

**Certification Regarding Environmental Tobacco Smoke**

Public Law 103-227, Part C—Environmental Tobacco Smoke, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor routinely owned or leased or contracted for by an entity and used routinely or regularly for provision of health, day care, education, or library services to children under the age of 18, if the services are funded by Federal programs either directly or through State or local governments, by Federal grant, contract, loan, or loan guarantee. The law does not apply to children's services provided in private residences, facilities funded solely by Medicare or Medicaid funds, and portions of facilities used for inpatient drug or alcohol treatment. Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to \$1000 per day and/or the imposition of an administrative compliance order on the responsible entity.

By signing and submitting this application the applicant/grantee certifies that it will comply with the requirements of the Act. The applicant/grantee further agrees that it will require the language of this certification be included in any subawards which contain provisions for the children's services and that all subgrantees shall certify accordingly.

**DEPARTMENT OF THE INTERIOR****Bureau of Land Management**

[UTU-62159]

**Utah; Propose Reinstatement of Terminated Oil and Gas Lease**

In accordance with Title IV of the Federal Oil and Gas Royalty Management Act (Pub. L. 97-451), a petition for reinstatement of oil and gas lease VTU-62159 for lands in Duchesne County, Utah, was timely filed and required rentals accruing from November 1, 1997, the date of termination, have been paid.

The lessee has agreed to new lease terms for rentals and royalties at rates of \$5 per acre and 16<sup>2</sup>/<sub>3</sub> percent, respectively. The \$500 administrative fee has been paid and the lessee has reimbursed the Bureau of Land Management for the cost of publishing this notice.

Having met all the requirements for reinstatement of the lease as set out in Section 31 (d) and (e) of the Mineral Leasing Act of 1920 (30 U.S.C. 188), the Bureau of Land Management is proposing to reinstate lease UTU-62159, effective November 1, 1997, subject to the original terms and conditions of the

lease and the increased rental and royalty rates cited above.

**DEPARTMENT OF INTERIOR****National Park Service****Delaware and Lehigh Navigation Canal National Heritage Corridor Commission Meeting**

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice of meeting.

**SUMMARY:** This notice announces an upcoming meeting of the Delaware and Lehigh Navigation Canal National Heritage Corridor Commission. Notice of this meeting is required under the Federal Advisory Committee Act (Pub. L. 92-463).

Meeting Date and Time: Wednesday, December 17, 1997; 1:30-4:00 p.m.

Address: Zephyr Park Community Center, Schadt Avenue, Whitehall, PA 18052.

The agenda for the meeting will focus on implementation of the Management Action Plan for the Delaware and Lehigh Canal National Heritage Corridor and State Heritage Park. The Commission was established to assist the Commonwealth of Pennsylvania and its political subdivisions in planning and implementing an integrated strategy for protecting and promoting cultural, historic and natural resources. The Commission reports to the Secretary of the Interior and to Congress.

**SUPPLEMENTARY INFORMATION:** The Delaware and Lehigh Navigation Canal National Heritage Corridor Commission was established by Pub. L. 100-692, November 18, 1988.

**FOR FURTHER INFORMATION CONTACT:**

Executive Director, Delaware and Lehigh Navigation Canal, National Heritage Corridor Commission, 10 E. Church Street, Room P-208, Bethlehem, PA 18018, (610) 861-9345.

Dated: December 2, 1997.

### DEPARTMENT OF THE INTERIOR

#### Bureau of Reclamation

#### Flow Objectives for the Vernalis Adaptive Management Plan (VAMP), California

**AGENCY:** Bureau of Reclamation, Interior.

**ACTION:** Notice of intent to prepare a draft environmental impact statement/ environmental impact report.

**SUMMARY:** Pursuant to the National Environmental Policy Act of 1969 as amended, the Bureau of Reclamation (Reclamation), in cooperation with the U.S. Fish and Wildlife Service (Service), proposes to prepare a joint

environmental impact statement/ environmental impact report (EIS/EIR) on the water made available on the San Joaquin River and its tributaries to provide pulse flows at Vernalis during April and May and to help meet anadromous fish flow objectives. The San Joaquin River Group Authority (Authority) will be the lead agency under the California Environmental Quality Act.

