project was previously published in the **Federal Register** (62 FR 16594, April 7, 1997) and allowed 60 days for public comment.

One public comment was received in response to the notice. The comment came from the attendees at the May 1997, Indian Health Service Aberdeen Area CHR Coordinator meeting. They commented on each point (a-f) listed in the "Request for Comments", section of the notice. Agency response is limited to the comments concerning these points. Overall, they support continued use of the CHR Information System (CHRIS) reporting form (IHS-826, Report of CHR Activities) and its associated manual. However, on point (e), "Ways to enhance the quality, utility, and clarity of the information being collected"; they recommended that Arthritis, Physical Therapy, ENT, and Accidents should be added to the list of Health Area Codes and that "non-specific" should be defined and used on a limited basis. After discussion with other CHR managers, the Agency CHR Program Director determined that a majority of the managers do not favor adding any categories to the current list of Health Area Codes and that most believe that the current categories are adequate. The "non-specific" category was originally defined to be used for all administrative activities, Tribal or community functions, and when representing the Tribe or the CHR program at meetings with other local or national agencies or groups, and it was supposed to be used on a limited basis.

The CHR Program shall instruct the CHR staff accordingly. Based on the above, no changes will be made to the current health area codes and the non-specific category will remain as is. The purpose of this notice is to allow 30 days for public comment to be submitted to OMB.

PROPOSED COLLECTION: Title: 0917-0010 "IHS Community Health Representative Activity Reporting Sample". Type of Information Collection Request: Three-year Reinstatement of 0917-0010 and associated form IHS-826, "Report of Community Health Representative Activities", which expired 02/28/97. Need and Use of Information Collection: Section 107 "Community Health Representative Program" of Public Law 100-713, the Indian Health Care Improvement Act Amendments authorizes the IHS to develop a system to review and evaluate the CHR program. The information collected is used to review and evaluate contract performance (e.g., the number and types of health services being provided); to prepare program reports; to develop program training plans and performance and accreditation standards; to increase the efficiency and effectiveness of the program; and, to meet the management and administrative needs of the CHR program. Affected Public: Individuals.

See Table 1 below for Types of Data Collection Instruments, Estimated Number of Respondents, Number of Responses per Respondent, Average Burden Hour per Response, and Total Annual Burden Hour.

TABLE 1

| Data collection instrument | Estimated Number of respondents | Responses per respondent | Average burden hour per response * | Total annual burden hours |
|----------------------------|---------------------------------|--------------------------|------------------------------------|---------------------------|
| IHS-826 | 1100 | 4 | 0.10 | 6,600 |

* Provided in decimal unit values of an hour and in actual minutes. There are no Capital Costs, Operating Costs and/or Maintenance Costs to report for this information collection.

REQUEST FOR COMMENTS: Your written comments and/or suggestions are invited on one or more of the following points: (a) Whether the information collection activity is necessary to carry out an agency function and whether the IHS processes the information collected in a useful and timely fashion; (b) the accuracy of the public burden estimate (this is the amount of time needed for individual respondents to provide the requested information) and the methodology and assumptions used to determine the estimate; (c) ways to enhance the quality, utility, and clarity of the information being collected; and (d) ways to minimize the public burden

through the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

DIRECT COMMENTS TO OMB: Send your written comments and suggestions regarding the proposed information collection contained in this notice, especially regarding the estimated public burden and associated response time, to: Office of Management and Budget, Office of Regulatory Affairs, New Executive Office Building, Room 10235, Washington, DC 20503, Attention: Desk Officer for IHS.

To request more information on the proposed collection or to obtain a copy
