## 1. Program Background and Objectives

The Center for Mental Health Services (CMHS) has been given a statutory mandate to take a national leadership role in the development and demonstration of improved mental health services. Toward that end, the Center facilitates the application of scientifically established findings and practice-based knowledge to prevent and treat mental disorders, improve access, reduce barriers and promote high quality, effective programs and services for people with, or at risk for, these disorders.

## 2. Special Concerns

None.

## 3. Criteria for Review and Funding

Competing applications requesting funding under the specific project activity in Section 4 will be reviewed for technical merit in accordance with established PHS/SAMHSA peer review procedures. Applications that are accepted for review will be assigned to an Initial Review Group (IRG) composed primarily of non-Federal experts. Applications will be assigned scores if they are considered to have sufficient merit for program staff to consider as candidates for funding.

### 3.1 General Criteria

As published in the Federal Register on July 2, 1993 (Vol. 58, No. 126), SAMHSA's "Peer Review and Advisory Council Review of Grant and Cooperative Agreement Applications and Contract Proposals," peer review groups will take into account, among other factors as may be specified in the application guidance materials, the following general criteria:

- Potential significance of the proposed project;
- Appropriateness of the applicant's proposed objectives to the goals of the specific program;
- Adequacy and appropriateness of the proposed approach and activities;
- Adequacy of available resources, such as facilities and equipment;
- Qualifications and experience of the applicant organization, the project director, and other key personnel; and
- Reasonableness of the proposed budget.

### 3.2 Funding Criteria for Scored Applications

Applications will be considered for funding on the basis of their overall technical merit as determined through the IRG and the CMHS National Advisory Council review process.

Other funding criteria will include:

- Availability of funds.

Additional funding criteria specific to the programmatic activity may be included in the application guidance materials.

### 4. Specific FY 1997 Activity: Comprehensive Community Mental Health Services for Children and Their Families

- *Application Deadline:* April 11, 1997.

- *Purpose:* Under Section 561(a) of the Public Health Service Act grants will be awarded to implement, in one or more communities, a broad array of community-based and family-focused services for children with serious emotional disturbance and their families, including individualized case planning and coordination, and to enable communities to integrate child- and family-serving agencies, including health, mental health, substance abuse treatment, child welfare, education, and juvenile justice into a local comprehensive system of care. The statute requires that an evaluation of the system(s) of care implemented under the program be conducted and that it include, among other things, longitudinal studies of the outcomes of services provided by such systems.

The primary goal of the program is to successfully implement systems of care at the grant sites. A second goal after implementing systems of care, is evaluation of the outcomes of services delivered under the system. This will be accomplished through a national multi-site evaluation conducted under a separate contract and grantees will be required to cooperate with the multi-site evaluation contractor. The final goal of the program is to use the results of both the system development efforts of each service site and the results of the descriptive, process and outcome evaluation to shape future program direction with proven exemplary practices that work best for children and their families.

- *Priorities:* None.

- *Eligible Applicants:* Eligible entities include States (as defined in Section 2 of the PHS Act), political subdivisions of States, and Indian tribes or tribal organizations (as defined in Section 4(b) and Section 4(c) of the Indian Self-Determination and Education

Assistance Act). Applications from all State level, political subdivisions of States (e.g., counties, cities), Tribe or tribal organization child-serving agencies are allowed. In order for an entity to be eligible, a plan must be in place for the development of a system of care for community-based services for children with a serious emotional disturbance approved by the Secretary of the U.S. Department of Health and Human Services per Sec. 564(b) of the PHS Act. For the purposes of this program, an approved State Mental Health Plan for Children and Adolescents with Serious Emotional Disturbance, submitted under Pub. L. 102-321, will be accepted as such a plan.

- *Grants/Amount:* Approximately \$6-9 million will be available to support six (6) to nine (9) awards under this GFA in FY 1997. Actual funding will depend upon the availability of funds at the time of award. These grants are for a period of 5 years; it is anticipated that approximately \$1 million will be available to each grantee in year one; \$1 million in year two; \$2 million in year three, \$1.5 million in year four, and \$1.5 million in five. An applicant must arrange and demonstrate the availability of match of non-Federal funds in mandated ratios.

### 5. Public Health System Reporting Requirements

The Public Health System Impact Statement (PHSIS) is intended to keep State and local health officials apprised of proposed health services grant and cooperative agreement applications submitted by community-based nongovernmental organizations within their jurisdictions.

Community-based nongovernmental service providers who are not transmitting their applications through the State must submit a PHSIS to the head(s) of the appropriate State and local health agencies in the area(s) to be affected not later than the pertinent receipt date for applications. This PHSIS consists of the following information:

- A copy of the face page of the application (Standard form 424).
- A summary of the project (PHSIS), not to exceed one page, which provides:
  - A description of the population to be served.
  - A summary of the services to be provided.
  - A description of the coordination planned with the appropriate State or local health agencies.

State and local governments and Indian Tribal Authority applicants are not subject to the Public Health System Reporting Requirements.

Application guidance materials will specify if the activity described above is/is not subject to the Public Health System Reporting Requirements.

### 6. PHS Non-Use of Tobacco Policy Statement

The PHS strongly encourages all grant and contract recipients to provide a smoke-free workplace and to promote the nonuse of all tobacco products. In addition, Public Law 103-227, the Pro-Children Act of 1994, prohibits smoking in certain facilities (or in some cases, any portion of a facility) in which regular or routine education, library, day care, health care or early childhood development services are provided to children. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.

### 7. Executive Order 12372

Applications submitted in response to the FY 1997 activity listed above is

subject to the intergovernmental review requirements of Executive Order 12372, as implemented through DHHS regulations at 45 CFR Part 100. E.O. 12372 sets up a system for State and local government review of applications for Federal financial assistance. Applicants (other than Federally recognized Indian tribal governments) should contact the State's Single Point of Contact (SPOC) as early as possible to alert them to the prospective application(s) and to receive any necessary instructions on the State's review process. For proposed projects serving more than one State, the applicant is advised to contact the SPOC of each affected State. A current listing of SPOCs is included in the application guidance materials. The SPOC should send any State review process recommendations directly to: Office of Extramural Activities Review, Substance Abuse and Mental Health

Services Administration, Parklawn Building, Room 17-89, 5600 Fishers Lane, Rockville, Maryland 20857.

The due date for State review process recommendations is no later than 60 days after the specified deadline date for the receipt of applications. SAMHSA does not guarantee to accommodate or explain SPOC comments that are received after the 60-day cut-off.
