BILLING CODE 4210-28-P

DEPARTMENT OF THE INTERIOR

Environmental Statements; Availability, etc.: National Bison Range Complex, MT: Comprehensive Conservation Plan

AGENCY: Fish and Wildlife Service.

ACTION: Notice of intent to prepare a comprehensive conservation plan.

SUMMARY: This notice advises that the U.S. Fish and Wildlife Service (Service) intends to gather information necessary to prepare a comprehensive conservation plan (CCP) and associated environmental document for the National Bison Range Complex in northwestern Montana. The Service is furnishing this notice in compliance with Service CCP policy to advise other agencies and the public of its intentions and to obtain suggestions and information on the scope of issues to be considered in the planning process.

DATES: Written comments should be received by January 7, 1998.

ADDRESSES: Comments and requests for more information to Project Leader, Attention Planning Team, National Bison Range Complex, 132 Bison Range Road, Moiese, Montana 59824.

FOR FURTHER INFORMATION CONTACT: Dave Wiseman, Refuge Manager 406-644-2211.

SUPPLEMENTARY INFORMATION: The Service has initiated Comprehensive Conservation Planning for the National Bison Range Complex. The Complex includes the National Bison Range; Ninepipe, Pablo, and Swan River National Wildlife Refuges; and the Northwest Montana Wetland Management District. Each National Wildlife Refuge has purposes for which it was established. Those purposes are used to develop and prioritize management goals and objectives within

the National Wildlife Refuge System mission, and to guide which public uses occur on the refuge. The planning process is a way for the Service and the public to evaluate management goals and objectives for the best possible conservation efforts of this important wildlife habitat, while providing for wildlife-dependent recreation opportunities that are compatible with each national wildlife refuge's establishing purposes.

In 1908, the first purchase of land for the exclusive protection of wildlife occurred when Congress appropriated money for the establishment of the National Bison Range "for a permanent national bison range for the herd of bison." (45 Stat. 267-8) and subsequently in 1921 "as refuges and breeding grounds for birds," (Executive Order 3596). Ninepipe and Pablo National Wildlife Refuges were established as easement refuges in 1921 "as a refuge and breeding ground for native birds," (Executive Order 3503-Ninepipe, Executive Order 3504-Pablo). The Tribes have the right to use these for all purposes consistent with the permanent refuge easements. Swan River National Wildlife Refuge was established in 1973 "for use as an inviolate sanctuary, or for any other management purpose, for migratory birds," (Migratory Bird Conservation Act, 16 U.S.C. 715-715r). Finally, the Northwest Montana Wetland Management District are lands acquired "as Waterfowl Production Areas" subject to "all of the provisions of such Act (Migratory Bird Conservation Act) * * * except the inviolate sanctuary provisions," (Migratory Bird Hunting and Conservation Stamp Act, 16 U.S.C. 718).

The National Bison Range Complex is an integral part of the community in northwestern Montana. The National Bison Range, Ninepipe and Pablo National Wildlife Refuges, and that portion of the Wetland Management District in Lake County, Montana lie within the exterior boundaries of the Flathead Indian Reservation of the Confederated Salish and Kootenai Tribes. The units of the Complex that are not within the reservation include the Swan River National Wildlife Refuge and that portion of the Wetland Management District in Flathead County, Montana. The Comprehensive Conservation Plan will define how the Complex is managed, not who manages it. Therefore, this planning effort is separate from the Confederated Salish and Kootenai Tribes' compacting requests for management authority. The Service and the Tribes have discussed working together to develop the CCP.

The Service may contract with the Tribes for resource personnel or services as needed. The Service will conduct the planning process providing the Tribes, as well as other governments, agencies, organizations, and the public with an opportunity to participate in the scoping and public comment process.

The Service is requesting input for concerns, ideas, and suggestions for the future management of the National Bison Range Complex. Anyone interested in providing input is invited to respond to the following three questions.

(1) What makes the National Bison Range Complex (or any specific unit) special or unique for you?

(2) What problems or issues do you want to see addressed in the Comprehensive Conservation Plan?

(3) What improvements would you recommend for the National Bison Range Complex (or any specific unit)?

The Service has provided the above questions for your optional use. There is no requirement to provide information to the Service. The Planning Team developed these questions to facilitate finding out more information about individual issues and ideas concerning the National Bison Range Complex. Comments received by the Planning Team will be used as part of the planning process, individual comments will not be reference in our reports or directly responded to.

There will also be an opportunity to provide input at open houses scheduled for late January 1998 to scope issues and concerns (schedule can be obtained from the National Bison Range at above address). All information provided voluntarily by mail, phone, or at public meetings becomes part of the official public record (e.g., names, addresses, letters of comment, input recorded during meetings). If requested under the Freedom of Information Act by a private citizen or organization, the Service may provide copies of such information.

The environmental review of this project will be conducted in accordance with the requirements of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*), NEPA Regulations (40 CFR 1500–1508), other appropriate Federal laws and regulations, Executive Order 12996, the National Wildlife Refuge System Improvement Act of 1997, and Service policies and procedures for compliance with those regulations.

We estimate that the draft environmental document will be available for review in June 1999.
