SUPPLEMENTARY INFORMATION:

OMB Approval Number: 3072-0055
Expires: May 31, 1998.

Abstract: Section 8 of the Shipping Act of 1984 requires common carriers and conferences of such common carriers to file with the Commission and keep open for public inspection, tariffs showing all rates, charges, classifications, rules and practices for transportation of cargo between the U.S. and foreign ports. Section 8(c) of the Act also provides for the filing of service contracts and statements of the contracts' essential terms with the Commission. 46 CFR 514 establishes the requirements, format and user charges for the electronic publication, filing and retrieval of tariffs, as well as service contracts and their essential terms, covering the transportation of property performed by common carriers in the foreign commerce of the United States and by combinations of such common carriers, including through transportation offered in conjunction with one or more carriers not otherwise subject to the Shipping Act of 1984.

Needs and Uses: In order to effectively discharge its statutorily-assigned duties, the Commission uses filed tariff and service contract data for surveillance and investigatory purposes, and, in its proceedings, adjudicates related issues raised by private parties.

Frequency: The publishing and filing of tariffs and the filing of service contracts are not assigned a specific time frame by the Commission; they are submitted as circumstances warrant. That is, a common carrier or conference of such carriers can only charge its customers rates that are on file with the Commission. Rate increases must be filed on 30 days notice, while decreases can be filed to take effect on immediate notice.

Type of Respondents: Common carriers by water are persons who hold themselves out to the general public to provide transportation by water of cargo between the United States and a foreign country for compensation, who assume the responsibility for the transportation from origin to destination and use a vessel operating on the high seas or the Great Lakes between a U.S. port and a foreign country.
