BILLING CODE 4510-27-P

DEPARTMENT OF LABOR

Mine Safety and Health Administration

Petitions for Modification

The following parties have filed petitions to modify the application of mandatory safety standards under section 101(c) of the Federal Mine Safety and Health Act of 1977.

1. Energy West Mining Company

[Docket No. M-98-19-C]

Energy West Mining Company, P.O. Box 310, Huntington, Utah 84528 has filed a petition requesting an amendment to the Proposed Decision and Order (PDO) of its previously granted petition for modification of 30 CFR 75.350 (air courses and belt haulage entries), docket number M-98-166-C, for its Trail Mountain Mine (I.D. No. 42-01211) located in Emery County, Utah. The petitioner requests that Item (u) of the previous PDO be amended to replace the existing language with the language specified in this petition in the "Requirements Applicable to Two-Entry Development, Longwall Set-Up and Recovery and Retreat Mining Systems" to address installation and maintenance of hydraulic fluid pump stations. The petitioner asserts that the changes outlined in this petition are necessary for the high-pressure emulsion stations within the two-entry longwall retreat sections at the Energy West's Trail Mountain Mine. In addition, the petitioner asserts that the proposed alternative method would provide at

least the same measure of protection as would the mandatory standard.

2. Energy West Mining Company

[Docket No. M-98-20-C]

Energy West Mining Company, P.O. Box 310, Huntington, Utah 84528 has filed a petition requesting an amendment to the Proposed Decision and Order (PDO) of its previously granted petition for modification of 30 CFR 75.352 (return air courses), docket number M-94-167-C, for its Trail Mountain Mine (I.D. No. 42-01211) located in Emery County, Utah. The petitioner requests that Item (u) of the previous PDO be amended to replace the existing language with the language specified in this petition in the "Requirements Applicable to Two-Entry Development, Longwall Set-Up and Recovery and Retreat Mining Systems" to address installation and maintenance of hydraulic fluid pump stations. The petitioner asserts that changes outlined in this petition are necessary for the high-pressure emulsion station within the two-entry longwall retreat sections at the Energy West's Trail Mountain Mine. In addition, the petitioner asserts that the proposed alternative method would provide at least the same measure of protection as would the mandatory standard.

3. Peabody Coal Company

[Docket No. M-98-21-C]

Peabody Coal Company, 800 Laidley Tower, P.O. Box 1233, Charleston, West Virginia 25324 has filed a petition to modify the application of 30 CFR 75.364(a)(1) (weekly examination) to its Camp No. 1 Mine (I.D. No. 15-02709) located in Union County, Kentucky. Due to hazardous roof conditions in the air course entries, traveling the affected area would be unsafe. The petitioner proposes to have a certified person conduct weekly examinations at established evaluation points immediately inby and outby the affected area to determine methane and oxygen concentrations and the volume of air, and record the results in a book maintained on the surface of the mine. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as would the mandatory standard.

4. Consolidation Coal Company

[Docket No. M-98-22-C]

Consolidation Coal Company, Consol Plaza, 1800 Washington Road, Pittsburgh, Pennsylvania 15241-1421 has filed a petition to modify the application of 30 CFR 75.503 (permissible electric face equipment; maintenance) to its Rend Lake Mine (I.D. No. 11-00601) located in Jefferson County, Pennsylvania. The petitioner proposes to use a spring-loaded metal locking device instead of padlocks for securing battery-charging plugs to machine-mounted battery receptacles on permissible, mobile, battery-powered scoop cars. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as would the mandatory standard.

5. Fray Mining, Inc.

[Docket No. M-98-23-C]

Fray Mining, Inc., P.O. Box 942, Tazewell, Virginia 24651 has filed a petition to modify the application of 30 CFR 77.214(a) (refuse piles; general) to its Mine No. 3 (I.D. No. 44-03524) located in Buchanan County, Virginia. The petitioner requests a modification of the standard to allow construction of a refuse bench fill in an area containing abandoned mine openings. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as would the mandatory standard.

6. Mountaineer Mining Management, Inc.

[Docket No. M-98-24-C]

Mountaineer Mining Management, Inc., P.O. Box 1090, Oceana, West Virginia 24890 has filed a petition to modify the application of 30 CFR 75.364 (weekly examination) to its No. 3 Mine (I.D. No. 46-08369) located in Boone County, West Virginia. Due to fallen material in the old mine workings (Kopperton No. 2 Mine) where the No. 3 mine is mined into, the area is unsafe to seal off. The petitioner proposes to install a continuous gas monitoring system to monitor the air quality for air coming out of the old mine workings. The petitioner states that the monitoring system would include an audible warning signal and a visual strobe light

signal to alert surface personnel of any problems underground. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as would the mandatory standard.