Reclamation proposes to contract for water on the San Joaquin River and its tributaries under Pub. L. 102-575, Title 34, Section 3406(b)(3) of the Central Valley Project Improvement Act (CVPIA). The water would be made available to Reclamation from the San Joaquin River Group Authority (Authority). The purpose of the proposed project is to use the water to provide a pulse flow at Vernalis during April and May and other flows identified by the CVPIA water acquisition program. This water is needed to support the Vernalis Adaptive Management Plan (VAMP) which is being implemented to provide protective measures for fall-run chinook salmon and to gather scientific information on the effects of various flows in the lower San Joaquin River, Central Valley Project and State Water Project export pumping rates, operation of a fish barrier, and survival of salmon smolts through the Delta. Water is needed also to provide environmental benefits in the lower San Joaquin River, San Joaquin River tributaries, and Delta. The EIS/EIR will address potential impacts to the environment which may result from the modified flows in the San Joaquin River and its tributaries.

Reclamation and the Authority seek public input on alternatives, concerns, and issues to be addressed in the EIS/EIR. A series of scoping meetings will be held to receive oral and written comments.

**DATES:** Public scoping meetings will be held as follows:

- Tuesday, January 6, 1998, from 1:00 to 3:00 p.m. at the Miller-Lux Building, First Floor, 830 Sixth Street, Los Banos, California, 93635.
- Wednesday, January 7, 1998, from 1:00 to 3:00 p.m. at the Fairfield Community Center, Studio C, 1000 Kentucky Street, Fairfield, California, 94533.
- Thursday, January 8, 1998, from 6:00 to 8:00 p.m. at the Modesto Irrigation District, (South Entrance) Multi-Purpose Room, Second Floor, 1231 Eleventh Street, Modesto, California, 95354.

Written comments on the project scope should be sent to Reclamation by

January 13, 1998. Comments received after this date will be considered, but will not be included in the resulting scoping report.

The draft EIS/EIR should be available for public review in September or October 1998.

**ADDRESSES:** Written comments on the project scope should be sent to Michael Delamore, Program Manager, South-Central California Office, 2666 N. Grove Industrial Drive, Suite 106, Fresno, California, 93727; or Dan M. Fults, Friant Water Users Authority, 1521 I Street, Sacramento, California, 95814.

**FOR FURTHER INFORMATION CONTACT:** Mr. Delamore, telephone (209) 487-5039, fax (209) 487-5130; or Mr. Fults, telephone (916) 441-1931, fax (916) 441-1581.

**SUPPLEMENTARY INFORMATION:** In May 1995, the State Water Resources Control Board (State Board) adopted a Water Quality Control Plan (WQCP) for the San Francisco/Sacramento-San Joaquin Delta Estuary. The WQCP included water quality and flow objectives pertaining to the San Joaquin River basin. During 1997, Reclamation purchased water within the San Joaquin River system to help meet the WQCP's defined flow objectives. The science supporting the flow objective for the San Joaquin River as measured at Vernalis has been disputed. In an effort to clarify the science for the flow objective and resolve the dispute, the San Joaquin River interests collaborated to identify feasible actions to protect the San Joaquin River's fish resources and to implement the State Board's fishery objectives. This collaboration led to a scientifically-based adaptive fishery management plan known now as VAMP. This VAMP Agreement provides the basis for the project information described below.

The VAMP will be implemented through experimental flows on the San Joaquin River and export pumping flow rates with an Old River fish barrier during the 1-month period each year, from approximately April 15 to May 15, in the spring of each year. Additional attraction flows are targeted for October. The experimental design of the VAMP will use the water identified by this action in various regimes, depending upon smolt survival and passage through the Delta.

In addition to the total water from the VAMP Agreement, an additional amount of water may be contracted for release at any time during the year. The EIS/EIR will analyze the impacts of a maximum amount of water in any year over the period 1999-2009 for release to the San Joaquin River and its tributaries.
