National Park Service

Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects from Pima, Santa Cruz, and Cochise Counties, AZ in the Control of the Coronado National Forest, United States Forest Service, Tucson, AZ

AGENCY: National Park Service

ACTION: Notice

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003 (d), of the

completion of an inventory of human remains and associated funerary objects from Pima, Santa Cruz, and Cochise Counties, AZ in the control of the Coronado National Forest, United States Forest Service, Tucson, AZ.

A detailed assessment of the human remains was made by U.S. Forest Service, Amerind Foundation, and Arizona State Museum professional staff in consultation with representatives of the Ak-Chin Indian Community, the Fort Sill Apache Tribe of Oklahoma, the Gila River Indian Community, the Mescalero Apache Tribe, the Salt River Pima-Maricopa Indian Community, the San Carlos Apache Tribe, the Tohono O'odham Nation, and the White Mountain Apache Tribe.

During the early 1950s, human remains representing one individual were recovered from Ramanote Cave, Santa Cruz County during legally authorized excavations by Dr. Charles C. DiPeso, Amerind Foundation. No known individual was identified. The one associated funerary object, a woven fiber mat, can not be located at present.

The Ramanote Cave site was utilized during the protohistoric period 1450-1700 A.D. based on ceramic seriation. Continuities of ethnographic materials indicate affiliation between this protohistoric site and historic and present day Piman and O'odham cultures. Oral traditions of the Tohono O'odham Nation, Gila River Indian Community, Ak-Chin Indian Community, and the Salt River Pima-Maricopa Indian Community support the cultural affiliation of these four Indian tribes with Hohokam sites in this area of southeastern Arizona.

In 1976, human remains representing two individuals were recovered from the Patagonia School site, Santa Cruz County during legally authorized excavations conducted by Donald G. Wood. No known individuals were identified. No associated funerary objects are present.

The Patagonia School site has been identified as a small Hohokam habitation occupied between 850-1300 A.D. based on architecture and material culture. Continuities of ethnographic materials, technology, and architecture indicate the affiliation of Hohokam sites in the area with historic and present day Piman and O'odham cultures. Oral traditions of the Tohono O'odham Nation, Gila River Indian Community, Ak-Chin Indian Community, and the Salt River Pima-Maricopa Indian Community support the cultural affiliation of these four Indian tribes with Hohokam sites in this area of southeastern Arizona.
