

2. Description of Proposed Action

The basic design of the interim plan consists of beachfill with a minimum berm width of 90 feet (ft) at elevation +9.5 ft NGVD, and a minimum 25 ft wide dune at elevation +15 ft NGVD. Proposed dune slopes are 1V:5H to Mean Low Water (MLW), and 1V:30H below MLW.

Variations of this basic design plan occur between Kismet and Point O'Woods and at Old Inlet in the Federal Wilderness Area. The dune and berm elevations from Kismet to Point O'Woods were increased to 18 ft NGVD and 11.5 ft NGVD, respectively to provide a 44 year level of protection. This modification is necessitated by the low elevations north of the dune in these areas.

Due to the environmental sensitivity of the Wilderness Area, and concerns raised by the Department of the Interior, fill in Old Inlet has been deferred. The District instead recommends use of a feeder beach and stockpile at Smith Point County Park. The deferred construction could be analyzed and implemented in the future, to minimize the negative environmental impacts associated with repeated breach closure efforts.

3. Reasonable Alternative Actions

In addition to the "No Action" alternative, the interim storm damage protection study will consider variations of the beach fill alternative to identify a short term solution to the severe erosion that has occurred within the study area and which continues to threaten the mainland communities with increased exposure to storm damages.

4. Scoping Process

a. Public Involvement

Additional scoping correspondence detailing the proposed plan will be distributed to all interested public and private agencies and organizations with the intent of receiving opinions all from interested parties.

b. Scoping Meetings

The scoping meetings are intended to assist in defining the focus of the EIS issues. A public notice issued at a later date will provide the dates, times and places of the scoping meetings. Further, the U.S. Army Corps of Engineers will provide ample opportunity for public participation in defining the issues to be addressed in the EIS and in reviewing and commenting on the draft EIS. Additions to this mailing list can be made by notifying the project EIS coordinator.

c. Significant Issues Requiring In-Depth Analysis

1. Water Quality Impacts; 2. Archaeological and Cultural Resources Impacts; 3. Aquatic and Terrestrial Resources Impacts; 4. Impacts to Shorebird Populations; 5. Recreational Impacts; 6. Economic Impacts; 7. Impacts to Longshore Sand Transport.

d. Environmental Review and Consultation

Review will be conducted as outlined in the Council on Environmental Quality regulations dated November 29, 1983 (40 CFR parts 1500-1508) and U.S. Army Corps of Engineer regulation ER 200-2-2 dated March 4, 1988.

e. Federal Agency Participation in the EIS Process

Federal agencies with an interest in this EIS effort are requested to participate as cooperating agencies pursuant to 40 CFR Part 1501.6. All interested federal agencies are requested to submit a letter of intent to Colonel Gary Thomas, District Engineer at the above address.

5. Estimated Date of DEIS Availability

June 1998.

Gregory D. Showalter,

Army Federal Register Liaison Officer.

Notice of Intent To Prepare an Environmental Impact Statement (EIS) for the Stabilization of the Bluff Toe at Norco Bluffs

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Correction.

SUMMARY: In previous **Federal Register** notice (Vol 62, No. 105, page 29719) Monday, June 2, 1997, make the following corrections:

On Page 29719 in column two, Summary paragraph, lines six through eleven, the sentence should be changed to read "The purpose of the proposed project is to stabilize the toe of the bluff parallel to Shadow Canyon Circle, Alahambra Street, and River Ridge Drive, as far upstream as Crest Drive, in the City of Norco, and thereby maintain the location of the 566 foot elevation line."

On Page 29719 in column three, Availability of the Draft EIS paragraph,

change the date from "September 1997" to "March 1998."

The above corrections are required to clarify the location of the proposed project which has been expanded to cover areas immediately upstream and downstream of the originally proposed project, and to inform individuals of the change in the availability of the draft EIS for publication and circulation.

FOR FURTHER INFORMATION CONTACT: Any comments on this increase in project area should be sent to Mr. Alex Watt, U.S. Army Corps of Engineers, Los Angeles district, Programs and Project Management Division at (213) 452-3860.

SUPPLEMENTARY INFORMATION: None.

Gregory D. Showalter,

Army Federal Register Liaison Officer.

Availability of a Proposed Plan for the Formerly Utilized Sites Remedial Action Program (FUSRAP)

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Notice of availability.

SUMMARY: During the 1940s, 1950s, and 1960s, the Ashland 1 (including Seaway Area D) and Ashland 2 Sites became contaminated as a result of disposal and relocation of residues from uranium processing, performed in support of the nation's early atomic energy program, at the Linde Site. The sites are being addressed under the Formerly Utilized Sites Remedial Action Program (FUSRAP). In December 1989, the U.S. Department of Energy (DOE) published a Notice of Intent to complete a Remedial Investigation/Feasibility Study-Environmental Impact Statement (RI/FS-EIS) for the Tonawanda (Ashland 1, 2, Seaway D, and Linde) Site. Since the issuance of that notice, DOE established a policy in June 1994 of incorporating National Environmental Policy Act (NEPA) values into Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) documentation. In accordance with that policy, likewise, the Corps does not intend to issue a separate Environmental Impact Statement for the Tonawanda Site. The Proposed Plan summarizes the findings of the Remedial Investigation and Feasibility

Study and identifies the preferred alternative for Ashland 1 (including Seaway Area D) and Ashland 2. The preferred alternative includes: Complete Excavation with Offsite Disposal of radioactively contaminated materials that exceed the 40 picocurie per gram Thorium-230 guideline. The Administrative Record file was established to support the Remedial Investigation and Feasibility Study at Ashland 1 and Ashland 2. The Administrative Record is a compendium of documentation that is compiled progressively throughout the decision-making process. The file contains documentation that will be relied upon in issuing a Record of Decision for Ashland 1 and Ashland 2. This notice establishes a 60-day public comment period for the Proposed Plan for Ashland 1 and Ashland 2, beginning November 10, 1997 and lasting through January 9, 1998. Written comments will be accepted anytime during this comment period and both oral and written comments will be accepted at a public meeting, which is scheduled to be held 7 to 9 p.m. on December 17, 1997, at the Phillip Sheridan Building, 3200 Elmwood Avenue, Kenmore, NY.

