23. Coalition Against Private Tariffs

[Docket No. EL97-58-000]

Take notice that on August 27, 1997, Coalition Against Private Tariffs (CAPT) filed a Motion for Issuance of a Cease and Desist Order asking that the Commission reassert its exclusive jurisdiction over the terms and conditions of transmission service as they relate to the transaction information requirements of the North American Electric Reliability Council's (NERC) Policy 3, and order NERC, its regional councils and member utilities to cease and desist from imposing those requirements.

NERC Policy 3 establishes requirements for all parties involved in energy interchange transactions and scheduling. As part of these requirements, NERC has developed requirements for transmission customers to file transaction information under an interim Transaction Information System (tagging requirements).¹

CAPT argues that NERC should file its tagging requirements with the Commission for public review and comment. The Commission wants to develop a better understanding of NERC's tagging procedure and its commercial implications. We invite interested persons to submit written comments addressing the issues raised in CAPT's filing. We also request comments on the relationship between the tagging procedure and electronic scheduling of transactions. Commenters are also requested to advise the Commission concerning whether they believe NERC's tagging requirements are inconsistent with the Order Nos. 888 and 888-A pro forma tariff. Commenters should restrict their comments to these issues only.

¹ NERC Operating Policy 3—Interchange, revised July 8, 1997. NERC recently announced that it will release changes to Policy 3, including making the identification of generator resources and loans optional.

Interested persons should submit written comments (an original and 14 paper copies and one copy on a computer diskette in WordPerfect 6.1 format or in ASCII format) on or before October 10, 1997. Comments must be filed with the Office of the Secretary, Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426 and must contain a caption that references Docket No. EL97-58-000. All written comments will be placed in the Commission's public files and will be available for public inspection or copying in the Commission's Public Reference Room during normal business hours. All comments received on diskette will be made available to the public on the Commission's electronic bulletin board (EBB).

Copies of CAPT's filing, which include as an attachment a copy of NERC's Policy 3, are on file with the Commission and are available for public inspection or copying in the Commission's Public Reference Room during normal business hours.

Standard Paragraph

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 18 CFR 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.
