#### **FEDERAL COMMUNICATIONS COMMISSION**

[CC Docket No. 91-281]

#### **Calling Number Identification Service; Caller ID**

**AGENCY:** Federal Communications  
Commission.

**ACTION:** Notice.

**SUMMARY:** The Federal Communications Commission (Commission) issued two Public Notices concerning Petitions for Reconsideration filed by Siemens Business Communications, Inc. (Siemens) and US West Communications, Inc. (USW). The petitions address various aspects of a Commission order released on March 25, 1997.

**DATES:** Effective October 9, 1997. Interested parties may file comments regarding these petitions on or before October 29, 1997. Reply comments may be filed by November 10, 1997.

**ADDRESSES:** Comments should be sent to William F. Caton, Acting Secretary, Federal Communications Commission, 1919 M Street NW., Washington, DC 20554. Copies of documents filed with the Commission may be obtained from the International Transcription Service (ITS), 1231 20th Street NW., Washington, DC 20036, (202) 857-3800. Documents are also available for review and copying at the Federal Communication Commission Reference Center, Room 239, 1919 M Street, N.W., Washington, D.C., Monday, from 9:45 a.m. to 4:30 p.m., and Tuesday through Thursday, from 9:00 a.m. to 4:30 p.m., (202) 418-0029.

**FOR FURTHER INFORMATION CONTACT:**

*Technical Information:* Debra Harper, 202-418-1574.

*Legal Information:* Alan Thomas, 202-418-2338.

**SUPPLEMENTARY INFORMATION:** On July 23, 1997, Siemens Business Communication Systems, Inc. (Siemens) filed a petition requesting that the Commission reconsider certain of its rules issued in *Rules and Policies Regarding Calling Number Identification Service—Caller ID*, Third Report and Order, Memorandum Opinion and Order on Further Reconsideration, and Memorandum Opinion and Order on Reconsideration, CC Docket No. 91-281, FCC 97-103 (62 FR 34015 June 24, 1997). Specifically, Siemens states that: the Commission's rules are unenforceable against private branch exchange (PBX) owners/operators because the language of the adopted regulations applies only to carriers; actual notice of the Commission's rules has not been provided to PBX owners/operators and will result in widespread non-compliance; manufacturers have only eight months, as opposed to the needed twenty-four months, to incorporate the required upgrades; the Commission failed to conduct a cost-benefit analysis before requiring upgrades of currently installed PBX systems; and that PBX systems should enjoy the same exemptions as granted to Centrex systems that currently use \*6 or \*8 for dialing functions other than calling party number (CPN) blocking or unblocking. Siemens recommends that the Commission take the following action: suspend the March 25, 1998 compliance deadline; grandfather all in-place PBX equipment; allow PBX manufacturers at least two years or until January 1, 2000 to incorporate CPN blocking and unblocking signaling in new PBX equipment; allow PBX systems the same dialing exemptions allowed Centrex systems; and clarify which PBX signaling methods are acceptable for passing CPN blocking and unblocking information.

On July 24, 1997, US West Communications, Inc. (USW) Ohio filed a petition requesting that the Commission reconsider certain of its rules established in *Rules and Policies Regarding Calling Number Identification Service—Caller ID*, Third Report and Order, Memorandum Opinion and Order on Further Reconsideration, and Memorandum Opinion and Order on Reconsideration, CC Docket No. 91-281, FCC 97-103 (62 FR 34015 June 24, 1997). USW states that Nortel DMS-100 switches are not

capable of providing \*82 blocking mechanisms and, thus, requests a reconsideration of blocking code requirements with respect to party lines. Alternatively, USW requests a waiver with respect to customers served by Nortel DMS-100 switches.

Comments for both petitions may be filed on or before October 29, 1997. Reply comments may be filed by November 10, 1997.
