Elimination System (NPDES) permitting program. In most cases these revisions relate to the following provisions of 40 CFR part 132, Appendix F: Procedure 3 ("Total Maximum Daily Loads, Wasteload Allocations for Point Sources, Load Allocations for Nonpoint Sources, Wasteload Allocations in the Absence of a TMDL, and Preliminary Wasteload Allocations for Purposes of Determining the Need for Water Quality Based Effluent Limits"); Procedure 4 ("Additivity"); Procedure 5 ("Reasonable Potential"); Procedure 6 (Whole Effluent Toxicity"); Procedure 7 ("Loading Limits"); Procedure 8: "Water Quality-based Effluent Limitations Below the Quantification Level); Procedure 9 ("Compliance Schedules"). EPA is not soliciting comment on the States' adoption of requirements pertaining to Implementation Procedures 1 ("Site Specific Modifications") or 2 ("Variances") because those requirements constitute parts of the States' water quality standards, not its NPDES program.

Under 40 CFR 123.62(b)(2) and 132.5(e), whenever EPA determines that a proposed revision to a State NPDES program is substantial, EPA must provide notice and allow public comment on the proposed revisions. The extent to which the States have modified their NPDES programs to be consistent with the Guidance varies significantly, depending on the extent to which their existing programs already were "as protective as" the implementation procedures in the Guidance. EPA has not conducted a State-by-State review of the submissions to ascertain for each State individually whether their changes constitute substantial program modifications. However, in light of the fact that the States have modified these programs in response to the explicit statutory mandate contained in section 118(c) of the Clean Water Act, EPA believes that it is appropriate to consider the NPDES component of the States' submissions to be substantial program modifications, and therefore has decided to solicit public comment regarding those provisions.

Interested persons may request a public hearing regarding whether EPA should approve, pursuant to 40 CFR 123.62, and 132.5(g), those portions of the States' submissions that revise the States' approved NPDES permitting program. EPA will determine, based upon requests received, if there is significant interest to warrant a public hearing.

Based on General Counsel Opinion 78–7 (April 18, 1978), EPA has long

considered a determination to approve or deny a State NPDES program submission to constitute an adjudication because an "approval", within the meaning of the APA, constitutes a "license", which, in turn, is the product of an "adjudication". For this reason, the statutes and Executive Orders that apply to rulemaking action are not applicable here. Among these are provisions of the Regulatory Flexibility Act (RFA), 5 U.S.C. 601 et seq. Under the RFA, whenever a Federal agency proposes or promulgates a rule under section 553 [of the Administrative Procedures Act (APA)], after being required by that section or any other law to publish a general notice of proposed rulemaking, the Agency must prepare a regulatory flexibility analysis for the rule, unless the Agency certifies that the rule will not have a significant economic impact on a substantial number of small entities. If the Agency does not certify the rule, the regulatory flexibility analysis must describe and assess the impact of a rule on small entities affected by the rule.

Even if the NPDES program modification were a rule subject to the RFA, the Agency would certify that approval of the State's modified program would not have a significant economic impact on a substantial number of small entities. EPA's action to approve an NPDES program modification merely recognizes revisions to the program which have already been enacted as a matter of State law; it would, therefore, impose no additional obligations upon those subject to the State's program. Accordingly, the Regional Administrator would certify that this program modification, even if a rule, would not have a significant economic impact on a substantial number of small entities.

Dated: April 15, 1998.

Acting Regional Administrator, Region 5. [FR Doc. 98–11258 Filed 4–27–98; 8:45 am] BILLING CODE 6560–50–P
