DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 20

RIN 1018-AE14

Migratory Bird Hunting; Late Seasons and Bag and Possession Limits for Certain Migratory Game Birds

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule.

SUMMARY: This rule prescribes the hunting seasons, hours, areas, and daily bag and possession limits for general waterfowl seasons and those early seasons for which States previously deferred selection. Taking of migratory birds is prohibited unless specifically provided for by annual regulations. This rule permits the taking of designated species during the 1997–98 season.

DATE: This rule takes effect on September 30, 1997.

ADDRESSES: The public may inspect comments during normal business hours in room 634, Arlington Square Building, 4401 N. Fairfax Drive, Arlington, Virginia.

FOR FURTHER INFORMATION CONTACT: Paul R. Schmidt, Chief, Office of Migratory Bird Management, U.S. Fish and Wildlife Service, Department of the Interior, ms 634—ARLSQ, 1849 C Street, NW., Washington, DC 20240, (703) 358– 1714.

SUPPLEMENTARY INFORMATION:

Regulations Schedule for 1997

On March 13, 1997, the Service published in the Federal Register (62 FR 39712) a proposal to amend 50 CFR part 20. The proposal dealt with the establishment of seasons, limits, and other regulations for migratory game birds under §§ 20.101 through 20.107, 20.109, and 20.110 of subpart K. These regulations were proposed for certain designated members of the avian families Anatidae (ducks, geese, and swans), Columbidae (doves and pigeons), Gruidae (cranes), Rallidae (rails, coots, moorhens, and gallinules), and Scolopacidae (woodcock and snipe), designated as "migratory game birds" in conventions between the United States and several foreign nations for their protection and management. All other birds designated as migratory (under 10.13 of Subpart B of 50 CFR part 10) in the aforementioned conventions may not be hunted. On June 6, 1997, the Service published in the Federal Register (62 FR 31298) a second document providing supplemental proposals for early- and late-season migratory bird hunting regulations frameworks. The June 6 supplement also provided detailed information on the 1997–98 regulatory schedule and announced the Service Migratory Bird Regulations Committee and Flyway Council meetings.

On June 27, 1997, the Service held a public hearing in Washington, DC, as announced in the March 13 and June 6 **Federal Registers**, to review the status of migratory shore and upland game birds. The Service discussed hunting regulations for these species and for other early seasons. On July 23, 1997, the Service published in the **Federal Register** (62 FR 39712) a fourth document specifically dealing with proposed early-season frameworks for the 1997–98 season.

On August 7, 1997, the Service held a public hearing in Washington, DC, as announced in the March 13, June 6, and July 23 Federal Registers, to review the status of waterfowl and discuss proposed hunting regulations for late seasons. On August 20, 1997, the Service published a fifth document containing final frameworks for early migratory bird hunting seasons from which wildlife conservation agency officials from the States, Puerto Rico, and the Virgin Islands selected earlyseason hunting dates, hours, areas, and limits. On August 25, 1997, (62 FR 44229), the Service published a sixth document containing proposed frameworks for the 1997-98 late-season migratory bird hunting regulations. On August 29, 1997, the Service published in the Federal Register (62 FR 46512) a seventh document consisting of a final rule amending subpart K of title 50 CFR part 20 to set hunting seasons, hours, areas, and limits for early seasons.

The Service published final lateseason frameworks for migratory game bird hunting regulations, from which State wildlife conservation agency officials selected late-season hunting dates, hours, areas, and limits for 1997– 98 in an eighth document in the September 26, 1997, **Federal Register**.

The final rule described here is the ninth and final in the series of proposed, supplemental, and final rulemaking documents for migratory game bird hunting regulations for 1997– 98 and deals specifically with amending subpart K of 50 CFR part 20 to set hunting seasons, hours, areas, and limits for species subject to late-season regulations and those for early seasons that States previously deferred.

NEPA Consideration

NEPA considerations are covered by the programmatic document, "Final

Supplemental Environmental Impact Statement: Issuance of Annual Regulations Permitting the Sport Hunting of Migratory Birds (FSES 88– 14)," filed with EPA on June 9, 1988. The Service published a Notice of Availability in the June 16, 1988, **Federal Register** (53 FR 22582). The Service published its Record of Decision on August 18, 1988 (53 FR 31341). Copies of these documents are available from the Service at the address indicated under the caption **ADDRESSES**.