FOR FURTHER INFORMATION CONTACT: Copies of the Proposed Plan and further information may be requested from: U.S. Corps of Engineers, FUSRAP Public Information Center, 70 Pearce Avenue, Tonawanda, NY 14150, Telephone (716) 871-9660, ATTN: Ms. Sarah Snyder. Hours are 8:00 a.m. to 5:00 p.m., Monday through Thursday, and 9:00 a.m. to noon on Friday.

SUPPLEMENTARY INFORMATION: Written comments will be accepted if postmarked by January 8 at the following address: U.S. Army Corps of Engineers, FUSRAP Public Information Center, 70 Pearce Avenue, Tonawanda, NY 14150, ATTN: Ms. Sarah Snyder.

Gregory D. Showalter,

Army Federal Register Liaison Officer.

BILLING CODE 3710-GP-M

DEPARTMENT OF DEFENSE

Department of the Navy, DoD

Notice of Public Hearing for the Draft Environmental Impact Statement (DEIS) for the Outfall Replacement for Wastewater Treatment Plant at Fort Kamehameha, Pearl Harbor, Oahu, Hawaii

SUMMARY: Pursuant to Section 102(2)(c) of the National Environmental Policy Act (NEPA) of 1969, as implemented by the Council on Environmental Quality

regulations (40 CFR Parts 1500-1508), the Department of the Navy (Navy) has prepared and filed with the U.S. Environmental Protection Agency a DEIS for the outfall replacement for Wastewater Treatment Plant at Fort Kamehameha, Pearl Harbor, Oahu, Hawaii.

The Navy proposes to construct a new concrete pipeline, 2.4 miles long and 42 inches in diameter, into open coastal waters to replace the existing outfall for effluent discharge from the Public Works Center, Pearl Harbor Wastewater Treatment Plant (WWTP). The present outfall discharges into the Pearl Harbor Estuary, which is classified Water Quality Limited Segment (WQLS) by the State of Hawaii. The classification limits the discharge of municipal and industrial wastewater effluents. The proposed action is needed to eliminate the discharge to the WQLS and associated future permit limitations and violations.

A Notice of Intent (NOI) to prepare the DEIS was published in the **Federal Register** on September 11, 1996. Two public scoping meetings were held on Oahu: (1) Honolulu: October 1, 1996, 7:00 p.m. to 10:00 p.m., Washington Intermediate School, 1633 South King Street and (2) Pearl Harbor: October 2, 1996, 7:00 p.m. to 10:00 p.m., Makalapa Elementary School, 4435 Salt Lake Boulevard.

The DEIS analyzes reasonable alternatives to the proposed action, such as upland disposal of treated effluent by subsurface injection, reclamation of effluent for reuse, and "no action" alternative. Based on analysis of the alternatives, the proposed action with appropriate mitigation has been presented to be the environmentally preferred alternative.

No decision on the proposed action will be made until the NEPA process has been completed.

The DEIS has been distributed to various federal, state and local agencies, local groups, elected officials, special interest groups and individuals. The DEIS is also available for review at local libraries as follows: Hawaii State Main Library, Salt Lake Moanalua Public Library, Aiea Public Library, Pearl City Public Library and Ewa Beach Public School Library, all of which are situated in the vicinity of Pearl Harbor.

ADDRESSES: The Navy will conduct a public hearing to receive oral and written comments concerning the DEIS on Wednesday, December 17, 1997, from 7:00 p.m. to 10:00 p.m., at the Radford High School Cafeteria, 4361 Salt Lake Boulevard, Honolulu.

A brief presentation will precede a request for public information and

comments. Navy representatives will be available at the hearing to receive information and comments from agencies and the public regarding issues of concern. Federal, state and local agencies and interested individuals are invited to be present or represented at the hearing. Oral comments will be heard and transcribed by a stenographer. To assure accuracy of the record, all comments should be submitted in writing. Both oral and written statements will become part of the public record for this study. In the interest of available time, each speaker will be asked to limit oral comments to five minutes. Longer comments should be summarized at the public hearing and submitted in writing either at the hearing or mailed to the address below.

FOR FURTHER INFORMATION CONTACT:

Please provide written comments by January 9, 1998, to Mr. Gary Kasaoka, Code 231GK, Pacific Division, Naval Facilities Engineering Command, Pearl Harbor, Hawaii 96860-7300, telephone (808) 471-9338, fax (808) 474-5909, or e-mail address: gkasaoka@efdpac.navfac.navy.mil.

Dated: November 21, 1997.

Michael I. Quinn,

LCDR, JAGC, USN, Alternate Federal Register Liaison Officer.

DEPARTMENT OF EDUCATION

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

ACTION: Proposed collection; comment request.

SUMMARY: The Deputy Chief Information Officer, Office of the Chief Information Officer, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before January 26, 1998.

ADDRESSES: Written comments and requests for copies of the proposed information collection requests should be addressed to Patrick J. Sherrill, Department of Education, 600 Independence Avenue, S.W., Room 5624, Regional Office Building 3, Washington, DC 20202-4651.

FOR FURTHER INFORMATION CONTACT:

Patrick J. Sherrill (202) 708-8196.