7. Marrowbone Development Company

[Docket No. M-98-25-C]

Marrowbone Development Company, P.O. Box 119, Naugatuck, West Virginia 25685 has filed a petition to modify the application of 30 CFR 75.350 (air courses and belt haulage entries) to its North Marrowbone Creek Mine (I.D. No. 46-08680) located in Mingo County, West Virginia. The petitioner proposes to use an automatic fire detection system based on carbon monoxide monitoring of the underground conveyor entries to allow air coursed through conveyor belt entries to be used to ventilate active working places. The petitioner proposes to install a carbon monoxide detection system as an early warning fire detection system in all belt entries used to course intake air to a working place. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as would the mandatory standard.

8. Marrowbone Development Company

[Docket No. M-98-26-C]

Marrowbone Development Company, P.O. box 119, Naugatuck, West Virginia 25685 has filed a petition to modify the application of 30 CFR 75.503 (permissible electric face equipment; maintenance) to its North Marrowbone Creek Mine (I.D. No. 46-08680) located in Mingo County, West Virginia. The petitioner proposes to use permanently installed spring-loaded locking devices instead of padlocks on battery plugs. The petitioner proposes to install and maintain spring-loaded locking devices on battery plugs to prevent the threaded rings that secures the battery plugs to the battery receptacles from loosening unintentionally. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as would the mandatory standard.

9. Eagle Energy, Inc.

[Docket No. M-98-27-C]

Eagle Energy, Inc., P.O. Box 368, Madison, West Virginia 25130 has filed a petition to modify the application of 30 CFR 75.1002 (location of trolley wires, trolley feeder wires, high-voltage cables and transformers) to its Mine No. 1 (I.D. No. 46-07711) located in Boone County, West Virginia. The petitioner proposes to use 4,160 volt cables to

power longwall equipment. The petitioner states that all personnel who perform maintenance on the longwall or miners who work in proximity of the high-voltage equipment would receive training in high-voltage safety and maintenance procedures before this proposed alternative method is implemented.

Request for Comments

Persons interested in these petitions are encouraged to submit comments via e-mail to "comments@msha.gov", or on a computer disk along with an original hard copy to the Office of Standards, Regulations, and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Room 627, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before May 14, 1998. Copies of these petitions are available for inspection at that address.

Dated: April 8, 1998.

Patricia W. Silvey,

Director, Office of Standards, Regulations, and Variances.

DEPARTMENT OF LABOR

Pension and Welfare Benefits Administration

[Prohibited Transaction Exemption 98-16; Exemption Application No. D-10523]

Grant of Individual Exemptions: Overland, Ordal, Thorson & Fennell Pulmonary Consultants, P.C.

AGENCY: Pension and Welfare Benefits Administration, Labor.

ACTION: Notice of typographical corrections.

SUMMARY: This document contains a Notice of Typographical Correction with respect to a Notice of Grant of Individual Exemptions published on April 7, 1998 at 63 FR 17034 and 17035 (the Prior Notice).

Correction

The Prior Notice identified Exemption Application No. D-10523, Overland, Ordal, Thorson & Fennell Pulmonary Consultants, P.C., as Prohibited Transaction Exemption 98-15. The correct Prohibited Transaction number is 98-16.

FOR FURTHER INFORMATION CONTACT: Mr. James Scott Frazier of the Department, telephone (202) 219-8881. (This is not a toll-free number.)

Signed at Washington, D.C., this 9th day of April, 1998.

Ivan L. Strasfeld,

Director of Exemption Determinations, Pension and Welfare Benefits Administration, Department of Labor.

BILLING CODE 4510-29-P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 98-052]

Notice of Agency Report Forms Under OMB Review

SUMMARY: The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. 3506(c)(2)(A)). The reports will be utilized by the Inventions and Contributions Board to evaluate the progress of development and commercialization for waived inventions.

DATES: All comments should be submitted on or before June 15, 1998.

ADDRESSES: All comments should be addressed to Mr. Robert J. Bobek, Code ICB National Aeronautics and Space Administration, Washington, DC 20546-0001.

FOR FURTHER INFORMATION CONTACT: Ms. Carmela Simonson, NASA Reports Officer, (202) 358-1223.

Title: Patent Waiver Report.

OMB Number: 2700-0050.

Type of review: Reinstatement.

Need and Uses: Reports are analyzed by the NASA Inventions and Contributions Board to evaluate the progress made by NASA contractors who received waiver of patent rights in terms of development and commercialization of waived inventions.

Affected Public: Business or other for-profit.

Number of Respondents: 66.

Responses Per Respondent: 1.

Annual Responses: 66.

Hours Per Request: 2.

Annual Burden Hours: 147.

Frequency of Report: Annually.

Donald J. Andreotta,

Deputy Chief Information Officer (Operations), Office of the Administrator.
