POLICY JUSTIFICATIONGreece - HARPOON Missiles

The Government of Greece has requested a possible sale of 20 HARPOON missiles with missile containers. The estimated cost is \$35 million.

This proposed sale will contribute to the foreign policy and national security objectives of the United States by improving the military capabilities of Greece and enhancing weapon system standardization and interoperability of this important NATO ally.

The HARPOON missiles will increase the military defensive posture of the Hellenic Navy as well as augment its current HARPOON inventory of surface deployed missiles. The missiles will be provided to Greece in accordance with and subject to the limitations on use and transfer of the Arms Export Control Act, as embodied in the terms of sale. This proposed sale will not adversely affect either the military balance in the region or U.S. efforts to encourage a negotiated settlement of the Cyprus question. Greece will have no difficulty absorbing these additional HARPOON missiles into its armed forces.

The prime contractor will be the McDonnell Douglas Aerospace Company, St. Louis, Missouri. There is an offset agreement proposed to be entered into with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government personnel or contractor representatives to Greece.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Certification Under Section 620C(d)  
Of The Foreign Assistance Act of 1961, As Amended

Pursuant to section 620C(d) of the Foreign Assistance Act of 1961, as amended (the Act), Executive Order 12163 (sec. 1-201(a)(13)) and State Department Delegation of Authority No. 145, (sec. 1(a)(1) and 4(d)), I hereby certify that the furnishing to Greece of AMRAAM and HARPOON missiles and program support at an estimated cost of \$42 million and \$30 million respectively, is consistent with the principles contained in section 620C(b) of the Act.

This certification will be made part of the notification to the Congress under section 36(b) of the Arms Export Control Act regarding the proposed sale of the above-named articles and services, and is based on the justification accompanying said notification, of which said justification constitutes a full explanation.

## Transmittal No. 98-05

Notice of Proposed Issuance of Letter of Offer  
Pursuant to Section 36(b)(1)  
of the Arms Export Control Act

Annex  
Item No. vi

(vi) Sensitivity of Technology:

1. The HARPOON surface launch missile RGM-84G BLK 1G has the following classified components, including applicable technical and equipment documentation and manuals:

Guidance Section Components: Confidential

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures or equivalent systems which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

3. A determination has been made that the recipient country can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This proposed sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.
