A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

If a hearing is requested, the Commission will make a final determination on the issue of no significant hazards consideration. The final determination will serve to decide when the hearing is held.

If the final determination is that the amendment request involves no significant hazards consideration, the Commission may issue the amendment and make it immediately effective, notwithstanding the request for a hearing. Any hearing held would take place after issuance of the amendment.

If the final determination is that the amendment request involves a significant hazards consideration, any hearing held would take place before the issuance of any amendment.

A request for a hearing or a petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Docketing and Services Branch, or may be delivered to the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, by the above date. Where petitions are filed during the last 10 days of the notice period, it is requested that the petitioner promptly so inform the Commission by a toll-free telephone call to Western Union at 1-(800) 248-5100 (in Missouri 1-(800) 342-6700). The Western Union operator should be given Datagram Identification Number N1023 and the following message addressed to S. 0001, and to Brent L. Brandenburg, Esq., 4 Irving Place, New York, New York 10003, attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the presiding Atomic Safety and Licensing Board that the petition and/or request should be granted based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)-(v) and 2.714(d).

Research and Special Programs Administration

[Notice No. 97]

Information Collection Activity

AGENCY: Research and Special Programs Administration (RSPA), DOT.

ACTION: Notice of information collection approval

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the emergency approval by the Office of Management and Budget (OMB) of an information collection request (ICR). An emergency interim final rule (IFR) regarding cargo

tank motor vehicles in liquefied compressed gas service contained the ICR and was published in the Federal Register on February 19, 1997, in Docket No. RSPA-97-2133 (HM225) with a 60-day comment period (62 FR 7638). The ICR describes the nature of the information collection and its expected cost and burden.

DATES: OMB approval of the information collection request expires August 15, 1997.

FOR FURTHER INFORMATION CONTACT: Deborah Boothe, Office of Hazardous Materials Standards (DHM-10), Research and Special Programs Administration, Room 8102, 400 Seventh Street, S.W., Washington, DC 20590-0001, Telephone (202) 366-8553.

SUPPLEMENTARY INFORMATION: OMB regulations (5 CFR 1320) implementing provisions of the Paperwork Reduction Act of 1995 (PRA) (Pub. L. 104-13; 109 Stat. 163; 44 U.S.C. 3501 *et seq.*) require that interested members of the public and affected agencies be given an opportunity to comment on information collection and recordkeeping activities (see 5 CFR 1320.8(d)). Under the PRA, no person is required to respond to an information collection unless it displays a valid OMB control number.

The IFR requires that a comprehensive emergency operating procedure be developed for all liquefied compressed gas transfer operations. The information collection and recordkeeping requirements contained in the IFR have received emergency approval by OMB under the provisions of the PRA. The OMB control number for the information collection is 2137-0595, and the approval expires August 15, 1997. The comment period for the IFR, including the information collection requirements, closes April 21, 1997. If RSPA receives substantive comments on the information collection requirements, a revised ICR will be submitted to OMB for emergency approval. RSPA estimates that the total information collection and recordkeeping burden of the IFR is 18,753 hours, at a cost of \$422,660, for the development and maintenance of the comprehensive emergency operating procedure. Requests for a copy of this information collection should be directed to the address above.

Issued in Washington, DC on February 27, 1997.

Edward T. Mazzullo,

Director, Office of Hazardous Materials Standards.

ACTION: Notice of proposed pooling application.

SUMMARY: Applicants, Peter Pan Bus Lines, Inc., of Springfield, MA, and Greyhound Lines, Inc., of Dallas, TX, jointly seek approval under 49 U.S.C. 14302 of an operations and revenue pooling agreement to govern their motor passenger and express transportation service between Philadelphia, PA, and New York, NY.

SUPPLEMENTARY INFORMATION:

Applicants seek approval to pool passenger and express operations and revenues on the bus service they provide between Philadelphia and New York, via the New Jersey Turnpike. They state that their services between these points overlap and that excess schedules are operated because of the need to protect their respective marketshares. According to applicants, this has resulted in unacceptably low load factors, an over-served market, and inefficient operations.

Applicants state that the pooling agreement will allow them to reduce excess bus capacity, cement their business relationship, and allow them to share in the financial vicissitudes of the pooled-route operations of the other. They claim public benefits that will include: (1) Rationalization of schedules

¹ After March 16, 1997, when the Board's offices will be relocated, pleadings should be sent to: Surface Transportation Board, Office of the Secretary, Case Control Unit, 1925 K Street, NW., Washington, DC 20423-0001.
