**NUCLEAR REGULATORY COMMISSION**

**Workshop Notice To Solicit Public Comments on Draft Regulatory Guide and Standard Review Plan Section for Risk-Informed Inservice Inspection Programs for Piping at Nuclear Power Plants**

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Notice of change in date for workshop.

**SUMMARY:** The **Federal Register** notice, dated October 15, 1997 (Volume 62, Number 199, page 53663) announced the availability and solicited public comment on drafts of a regulatory guide and a Standard Review Plan Section for risk-informed inservice inspection programs for piping. These issuances follow the Commission's August 16, 1995 (60 FR 42622) policy statement on the "Use of PRA Methods in Nuclear Regulatory Activities." In June 1997, the NRC published for public comment (62 FR 34321) four draft guides, three standard review plans and a NUREG series document on the use of PRA in nuclear power reactor licensing. The NRC is developing guidance for power reactor licensees on acceptable methods for using probabilistic risk assessment (PRA) information and insights in support of plant-specific applications to change the current licensing basis (CLB) for inservice inspection of piping, known as risk-informed inservice inspection (RI-ISI) programs. The use of such PRA information and guidance will be voluntary. To facilitate comment, the Commission will conduct a workshop to explain the draft documents and answer questions. **DATES:** The workshop will be held on November 20-21, 1997 (not on November 19th, as announced in the October 15, 1997, **Federal Register**).

**Registration**

There is no registration fee for this workshop. However, we request that interested parties register in writing to Kesselman-Jones, 8912 James Ave., NE., Albuquerque, NM 87111, their intent on participating in the workshop. Please

include name, organization, address and phone number with your registration request. Notification of attendance (e.g., pre-registration) is requested so that adequate space, etc., for the workshop can be arranged. Questions regarding meeting registration or fees should be directed to Kesselman-Jones, phone (505) 271-0003, fax (505) 271-0482, e-mail [kessjones@aol.com](mailto:kessjones@aol.com).

Onsite registration begins on November 19 at 3:00 P.M. The comment period expires on January 13, 1997. Comments received after this date will be considered if it is practical to do so, but the Commission is able to assure consideration only for comments received on or before this date. See the October 15, 1997 Notice for additional details.

**Implementation**

It is intended that the risk-informed regulatory guide on inservice inspection of piping (DG-1063), and its associated Standard Review Plan Section 3.9.8, be published by early to mid CY 1998.

Dated at Rockville, Maryland, this 29th day of October 1997.

For the Nuclear Regulatory Commission.

**NUCLEAR REGULATORY COMMISSION**

**NRC/Nuclear Pharmacy and Radiopharmaceutical Manufacturer Industry—Public Workshop on the Public Comments on Draft Regulatory Guides DG-0006 and DG-0007**

**AGENCY:** U.S. Nuclear Regulatory Commission.

**ACTION:** Notice of meeting.

**SUMMARY:** The U.S. Nuclear Regulatory Commission will be holding a public meeting to discuss the public comments received on two draft regulatory guides: Draft Regulatory Guide DG-0006, "Guide for the Preparation of Applications for Commercial Nuclear Pharmacy Licenses," and Draft Regulatory Guide DG-0007, "Guide for the Preparation of Applications for Licenses to Authorize Distribution of Various Items to Commercial Nuclear Pharmacies and Medical Use Licensees." These documents provide guidance to individuals applying for commercial nuclear pharmacy and radiopharmaceutical manufacturer distribution licenses. Representatives of

these categories of licensees have been invited to discuss the public comments on the draft guides and the staff's proposed resolutions of the comments, as well as alternative solutions presented at the meeting. (Draft Regulatory Guide DG-0007 also includes guidance for sealed source and device manufacturers, but since this guidance was not changed, it will not be discussed at this meeting.) The workshop will be held at NRC Headquarters in Rockville, MD.

**DATES:** The meeting will begin at 8:30 a.m. and close at 4:30 p.m., on November 21, 1997.

**ADDRESSES:** U.S. Nuclear Regulatory Commission, One White Flint North, 11555 Rockville Pike (Auditorium), Rockville, MD 20852-2738.

**FOR FURTHER INFORMATION CONTACT:** Donna-Beth Howe, Ph.D., U.S. Nuclear Regulatory Commission, Office of Nuclear Material Safety and Safeguards, MS T8F5, Washington, DC 20555, telephone (301) 415-7848, e-mail dbh@nrc.gov.

**SUPPLEMENTARY INFORMATION:** NRC published three draft regulatory guides, in March 1997, for public comment. Two of the draft guides (Draft Regulatory Guide DG-0006, "Guide for the Preparation of Applications for Commercial Nuclear Pharmacy Licenses," and Draft Regulatory Guide DG-0007, "Guide for the Preparation of Applications for Licenses to Authorize Distribution of Various Items to Commercial Nuclear Pharmacies and Medical Use Licensees") provide guidance to individuals applying for commercial nuclear pharmacy and radiopharmaceutical manufacturer distribution licenses issued pursuant to Title 10, U.S. Code of Federal Regulations (10 CFR) part 32, "Specific Domestic Licenses to Manufacture or Transfer Certain Items Containing Byproduct Material." The third draft guide (Draft Regulatory Guide DG-0009, "Proposed Supplement to Regulatory Guide 10.8, Revision 2, "Guide for the Preparation of Applications for Medical Use Programs") provides guidance for part 35 medical use licensees. The official comment period for all three guides closed July 31, 1997.

On November 21, 1997, NRC will be holding a public meeting, at NRC Headquarters, with invited nuclear pharmacy and radiopharmaceutical manufacturer industry representatives to discuss the public comments received on DG-0006 and DG-0007 and staff's proposed resolutions of these comments, as well as any alternatives presented at the meeting. In addition,

the staff will explore, with the meeting participants, the extent to which these regulatory guides allow for flexibility in the licensing process and represent risk-informed and performance-oriented guidance.

The workshop will not address the third draft guide (DG-0009), which is for 10 CFR part 35 medical use licensees, and will not include discussion of the staff's efforts to revise part 35. Separate public meetings are being held to solicit public input on the revision of 10 CFR part 35 (62 FR 53249).

Larry W. Camper, Chief, Medical, Academic, and Commercial Use Safety Branch, will chair the workshop. To ensure participation by the spectrum of interests that may be impacted by the regulatory guides, a panel of nuclear pharmacy and radiopharmaceutical manufacturer industry representatives has been invited and will lead the discussion. Other members of the public are welcome to attend, and the public will have the opportunity to comment at periodic intervals during the workshop. To keep the workshop focused on the public comments and the staff's resolution of those comments, the workshop will have a pre-defined agenda, but the format will be sufficiently flexible to allow for the introduction of alternative resolutions to the comments and related issues that the participants may want to raise. The workshop commentary will be transcribed and made available to the invited participants and the public.

Persons who wish to provide a written statement should submit a reproducible copy to Dr. Howe (address listed previously) by November 15, 1997. Statements must pertain to the specific scope of the workshop. Persons who wish to obtain copies of the draft regulatory guides and public comments received may contact the NRC Public Document Room (PDR) or Dr. Howe.

The transcript and written comments will be available for inspection, and copying, for a fee, at the NRC PDR, 2120 L Street, N.W., Lower Level, Washington, DC 20555, or by writing to the U.S. Nuclear Regulatory Commission, Attention: NRC Public Document Room, Washington, DC 20555-0001, or by phoning (202) 634-3273, on or about December 1, 1997.

Dated at Rockville, MD this 28th day of October 1997.

For the Nuclear Regulatory Commission.
