Background

Section 134 of the Uruguay Round Agreements Act (URAA), Pub. L. 103-465, directs the President to develop a comprehensive trade and development policy of the countries of Africa. The President is also to report to the Congress annually over the next 5 years on the steps taken to carry out that mandate. The Statement of Administrative Action that was approved by the Congress with the URAA states that the President will direct the International Trade Commission to submit within 12 months following the enactment of the URAA into law, and annually for the 5 years thereafter, a report providing (1) an analysis of U.S.-African trade flows, and (2) an assessment of any effects of the Uruguay Round Agreements, and of U.S. trade and development policy for Africa on such trade flows.

The fourth annual report on U.S.-African trade flows and effects of U.S. trade and development policy will contain the following information:

1. An update of U.S.-African trade and investment flows for the latest year available, including both overall trade and trade in the following major sectors: agriculture, forest products, textiles and apparel, footwear, energy, chemicals, minerals and metals, machinery, transportation equipment, electronics technology, miscellaneous manufactures, and services. It also requested that the basic trade flow information be provided for U.S. trade with the following regional trade groups: the Southern African Customs Union (SACU), the Southern African Development Community (SADC), Western African Economic and Monetary Union (WAEMU), and Common Market for Eastern and Southern Africa (COMESA).

2. An identification of major developments in the World Trade Organization and in U.S. trade/economic activities which significantly affect U.S.-Africa trade and investment flows by sector during the last year.

3. To the extent possible, changing trade and economic activities within African countries that have a significant impact will be highlighted.

4. Progress in regional integration in Africa.

As requested by the USTR, the Commission will limit its study to the 48 countries in Sub-Saharan Africa.
