

of the 21st Century will meet in closed session on October 29–30, 1997 at Strategic Analysis, Inc., 4001 N. Fairfax Drive, Arlington, Virginia.

The mission of the Defense Science Board is to advise the Secretary of Defense through the Under Secretary of Defense for Acquisition and Technology on scientific and technical matters as they affect the perceived needs of the Department of Defense. At this meeting the Task Force will address the issues involved in assuring that the U.S. has adequate/appropriate technology base from which to develop sustained military superiority for the 21st century; such a base includes technology developed by DoD, but also access to technology developed elsewhere as well as an assured stream of scientists and engineers that will develop technology and build military materiel. Many internal and external changes influence DoDs options.

In accordance with section 10(d) of the Federal Advisory Committee Act, Pub. L. 92–463, as amended (5 U.S.C. App. II, (1994)), it has been determined that this DSB Task Force meeting concerns matters listed in 5 U.S.C. 552b(c)(1), and that accordingly this meeting will be closed to the public.