Endangered Species Act Consideration

As in the past, the Service designs hunting regulations to remove or alleviate chances of conflict between migratory game bird hunting seasons and the protection and conservation of endangered and threatened species. Consultations were conducted to ensure that actions resulting from these regulatory proposals will not likely jeopardize the continued existence of endangered or threatened species or result in the destruction or adverse modification of their critical habitat. Findings from these consultations are included in a biological opinion and may have modified some regulatory measures previously proposed. The final frameworks here reflect any such modifications. The Service's biological opinions resulting from its Section 7 consultation are public documents available for public inspection in the Service's Division of Endangered Species and Office of Migratory Bird Management, at the address indicated under the caption ADDRESSES.

Executive Order (E.O.) 12866

This rule is economically significant and was reviewed by the Office of Management and Budget (OMB) under E.O. 12866.

Congressional Review

In accordance with Section 251 of the Small Business Regulatory Enforcement Fairness Act of 1996 (5 U.S.C. 8), this rule has been submitted to Congress and has been declared major. Because this rule establishes hunting seasons, this rule qualifies for an exemption under 5 U.S.C. 808(1); therefore, the Department determines that this rule shall take effect immediately.

Regulatory Flexibility Act

These regulations have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq). In the March 13, 1997, **Federal Register**, the Service reported measures it took to comply with requirements of the Act. One measure was to prepare a Small Entity Flexibility Analysis (Analysis) in 1996 documenting the significant beneficial economic effect on a substantial number of small entities. The Analysis estimated that migratory bird hunters would spend between \$254 and \$592 million at small businesses in 1996. Copies of the Analysis are available upon request from the MBMO.

Paperwork Reduction Act

The Department examined these regulations under the Paperwork Reduction Act of 1995 (44 U.S.C. 3507(d)). Under the Act, information collections must be approved by the Office of Management and Budget (OMB). The Service uses the various information collection requirements contained in this rule to develop future migratory game bird hunting regulations. Specifically, the information collection requirements of the Migratory Bird Harvest Information Program have been approved by OMB and assigned clearance number 1018-0015. This information is used to provide a sampling frame for voluntary national surveys to improve Service harvest estimates for all migratory game birds in order to better manage these populations. The information collection requirements of the Sandhill Crane Harvest Questionnaire have been approved by OMB and assigned clearance number 1018-0023. The information from this survey is used to estimate the magnitude, the geographical and temporal distribution

of harvest, and the portion it constitutes of the total population.

Regulations Promulgation

The rulemaking process for migratory game bird hunting must, by its nature, operate under severe time constraints. However, the Service intends that the public be given the greatest possible opportunity to comment on the regulations. Thus, when the proposed rulemaking was published, the Service established what it believed were the longest periods possible for public comment. In doing this, the Service recognized that when the comment period closed time would be of the essence. That is, if there were a delay in the effective date of these regulations after this final rulemaking, the States and Territories would have insufficient time to establish and publicize the necessary regulations and procedures to implement their decisions. The Service therefore finds that "good cause" exists, within the terms of 5 U.S.C. 553(d)(3) of the Administrative Procedure Act, and these regulations will, therefore, take effect immediately upon publication. Accordingly, with each conservation agency having had an opportunity to participate in selecting the hunting seasons desired for its State or Territory on those species of migratory birds for which open seasons are now prescribed, and consideration having been given to all other relevant matters presented, certain sections of title 50, chapter I,

subchapter B, part 20, subpart K, are hereby amended as set forth below.

Unfunded Mandates Reform Act

The Service has determined and certifies in compliance with the requirements of the Unfunded Mandates Act, 2 U.S.C. 1502 *et seq.*, that this rulemaking will not impose a cost of \$100 million or more in any given year on local or State government or private entities.

Civil Justice Reform—Executive Order 12988

The Department, in promulgating this rule, has determined that these regulations meet the applicable standards provided in Sections 3(a) and 3(b)(2) of Executive Order 12988.

List of Subjects in 50 CFR Part 20

Exports, Hunting, Imports, Reporting and recordkeeping requirements, Transportation, Wildlife.

Dated: September 23, 1997.

Donald J. Barry,

Acting Assistant Secretary for Fish and Wildlife and Parks.

For the reasons set out in the preamble, title 50, chapter I, subchapter B, part 20, subpart K is amended as follows.

1. The authority citation for part 20 continues to read as follows:

Authority: 16 U.S.C. 703–712; and 16 U.S.C. 742 a–j.

