Bureau of Land Management

[CA-360-1430-01; CACA 7618]

Public Land Order No. 7248; Revocation of Secretarial Order Dated April 20, 1922; California

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order revokes a Secretarial Order dated April 20, 1922, in its entirety as to the remaining 489.56 acres of lands withdrawn for the Bureau of Land Management's Power Site Classification No. 29. The lands are no longer needed for this purpose, and the revocation is necessary to facilitate a pending land exchange under Section 206 of the Federal Land Policy and Management Act of 1976. Of the 489.56 acres being revoked, 329.56 acres are temporarily closed to surface entry and mining by a pending land exchange. These lands have been and will continue to be open to mineral leasing. The remaining 160 acres were conveyed out of public ownership in 1926. Since they were not conveyed subject to Section 24 of the Federal Power Act, the revocation insofar as it affects the 160 acres is a record clearing action only.

EFFECTIVE DATE: June 3, 1997.

FOR FURTHER INFORMATION CONTACT: Kathy Gary, BLM California State Office (CA-931.5), 2135 Butano Drive, Sacramento, California 95825; 916-979-2858.

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and

Management Act of 1976, 43 U.S.C. 1714 (1988), is it ordered as follows:

1. The Secretarial Order dated April 20, 1922, which established Power Site Classification No. 29, is hereby revoked in its entirety as to the following described lands:

Mount Diablo Meridian

(a) Pending Exchange Lands.

T. 31 N., R. 8 W.,

Sec. 4, lot 13 (originally described as SW $\frac{1}{4}$ SW $\frac{1}{4}$);

Sec. 8, lots 1 and 4, and NW $\frac{1}{4}$ NE $\frac{1}{4}$.

T. 32 N., R. 8 W.,

Sec. 30, lots 9, 10, 11, 16, and 17 (originally described as SE $\frac{1}{4}$ NE $\frac{1}{4}$ and SE $\frac{1}{4}$).

(b) Record Clearing Land.

T. 32 N., R. 8 W.,

Sec. 32, NW $\frac{1}{4}$.

The areas described aggregate 489.56 acres in Trinity county.

2. At 10 a.m. on June 3, 1997 the lands described in paragraph 1(a) will be available for exchange under Section 206 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1716 (1988).

3. The land described in paragraph 1(b) was conveyed out of public ownership in 1926. Therefore, the revocation insofar as it affects that land is a record clearing action only.

4. The lands described in paragraph 1(a) have been open to mining under the provisions of the Mining Claims Rights Restoration Act of 1955, 30 U.S.C. 621 (1988). However, since this act applies only to lands withdrawn for power purposes, the provisions of the act are no longer applicable. These lands have been and continue to be open to mineral leasing.

5. The State of California, with respect to the lands described in paragraph 1(a), has a preference right for public highway rights-of-ways or material sites for a period of 90 days from the date of publication of this order, and any location, entry, selection, or subsequent patent shall be subject to any rights granted the State as provided by the Act of June 10, 1920, Section 24, as amended, 16 U.S.C. 818 (1988).

Dated: February 7, 1997.

Bob Armstrong,

Assistant Secretary of the Interior.

Operating Criteria and 1997 Annual Plan of Operations for Glen Canyon Dam

AGENCY: Bureau of Reclamation, Interior.

ACTION: Adoption of operating criteria and 1997 annual plan of operations.

SUMMARY: Pursuant to the Grand Canyon Protection Act of 1992, the Bureau of Reclamation (Reclamation) is required to prepare formal Operating Criteria and an Annual Plan of Operations following completion of an audit by the General Accounting Office (GAO) and the Record of Decision (ROD) on the Operation of Glen Canyon Dam. The GAO audit was completed on October 2, 1996, and the Glen Canyon Dam Operation ROD was signed on October 9, 1996. Draft copies of the proposed Operating Criteria and the 1997 Annual Plan of Operations were distributed to Governors of the Colorado River Basin States, the Upper Colorado River Commission, appropriate Federal agencies, Indian Tribes, representatives

of academic and scientific communities, environmental organizations, the recreation industry, contractors for the purchase of federal power produced at Glen Canyon Dam, and others interested in Colorado River operations.

FOR FURTHER INFORMATION CONTACT: Mr. Bruce Moore, Bureau of Reclamation, 125 South State Street, Room 6107, Salt Lake City, Utah 84138–1102; telephone: 801–524–3702.

SUPPLEMENTARY INFORMATION: The Operating Criteria specify the requirements for an annual report of operations under the Grand Canyon Protection Act, a periodic review of Operating Criteria, and details regarding operational constraints. These constraints include maximum, minimum, and daily fluctuation flow rates, maximum ramp rates, emergency exception criteria, flood frequency reduction measures, habit maintenance flows, and beach/habitat building flows.

The 1997 Annual Plan of Operations reflects the operation of Glen Canyon Dam consistent with the Operating Criteria. Monthly releases are expected to vary between 600,000 acre-feet and 1,500,000 acre-feet and daily fluctuations will likely vary between 6,000 cfs/day and 8,000 cfs/day depending on monthly release volumes. The revised maximum daily flow rate of 25,000 cfs and the maximum upramp rate of 4,000 cfs/hr. will be placed into effect following signing of these documents by the Secretary of the Interior. The following paragraphs contain the final text of the Operating Criteria and the 1997 Plan of Operations for Glen Canyon Dam.

Operating Criteria: These Operating Criteria are promulgated according to section 1804 of Public Law 102–575, the Grand Canyon Protection Act of 1992. They are to control the operation of Glen Canyon Dam, constructed under the authority of the Colorado River Storage Project Act. These Operating Criteria are separate and apart from the Criteria for Coordinated Long-Range Operation of Colorado River Reservoirs prepared according to the Colorado River Basin Project Act of 1968.

1. Annual Report: As required in the Grand Canyon Protection Act, a report shall be prepared and submitted to Congress annually. This report will describe the operation of Glen Canyon Dam for the preceding water year and the expected operation for the upcoming water year. The annual plan of operations shall include such detailed rules and quantities as are required by the Operating Criteria contained herein. It shall provide a detailed explanation of the expected hydrologic conditions for
