SUPPLEMENTARY INFORMATION:

I. Background

The Bureau of Labor Statistics has been charged by Congress [Congressional Act of July 7, 1930 (29 U.S.C. Chapters 1 and 2)] with the responsibility of collecting and publishing monthly information on employment, the average wage received, and the hours worked by area and industry. The process for developing residency based employment and unemployment estimates is a cooperative Federal-State program which uses employment and unemployment inputs available through State agencies.

The reports covered by this collection are integral parts of the Local Area Unemployment Statistics (LAUS) program insofar as they insure and/or measure the timeliness, quality, consistency, and adherence to program directions of the LAUS estimates and related research. LAUS program data are

used in economic analysis by public agencies and private industry, and for State and area allocations and eligibility determinations according to legal and administrative requirements.

Implementation of policy and legislative prerogatives could not be accomplished as now written without collection of the data.

II. Current Actions

Exportable software associated with monthly LAUS transmittals eliminated the need for the Monthly Report on Continued Claimants by Place of Residence (LAUS 6). Electronic transmittals of any corrections to regularly submitted data have eliminated the need to use Monthly and Area Correction Forms (LAUS 13 and 14).

Type of Review: Revision.

Agency: Bureau of Labor Statistics.

Title: Local Area Unemployment Statistics (LAUS) Reports 8, 15–17.

OMB Number: 1220–0043.