BILLING CODE 4310-55-F

Sora	æ	
Note - The fullowing semical remitations provided for by §§20.104, 20.105, 20.106, 20.107, and 20.109 of 50 CFR	part 20 will not appear in the Code of Federal Regulations because of their seasonal nature.	

CHECK STATE REGULATIONS FOR ADDITIONAL RESTRICTIONS AND DELINEATIONS OF GEOGRAPHICAL AREAS. SPECIAL RESTRICTIONS MAY APPLY ON FEDERAL AND STATE PUBLIC HUNTING AREAS AND FEDERAL INDIAN RESERVATIONS.

Section 20.104 is amended by adding the entries for the following States in alphabetical order to read as follows:

\$20.104 Seasons. limits. and shooting hours for rails. woodcock. and common snips.

Subject to the applicable provisions of the preceding sections of this part, areas open to hunting, respective open seasons (dates inclusive), shooting and hawking hours, and daily bag and possession limits for the species designated in this section are prescribed as follows: Shooting and hawking hours are one-half hour before sunrise until sunset, except as otherwise restricted by State requisitions. Area descriptions were published in the August 20 and September 26 <u>Exderal Registars</u>.

NOTE: The following seasons are in addition to the seasons published previously in the August 29, 1997, <u>Fadaral</u> Registrer (62 FR 46152).

(8) In <u>New Maxico</u>, duck and goose hunting is closed in San Juan County from October 27 through November 7 and December 8 through December 19. (9) In <u>New Maxico</u>, the bag limit is 1 common moorhen deily and 2 in possession; there is no open season on the purple galimule. (10) In <u>Orngoon</u>, the Northwest Special Permit Zone is closed to all goose hunting, except for designated areas. (10) In <u>Orngoon</u>, the Northwest Special Permit Zone is closed to all goose hunting, except for designated areas. See State regulations for specific boundary descriptions, times, days, and other conditions of the special permit

essent.
(11) In <u>Orespon</u>, that portion of Coos, Curry, and Dougles Counties west of US 101 is closed to all Canada goose hunting.
(12) In <u>Utab</u>, the shooting hours are 8:00 a.m. to sunset on October 4 and November 1.
(13) In <u>Utab</u>, the Weshington County seasons is for Canada geese only.
(14) In <u>Vashington</u>, faily bag and possession limits may include no more than 3 and 6 light geese, respectively.
(15) In <u>Washington</u>. State Goose Area 2, hunting is only on Saturdays. Sundays, Wednesdays, and certain holidays. In <u>State Goose Area 2, hunting is everyiday</u>. See State regulations for details including shooting hours.
(16) In <u>Washington</u>, see State regulations for specific dates and conditions of permit hunts and closures for Canada

In Washington, brant may be hunted in Skagit and Pacific Counties only; see State regulations for specific 00656. (17) In dates.

(f) Youth Waterfowl Hunting Day

The following seasons are open only to youth hunters. Youth Hunters must be accompanied into the field by an adult at least 18 years of age. This adult can not duck hunt but may participate in other open seasons.

Definition

Youth Hunters: Includes youths 15 years of age or younger.

<u>MOTE</u>: The following seasons are in addition to the seasons published previously in the August 29, 1997, Eaderal <u>Radister</u> (62 FR 46152). Bag and possession limits will conform to those set for the regular season.

North Zone South Zone

Section 20.109 is amended by adding the entries for the following States in alphabetical order to read as follows:

\$20.109 Extended seasons, limits, and hours for taking migratory game birds by falconry

unuter to the supplicable provisions of the preceding sections of this part, areas open to hunting, respective open seasons (dates inclusive), hawking hours, and daily bag and possession limits for the species designated in this section are prescribed as follows:

Hewking hours are one-half hour before sunrise until sunset except as otherwise restricted by State regulations Area descriptions were published in the August 20 and September 26 <u>Federal Registers</u>.

Limits: The delity bag limit may include no more than 3 migratory game birds, singly or in the aggregare. The possession limit is twice the delity bag limit.

These limits apply to falcorry during both regular hunting seasons and extended falcorry seasons -- unless further restricted by State regulations. The falcorry bag and possession limits are not in addition to regular season limits. Unless otherwise specified, extended falcorry for ducks does not include sea ducks within the special sea duck areas.

Attriough many States permit falconry during the gun seasons, only extended falconry seasons are shown below. Please consult State regulations for details.

Enderal NOTE: The following seasons are in addition to the seasons published previously in the August 29, 1997, Bagistrat (62 FR 46152)
