Submission of Study Package to Office of Management and Budget; Review Opportunity for Public Comment

AGENCY: National Park Service Visitor Survey Card, Department of the Interior.

ACTION: Notice and request for comments.

ABSTRACT: The National Park Service (NPS) Visitor Services Project—Visitor Survey Card proposes to conduct visitor surveys at all 376 National Park System Units to learn visitors' opinions about park facilities, services and recreational opportunities in each park unit. This effort is required by the Government Performance and Results Act of 1993 (GPRA) goals and standards. In addition, visitors' understanding of park significance will be measured for each National Park unit. The results of these studies will be used to measure performance toward the GPRA goals (11a1 and 11b1) and standards and by park managers to improve the services they provide to visitors while better protecting park natural and cultural resources. A study package, including the proposed visitor survey card questionnaire (the same card will be used in all parks) for these proposed park studies, has been submitted to the Office of Management and Budget for review.

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1995 and 5

CFR part 1329, Reporting and Record Keeping Requirements, the NPS invites public comment on this proposed information collection request (ICR). Comments are invited on: (1) The need for the information including whether the information has practical utility; (2) the accuracy of the reporting burden estimate; (3) ways to enhance the quality, utility, and clarity of the collected information; and (4) ways to minimize the burden of the information collection on respondents, including the use of automated collection techniques or other forms of information technology.

The purpose of the proposed ICR is to document visitors' opinions about park facilities, services and recreation opportunities. In addition, visitors' understanding of park significance will be measured for each National Park System unit. Park unit performance will be evaluated according to National Park Service GPRA goals and standards. This information will be used by park managers, park planners and NPS regional and Washington office staff in priority setting for budget processes.

There were no public comments received as a result of publishing a 60 day notice of intention to request clearance of information collection for this study in the **Federal Register**.

DATES: Public comments will be accepted on or before April 27, 1998.
