

that EPA should take into consideration in deciding to approve or deny DuPont's application for a case-by-case extension of the LDR effective date. The State of Texas had no substantive issues for EPA to consider in evaluating DuPont's extension request.

IV. EPA's Action

For the reasons discussed above, the Agency believes that DuPont has satisfied all the requirements for a case-by-case extension to the April 8, 1998, effective date of the RCRA land disposal restrictions (LDR) treatment standards applicable to wastewaters with the hazardous waste code D018 (Benzene). Therefore, EPA is approving DuPont's requested case-by-case extension for a one year period. If during this time frame a final decision on DuPont's petition reissuance request is made, then this case-by-case extension will expire.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Financial Advisory Board (EFAB) will hold an open meeting on a proposed Environmental Bond Guaranty program for the New Independent States of the former Soviet Union (NIS). This program would create a \$100 million fund to enhance the credit of municipal bonds issued in the NIS by guarantying financial obligations undertaken by NIS regional or local governments (or those formally acting on behalf of such governments) for capital projects providing environmental infrastructure that serve the general public. Types of environmental infrastructure projects covered may include, but not be limited to, drinking water purification or distribution, wastewater collection or treatment, solid or hazardous disposal waste, the efficient generation or use of energy, and air pollution abatement.

The meeting is scheduled for May 5, 1998 in the Zenger Room at the National

Press Club Building, 526 14th St., NW., 13th Floor, Washington, DC. The meeting will run from 9:00 a.m.-3:00 p.m.

EFAB is a federally chartered advisory board that provides analysis and advice to the U.S. Environmental Protection Agency (EPA) on environmental finance issues. EFAB has been asked by the EPA's Office of International Activities to review and comment on the guaranty fund concept. As part of EFAB's review, this meeting will solicit public comment and facilitate discussion of the best approaches to encourage the financing of environmental projects in the NIS.

A draft feasibility study on the Environmental Bond Guaranty program is available on EPA's web site at <http://www.epa.gov/efinpage/partcont.htm>. Summaries of the study in hard copy form are available by contacting the numbers listed below.
